#### ACT College Readiness Benchmarks

Readiness Benchmark  
 If your score is at or above the Benchmark, you have at least a 50% chance of obtaining a B or higher or about a 75% chance of obtaining a C or higher in specific first-year college courses in the corresponding subject area. There are currently no Benchmarks for ELA or writing.

**Your Score Range**  
 Test scores are estimates of your educational development. Think of your true achievement on this test as being within a range that extends about one standard error of measurement, or about 1 point for the Composite and writing scores, and 2 points for STEM, ELA, and the other test scores, above and below your score.

**US & State Rank**  
 Your ranks tell you the approximate percentages of recent high school graduates in the US and your state who took the ACT® test and received scores that are the same as or lower than your scores. For example, a rank of 55 for your Composite score means 55% of students earned that Composite score or below.

### Sending Your Scores

A score report (including your photo) was automatically sent to the high school you reported when registration was completed for the test. Your school will use this information for counseling, evaluating the effectiveness of instruction, and planning changes and improvements in the curriculum.

At your direction, your scores from this test date are also being reported to the colleges shown. (Be aware that when you send a report to a college that is part of a school system, the college may share your score with other colleges in that system.) Institutions use your test scores along with high school grades, academic preparation, out-of-class accomplishments, future plans, and other factors to help identify applicants who can benefit most from their programs. In addition, colleges can use results on the ACT to assist scholarship/loan agencies in identifying qualified candidates, place students in first-year courses, and help students develop an appropriate program of study.

If you entered a college code incorrectly or forgot to include one, don't worry! You can still send scores to other colleges. Visit [www.act.org/the-act/scores](http://www.act.org/the-act/scores) to explore student resources or to order additional score reports.

### Detailed Results

**ACT Composite Score:** ACT math, science, English, and reading test scores and the Composite score range from 1 to 36. For each test, we converted your number of correct answers into a score within that range. Your Composite score is the average of your scores on the four subjects rounded to the nearest whole number. If you left any test completely blank, that score is reported as two dashes and no Composite score is computed.

**ACT Readiness Range:** This range shows where a student who has met the ACT College Readiness Benchmark on this assessment would typically perform.

**Understanding Complex Texts:** This indicator lets you know if you are understanding the central meaning of complex texts at a level that is needed to succeed in college courses with higher reading demand.

If you took the writing test, your essay was scored on a scale of 1 to 6 by two raters in each of the four writing domains. These domains represent essential skills and abilities that are necessary to meet the writing demands of college and career. Your domain scores, ranging from 2 to 12, are a sum of the two raters' scores. Your writing score is the average of your four domain scores rounded to the nearest whole number. To learn more about your writing score, visit [www.act.org/the-act/writing-scores](http://www.act.org/the-act/writing-scores).

Dashes (-) indicate information was not provided or could not be calculated.

### College and Career Planning

Where are you going? Knowing your interests can help you find the kinds of majors and occupations that may be right for you. Occupations differ widely in how much they involve working with four basic work tasks: Data, Ideas, People, and Things. Before you took the ACT, you completed an interest inventory. Your results point to occupations that involve the kinds of basic work tasks you prefer. Visit [www.actprofile.org](http://www.actprofile.org) to learn more.

According to your results, you enjoy working with **People & Data**. Here are a few examples of occupations involving this kind of work:

- Buyer
- FBI/CIA Agent
- Financial Manager
- Training/Education Manager
- Travel Guide

### Interest-Major Fit

Do your interests fit the college major you plan to enter? Based on information you provided, you plan to enter **Accounting**.

Your interests are fairly similar to the interests of college students in the major you plan to enter. Students in majors that fit their interests are often more satisfied with their major.
