# 2019–2020 ACT Code Numbers for Colleges and Other Score Recipients

When you take the ACT® test, score reports will be sent to you and your high school. You may also choose to share your test results with colleges, scholarship agencies, members of Congress, or other entities. If you decide to send scores to any of these parties, this document can help you locate the correct ACT codes.

The most up-to-date list of codes is at [www.act.org](http://www.act.org). This document is only updated two times a year.

The document organizes codes by:

- Institutions in the United States by state or US territory
- National institutions in the United States

- Institutions in Canada
- Institutions in other countries
- Congresspersons in the United States

Notes about using the document:

- If the institution you want to send scores to has more than one campus, make sure you use the correct ACT code for that site.
- If you want to send a score to an institution in a foreign country (other than Canada) and have questions about the abbreviations for countries in the list, refer to the *Country Code List* available through [www.act.org](http://www.act.org).

The following common institutional abbreviations for recipient names are used in the list:

ACAD - Academy  
 C or COLL - College  
 CC - Community college  
 COMM - Community  
 CTR or CNTR - Center  
 HOSP - Hospital  
 INST - Institute  
 MED - Medical  
 MEM - Memorial  
 SCH - School  
 ST - State  
 SYS - System  
 U or UNIV - University

# Congressional Codes

The following is a list of members of Congress and their ACT code numbers. Members of the US House of Representatives are listed first, followed by US senators. Each list is arranged alphabetically by state or US territory and either numerically by the district for the representative, or alphabetically by the name of the

senator.

If you need to send a report to a member of Congress as part of your application for appointment to a service academy, use the code number for the senator and/or representative below.
