Profile Report - State

Graduating Class 2017

Washington
New to your 2017 Profile Report

Though ACT will continue to report English, mathematics, reading, and science subject scores, beginning in September 2016, subscores such as rhetorical skills and arts/literature will be omitted. Instead, a comprehensive set of reporting categories aligned with ACT College and Career Readiness Standards and other standards that target college and career readiness will be included. This change will make it easier for students, parents, and educators to gain deeper insight into students’ performance and better understand strengths and areas for improvement in each subject.

In this report, reporting category outcomes indicate the percentage of students with reporting category scores falling within associated ACT Readiness Ranges. These ranges reflect where a student who as met an associated ACT College Readiness Benchmark would typically perform in each reporting category.
Table of Contents

Section I: Executive Summary
Average Composite Scores: 5 Years of Testing
Percent Meeting 3 or 4 Benchmarks: 5 Years of Testing
Percent Meeting STEM Benchmark: 5 Years of Testing
Percent Taking A Core Curriculum: 5 Years of Testing
Five Year Trends—Percent of Students Who Met College Readiness Benchmarks
Five Year Trends—Average ACT Scores
Five Year Trends—Average ACT Scores by Level of Preparation
Five Year Trends—Percent and Average Composite Score by Race/Ethnicity
Five Year Trends—Achievement in STEM Proficiency Toward Understanding Complex Text
Average ACT College Reportable Scores by Test Session Duration
Percent of Students Who Met College Readiness Benchmark Scores by Test Session Duration

Section II: Academic Achievement
Average ACT Composite Scores by Race and Core Curriculum Status
ACT Score Distributions, Cumulative Percents, and Averages
Subject Area Reporting Categories
Average ACT Composite Scores for Race/Ethnicity by Level of Preparation
Average ACT Scores by Race/Ethnicity
Average ACT Composite Scores for Gender by Level of Preparation
Average ACT Scores by Gender
ACT Score Quartile Values

Section III: College Readiness & Impact of Course Rigor
Percent of Students Meeting 3 or 4 College Readiness Benchmarks by Core College Curriculum Status
Percent of Students in College and Career Readiness Standards (CCRS) Score Ranges
Percent of Students Who Met ACT College Readiness Benchmark Scores by Gender
Percent of Students Who Met ACT College Readiness Benchmark Scores by Race/Ethnicity
Likely ACT National Career Readiness Certificate (NCRC) Level Based Upon ACT Composite Score
College Readiness Benchmark Percent and Average ACT Scores by Overall High School Curriculum
College Readiness Benchmark Percent and Average ACT Scores by Content-Specific Curriculum
College Readiness Benchmark Percent and Average ACT Scores by Common Course Patterns
College Readiness Benchmark Percent and Average ACT Scores for Gender by Common Course Patterns

Section IV: Career and Educational Aspirations
Average ACT Composite Scores by Race and Student Postsecondary Aspirations
Distribution of Planned Educational Majors for All Students by College Plans
Average ACT Composite Scores for Racial/Ethnic Groups by Post-Secondary Educational Aspirations
Students' Score Report Preferences at Time of Testing

Section V: Optional Writing Test Results
Average ACT Writing Scores by Race/Ethnicity
Average ACT Writing and English/Language Arts Scores by Race/Ethnicity and Gender for students who took ACT Writing
We are pleased to provide this 2017 Graduating Class ACT Profile Report. This report summarizes the preparation and performance of your 2017 graduates who took the ACT as sophomores, juniors, or seniors under standard- or extended-time conditions and achieved a college reportable composite score. The most recent set of test information is used in your report for students testing more than once.

This report focuses on:

- **Performance** - student test performance in the context of college readiness
- **Access** - number of your graduates exposed to college entrance testing and the percent of race/ethnicity participation
- **Course Selection** - percent of students pursuing a core curriculum
- **Course Rigor** - impact of rigorous coursework on achievement
- **College Readiness** - percent of students meeting ACT College Readiness Benchmark Scores in each content area
- **Awareness** - extent to which student aspirations match performance
- **Articulation** - colleges and universities to which your students send test results

Each year, test data for a school, district, and the state represents a different cohort of students. ACT encourages educators to focus on trends (3, 5, 10 years), not year-to-year changes. Such changes can represent normal – even expected – fluctuations. On the other hand, trend lines offer more insight into what is happening in a school, district, or the state.

Furthermore, ACT encourages educators to measure student performance in the context of college readiness measures. The focus should be on the number and percentage of students who met or exceeded ACT’s College Readiness Benchmark Scores, a measure that is much more meaningful and understandable than an average composite score for a group of students.
The ACT is a curriculum-based measure of college readiness. ACT components include:
Tests of academic achievement in English, math, reading, science, STEM, and writing (optional)
High school grade and course information
Student Profile Section
Career Interest Inventory

The ACT:
Every few years, ACT conducts the ACT National Curriculum Survey to ensure its curriculum-based assessment tools accurately measure the skills high school teachers teach and instructors of entry-level college courses expect. The ACT is the only college readiness test designed to reflect the results of such a survey.

ACT’s College and Career Readiness Standards are sets of statements intended to help students, parents and educators understand the meaning of test scores. The standards relate test scores to the types of skills needed for success in high school and beyond. They serve as a direct link between what students have learned and what they are ready to do next. The ACT is the only college readiness test for which scores can be tied directly to standards. College and Career Readiness Standards to the Classroom interpretive guides can be found at www.act.org/content/act/en/education-and-career-planning/college-and-career-readiness-standards.html.

Only the ACT reports College Readiness Benchmark Scores – A benchmark score is the minimum score needed on an ACT subject-area test to indicate a 50% chance of obtaining a B or higher or about a 75% chance of obtaining a C or higher in the corresponding credit-bearing college courses, which include English Composition, Algebra, Social Science, Biology and STEM. These scores were empirically derived based on the actual performance of students in college.

How to Improve Scores and Increase College Readiness

36% of your students met all four ACT College Readiness Benchmark Scores (Table 1.1). To improve students' scores and increase the percentage of students identified as college ready, ACT suggests:

PROVIDING ACCESS FOR ALL STUDENTS TO TAKE THE ACT: 19,581 of your students are included in this report (the 'cohort'). Increasing access insures that more students have the opportunity to consider college and allows the reader to use this report to evaluate how well courses and instructional programs are preparing students for college and work.

MAKING CORE CURRICULUM A PRIORITY: Emphasize the need for all students to develop college and work ready skills, regardless of postsecondary aspirations. 65% of the students in the cohort reported taking courses that would be considered 'Core or More' (Table 1.4).

MAKING SURE STUDENTS ARE TAKING THE RIGHT KINDS OF COURSES: Table 3.8 reports 5% of the cohort took less than three years of math courses. Of these students, 8% were college ready. 13% of the cohort reported taking a course sequence of Algebra I, Algebra II, and Geometry. 7% of these students were college ready. In comparison, 62% of the students who took 3 or more years of math beyond Algebra I, Algebra II, and Geometry were college ready. Getting more students ready for Algebra prior to 9th grade will increase the chances that students will be prepared for and take advanced-level math courses.

Similarly, Table 3.8 reports 19% of the cohort took less than three years of natural science courses. 17% of these students were college ready. In comparison, 52% of students who took at least three years of science coursework were college ready.

EVALUATING RIGOR OF COURSES: Table 3.1 reports the percentage of students falling in each of the ACT College and Career Readiness Standards score ranges. For example, approximately 43% of the cohort fall into the lowest three Mathematics score ranges. To increase these students’ achievement, identify the standards they should focus on next by accessing ACT’s College and Career Readiness Standards at at www.act.org/content/act/en/education-and-career-planning/college-and-career-readiness-standards.html.

PLAN GUIDANCE ACTIVITIES BASED ON STUDENTS' CAREER AND COLLEGE ASPIRATIONS: Data in Tables 4.1 and 4.2 enable the reader to determine if aspirations are consistent with academic performance and whether, among students with similar aspirations, academic performance is consistent across racial/ethnic groups.

For more information on interpreting data in this report, or to learn how ACT can help your students improve their readiness for college and the workplace, contact ACT Customer Service at 319-337-1365 or customerservices@act.org.
Section I
Executive Summary

Beginning in August of 2013, all students whose scores are college reportable, both standard and extended time tests, are now included. Also beginning in August 2013 Graduating Class data, College Readiness Benchmarks for Reading and Science were updated to reflect the most recent college coursework research.

To find the results of only standard time or extended time test takers, refer to Tables 1.8 and 1.9 on page 10.
Figure 1.1. Average Composite Scores: 5 Years of Testing*

2012-2013: 22.8, 20.9
2013-2014: 23.0, 21.0
2014-2015: 22.4, 21.0
2015-2016: 23.1, 20.8
2016-2017: 21.9, 21.0

* State: Light blue, National: Green

Section II
Academic Achievement

Beginning with the Graduating Class of 2013, all students whose scores are college reportable, both standard and extended time tests, are now included. Also beginning with the 2013 Graduating Class data, College Readiness Benchmarks for Reading and Science were updated to reflect the most recent college coursework research.
Figure 2.1. Average ACT Composite Scores by Race and Core Curriculum Status*

*Missing columns reflect combinations of race/ethnicity and core course-taking status in which one or both indicators are missing.

¹CP is the cumulative percent of students at or below a score point.

Note: Shaded portions of columns identify the students who met/exceeded the ACT College Readiness Benchmark Scores.
The charts on this page show the percent of students whose reporting category scores fall within associated ACT Readiness Ranges. ACT Readiness Ranges reflect where a student who has met a particular subject area’s ACT College Readiness Benchmark would typically perform within the associated reporting category.

¹Reporting Categories are reported only for testing events beginning September 2016.

Beginning with the Graduating Class of 2013, all students whose scores are college reportable, both standard and extended time tests, are now included. Also beginning with the 2013 Graduating Class data, College Readiness Benchmarks for Reading and Science were updated to reflect the most recent college coursework research.
Figure 3.1. Percent of Students Meeting 3 or 4 College Readiness Benchmarks by Core College Curriculum Status*

The ACT Composite scores associated with a 50% chance of earning each ACT NCRC level or higher are: 13 for Bronze, 17 for Silver, 25 for Gold, and 35 for Platinum. Based on those cut scores, students who earned an ACT Composite score of less than 13 would be classified as ‘Needs Improvement’, 13 to 16 as ‘Bronze’, 17 to 24 as ‘Silver’, and 25 or above as ‘Gold or Higher’ in the table above. For comparison, individual student score reports classify those who scored 12-13, 14-17, and 18 and higher as making progress toward Bronze, Silver, and Gold certificates.

</table>

1 “Curriculum Taken” reflects overall high school curriculum in this table.
2 “Core or More” results correspond to students taking four or more years of English AND three or more years each of math, social studies, and natural science.
3 Zero years or no coursework information reported in one or more content areas.
4 Composite College Readiness Benchmark % results reflect students who met all four subject-area benchmarks.

</table>

1 “Curriculum Taken” reflects content-specific curriculum in this table.
2 “Core or More” results correspond to students taking four or more years of English or three or more years of each of math, social studies, or natural science, respectively.
3 Zero years or no coursework information reported in the specified content area.

For instance, Reading “Core or More” results correspond to students taking three or more years of social studies, regardless of courses taken in other content areas.

Section IV
Career and Educational Aspirations

Beginning with the Graduating Class of 2013, all students whose scores are college reportable, both standard and extended time tests, are now included. Also beginning with the 2013 Graduating Class data, College Readiness Benchmarks for Reading and Science were updated to reflect the most recent college coursework research.
Figure 4.1. Average ACT Composite Scores by Race and Student Postsecondary Aspirations*

*Missing columns reflect combinations of race/ethnicity and postsecondary aspiration in which one or both indicators are missing.
