

What Can I Do with a Major in ...?

Already know what you want to major in? Well, we have good news for you! We offer a resource to help you discover and explore occupations related to your major. For each major, our website can provide you with a list of related occupations and their work tasks, education requirements, salary, and job availability.

How do I find this information on occupations related to my major?

It is simple to learn about occupations related to your major; just follow these steps:

1. Go to the following website: <http://www.act.org/wwm/index.html> to explore majors associated with various careers.
2. Also, contact professors, alumni, and/or professionals in the field. These individuals are a valuable source of firsthand knowledge and experience. Visit “Building Professional Relationships” on the SRI Tool Shop webpage to figure out how to find professionals in your occupation of interest.
3. Finally, talk to your academic advisor about planning your education for pursuit of your chosen career.
