ACT Profile Report - State

Graduating Class 2014

Michigan
Table of Contents

Section I: Executive Summary
- Percent of Your Students Ready for College-Level Coursework
- Five Year Trends—Percent of Students Who Met College Readiness Benchmarks
- Five Year Trends—Average ACT Scores
- Five Year Trends—Average ACT Scores by Level of Preparation
- Five Year Trends—Percent and Average Composite Score by Race/Ethnicity
- Percent of Students in College Readiness Standards Score Ranges
- Average ACT College Reportable Scores by Test Session Duration
- Percent of Students Who Met College Readiness Benchmark Scores by Test Session Duration

Section II: Academic Achievement
- ACT Score Distributions, Cumulative Percentages, Averages, and Quartile Values
- Average ACT Composite Scores for Race/Ethnicity by Level of Preparation
- Average ACT Scores by Race/Ethnicity
- Percent of Students in College Readiness Standards Score Ranges
- Average ACT Scores by Gender
- Percent of Students Who Met College Readiness Benchmark Scores by Gender
- College Readiness Benchmark Percent and Average ACT Scores by Overall High School Curriculum
- College Readiness Benchmark Percent and Average ACT Scores by Content-Specific Curriculum

Section III: College Readiness & Impact of Course Rigor
- Percent of Students Who Met ACT College Readiness Benchmark Scores by Race/Ethnicity
- Average ACT Scores and Average ACT Score Changes by Common Course Patterns
- College Readiness Percents by Common Course Patterns

Section IV: Career and Educational Aspirations
- Distribution of Planned Educational Majors for All Students by College Plans
- Average ACT Composite Scores for Racial/Ethnic Groups by Post-Secondary Educational Aspirations
- Students’ Score Report Preferences at Time of Testing

Section V: Optional Writing Test Results
- Average ACT English and Writing Scores by Race/Ethnicity and Gender for students who took ACT Writing
This report provides information about the performance of your 2014 graduating seniors who took the ACT as sophomores, juniors, or seniors; and self-reported at the time of testing that they were scheduled to graduate in 2014. Beginning with the Graduating Class of 2013, all students whose scores are college reportable, both standard and extended time tests, are now included in the report.

This report focuses on:

- **Performance** - student test performance in the context of college readiness

- **Access** - number of your graduates exposed to college entrance testing and the percent of race/ethnicity participation

- **Course Selection** - percent of students pursuing a core curriculum

- **Course Rigor** - impact of rigorous coursework on achievement

- **College Readiness** - percent of students meeting ACT College Readiness Benchmark Scores in each content area

- **Awareness** - extent to which student aspirations match performance

- **Articulation** - colleges and universities to which your students send test results

Each year, test data for a school, district, and the state represents a different cohort of students. ACT encourages educators to focus on trends (3, 5, 10 years), not year-to-year changes. Such changes can represent normal – even expected – fluctuations. On the other hand, trend lines offer more insight into what is happening in a school, district, or the state.

Furthermore, ACT encourages educators to measure student performance in the context of college readiness measures. The focus should be on the number and percentage of students who met or exceeded ACT’s College Readiness Benchmark Scores, a measure that is much more meaningful and understandable than an average composite score for a group of students.
The ACT is a curriculum-based measure of college readiness. ACT components include:

- Tests of academic achievement in English, math, reading, science, and writing (optional)
- High school grade and course information
- Student Profile Section
- Career Interest Inventory

The ACT:

Every few years, ACT conducts the ACT National Curriculum Survey to ensure its curriculum-based assessment tools accurately measure the skills high school teachers teach and instructors of entry-level college courses expect. The ACT is the only college readiness test designed to reflect the results of such a survey.

ACT’s College Readiness Standards are sets of statements intended to help students, parents and educators understand the meaning of test scores. The standards relate test scores to the types of skills needed for success in high school and beyond. They serve as a direct link between what students have learned and what they are ready to do next. The ACT is the only college readiness test for which scores can be tied directly to standards. Connecting College Readiness Standards to the Classroom interpretive guides can be found at www.act.org/standard/infoserv.html.

Only the ACT reports College Readiness Benchmark Scores – A benchmark score is the minimum score needed on an ACT subject-area test to indicate a 50% chance of obtaining a B or higher or about a 75% chance of obtaining a C or higher in the corresponding credit-bearing college courses, which include English Composition, Algebra, Social Science and Biology. These scores were empirically derived based on the actual performance of students in college. The College Readiness Benchmark Scores, updated in August of 2013, are:

<table>

For more information, go to www.act.org
How to Improve Scores and Increase College Readiness

22% of your students met all four ACT College Readiness Benchmark Scores (Table 1.1). To improve students' scores and increase the percentage of students identified as college ready, ACT suggests:

PROVIDING ACCESS FOR ALL STUDENTS TO TAKE THE ACT: 119,990 of your students are included in this report (the 'cohort'). Increasing access insures that more students have the opportunity to consider college and allows the reader to use this report to evaluate how well courses and instructional programs are preparing students for college and work.

MAKING CORE CURRICULUM A PRIORITY: Emphasize the need for all students to develop college and work ready skills, regardless of postsecondary aspirations. 73% of the students in the cohort reported taking courses that would be considered 'Core or More' (Table 1.4).

MAKING SURE STUDENTS ARE TAKING THE RIGHT KINDS OF COURSES: Table 3.2 reports 4% of the cohort took less than three years of math courses. Of these students, 9% were college ready. 19% of the cohort reported taking a course sequence of Algebra I, Algebra II, and Geometry. 10% of these students were college ready. In comparison, 46% of the students who took 3 or more years of math beyond Algebra I, Algebra II, and Geometry were college ready. Getting more students ready for Algebra prior to 9th grade will increase the chances that students will be prepared for and take advanced-level math courses.

Similarly, Table 3.2 reports 7% of the cohort took less than three years of natural science courses. 21% of these students were college ready. In comparison, 35% of students who took at least three years of science coursework were college ready.

EVALUATING RIGOR OF COURSES: Table 2.6 reports the percentage of students falling in each of the ACT College Readiness Standards score ranges. For example, approximately 57% of the cohort fall into the lowest three Mathematics score ranges. To increase these students' achievement, identify the standards they should focus on next by accessing ACT's College Readiness Standards at www.act.org/standard.

PLAN GUIDANCE ACTIVITIES BASED ON STUDENTS' CAREER AND COLLEGE ASPIRATIONS: Data in Tables 4.1 and 4.2 enable the reader to determine if aspirations are consistent with academic performance and whether among students with similar aspirations, academic performance is consistent across racial/ethnic groups.

For more information on interpreting data in this report, or to learn how ACT can help your students improve their readiness for college and the workplace, contact ACT Customer Service at 319-337-1309 or customerservices@act.org.
Section I
Executive Summary

Beginning in August of 2013, all students whose scores are college reportable, both standard and extended time tests, are now included.

Also beginning in August 2013 Graduating Class data, College Readiness Benchmarks for Reading and Science were updated to reflect the most recent college coursework research.

To find the results of only standard time or extended time test takers, refer to Tables 1.7 and 1.8 on page 10.
Figure 1.1. Percent of Your Students Ready for College-Level Coursework

A benchmark score is the minimum score needed on an ACT subject-area test to indicate a 50% chance of obtaining a B or higher or about a 75% chance of obtaining a C or higher in the corresponding credit-bearing college course.

</table>

¹CP is the cumulative percent of students at or below a score point.

Note: Shaded portions of columns identify the students who met/exceeded the ACT College Readiness Benchmark Scores.
Table 2.2. ACT Subscore Distributions, Cumulative Percentages (CP\(^1\)), and Subscore Averages

| ACT Scale Score | English Usage/Mechanics N | CP | Rhetorical Skills N | CP | Social Studies/Sciences N | CP | Arts/Literature N | CP | Pre/Elementary Algebra N | CP | Algebra/Coordinate Geometry N | CP | Plane Geometry/Trigonometry N | CP |
|-----------------|--------------------------|----|---------------------|----|--------------------------|----|---------------------|----|------------------------|----|--------------------------|----|--------------------------|----|------------------------|----|

*Curriculum Taken* reflects overall high school curriculum in this table.

2 "Core or More" results correspond to students taking four or more years of English AND three or more years each of math, social studies, and natural science.

3 Zero years or no coursework information reported in one or more content areas.

4 Composite CRB% results reflect students who met all four subject-area benchmarks.

</tbody>
</table>

*Curriculum Taken* reflects content-specific curriculum in this table.

2 "Core or More" results correspond to students taking four or more years of English or three or more years of math, social studies, or natural science, respectively.

For instance, Reading "Core or More" results correspond to students taking three or more years of social studies, regardless of courses taken in other content areas.

3 Zero years or no coursework information reported in the specified content area.
Section III
College Readiness and the Impact of Course Rigor

Beginning with the Graduating Class of 2013, all students whose scores are college reportable, both standard and extended time tests, are now included. Also beginning with the 2013 Graduating Class data, College Readiness Benchmarks for Reading and Science were updated to reflect the most recent college coursework research.

Section V
Optional Writing Test Results

Beginning with the Graduating Class of 2013, all students whose scores are college reportable, both standard and extended time tests, are now included. Also beginning with the 2013 Graduating Class data, College Readiness Benchmarks for Reading and Science were updated to reflect the most recent college coursework research.
