Before You Begin

Before you can order ACT® WorkKeys® test materials, you must first have a signed contract with ACT.

If you do not yet have a signed contract:

- **Current customers** should go to [https://pages2.act.org/order-workkeys.html](https://pages2.act.org/order-workkeys.html).
- **New customers** should go to [https://pages2.act.org/workkeys-info.html](https://pages2.act.org/workkeys-info.html).

Getting Started

Sites may order **standard time** and **accommodations test materials** for ACT WorkKeys. Pre-approval is not required before ordering accommodations test materials.

Order test materials as early as possible, **at least two weeks before** the **scheduled test date**. Requests to deliver test materials in less than ten business days will require expedited shipping at the customer’s expense.

If you have an account for ordering ACT® Engage® or PreACT® test materials, or Supplier Registration and Payment System (SRPS), use your established username and password to access the ACT WorkKeys materials ordering system. Then proceed to “How to Order Test Materials,” page 2.

C. What if I get a message that reads, “Already associated with another user” or “Account already exists”?
   - You may already have an account.
     - You may have already created an account. Return to the sign-in page and follow the steps outlined in “Do I already have an account?”
     - If you have already created a SRPS account, use the same email address and password to log in to order ACT WorkKeys materials.
     - You will not be allowed to create a new, separate account.
     - To verify if you already have an account, follow the steps outlined in “Do I already have an account?”
   - Your email address may already be associated with another user.
     This is most commonly encountered if a generic email address is being used (e.g., administration@anyhighschool.k12.org). Contact ACT Customer Care to resolve this issue.
   - The system is designed to match any new accounts with existing contacts for particular sites.
     - If the information entered is a partial match to data already on file for shipping or billing purposes, the system will be looking for an exact match on the first and last name.
     - The name you are entering may be a variation of the name we already have under the same email address; for example, if you were previously in our database as “Mike Smith”, you must create your new account using Mike, not Michael.

   **Note:** You can make changes to your name after creating your account and logging in.
D. What if I receive the message “Authentication Failed”?
This error occurs when you enter an email address and password that do not match your account registration.

- Make sure you are using the correct email and password.
- If you are using the correct email address but entering an incorrect password, **the account will lock after three unsuccessful attempts**. Reset your password using the “I forgot my password” option on the sign-in page, or contact ACT Customer Care to have your account unlocked.
- If you are using an incorrect email address, the account will not lock. Please follow the steps described in “Do I already have an account?” on page 5 or contact ACT Customer Care.
- Your account may not have been activated. Check your email for a link to activate your account.

E. What if I receive the error message “Account Creation Failed”?
Attempt to create your account again.

- Do not allow your Internet browser to auto populate any of the account creation fields.
- If you continue to receive this message, contact ACT Customer Care.

F. What if I can’t get past the challenge code?
Please try again, with the following in mind.

- The challenge code is not case sensitive.
- It is not necessary to enter any punctuation.
- A new challenge code can be requested by selecting the refresh icon to the right of the entry field.
- You may select the speaker icon to get an audio challenge rather than a visual challenge.

G. What if I haven’t received the email confirmation (or the link is broken/invalid)?
The activation email is an automatically generated message—there is a chance that it may be caught or delayed by a spam or junk filter.

- If you have not received the activation email within a few hours and cannot locate it in your spam or junk folders, another copy can be requested by selecting the “I forgot my password” option from the sign-in screen, entering your email, and selecting the option to have the activation email resent.
- If you are still unable to receive the activation email, or if you have received the activation email but cannot activate your account by following the link, contact ACT Customer Care for help.

H. What if I’m not seeing my expected organization in the selection menu (or no options at all)?
When the drop-down menu for the city or organization does not show any options, this indicates that your browser did not correctly load the list of cities or organizations.

- Select a different state, then reselect the correct state and the information should load properly.
- If you are not seeing your organization in the drop-down list, check under alternate spellings of the city name (e.g., a school in Saint Louis may be listed under St. Louis).
- If you are still unable to locate your organization, please contact ACT Customer Care for help.
