The first step is to agree to the Admission Rules:

Admission Rules

Hello and Welcome to your ACT Test!

You will be proctored by a live proctor who will be available to assist and monitor your exam. They will be available throughout the exam if you have any questions, via the Live Chat feature.

You are allowed to use:
- A dry erase surface and marker for your exam OR 2 pieces of plain paper
  - You must show the front and back of the paper during the live room scan.
- Your own calculator
  - You must show the calculator is turned **off** during the live room scan and **only use the calculator during the math section.**

If your system disconnects, wait briefly to see if it reconnects. If it does not, call technical support (1-855-257-1648) and we'll do eveything possible to get you reconnected to continue the exam. If you have any questions, send your proctor a chat.

Please remember there is NO talking, whispering, mouthing or use of electronics or other materials allowed during the exam. Please do your best to avoid covering your mouth during the exam, and make sure your entire face is visible to the camera. Both hands must remain on or above the workspace area.

No food or drinks are allowed during the exam. You can take a break of up to 15-minutes between the second section and third section of the exam, during which you can leave your desk.

You must hit the **"Break"** button and chat to your proctor before starting any break or the facial detection timer will time out and terminate the exam. If you press the **"Break"** button during any other part of the exam, it will be considered an unscheduled break and the timer will keep running.

Do not access any electronics or other materials during testing or break time.

If the proctors see anything concerning during the exam, they may send a chat to ensure you follow the ACT rules. If something serious happens, you may see a warning screen. The most important rule is not to access any electronic devices (cell phone, smartwatch, etc.) during the test.

Cell phones, smart watches, fitness bands, and any other devices with recording, internet, or communication capabilities are prohibited.

Disconnection from Secure Browser- if you are disconnected from the secure browser, you should relaunch secure browser from the desktop icon or the executable file in your download folder. You will be asked to re-identify yourself.

Once you have read and agree these terms, to continue please click "agree".

The next step is a room scan. Follow the on-screen instructions to scan the room you are in and the workspace where your computer is located.

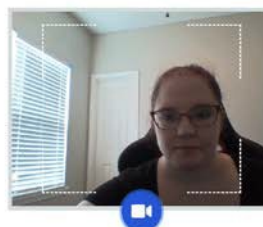

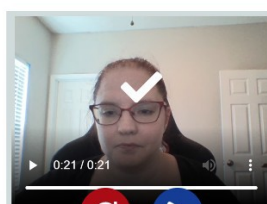

Review the room scan and decide if you want to retake the video or continue. Please note the length of the video should not exceed 2 minutes.

The final step is to take a photo of yourself. Follow the on-screen instructions and click on the camera button when you are ready. If you are satisfied with the photo click Continue.
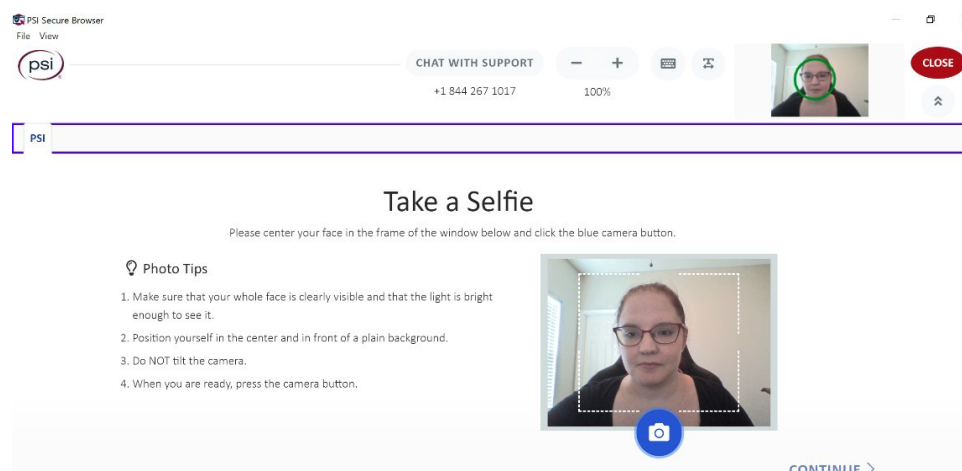

After submitting your check-in, you will be connected to ACT's Test Launch Portal. Enter the Email, Launch Code and Room Code that were provided to you by ACT to access your test. These are the same ones you used to access your PSI account.

You should have a printed or written copy of your log in details to hand once you proceed to the next screen. This will be one of the few pieces of paper you'll be allowed to have on your desk.
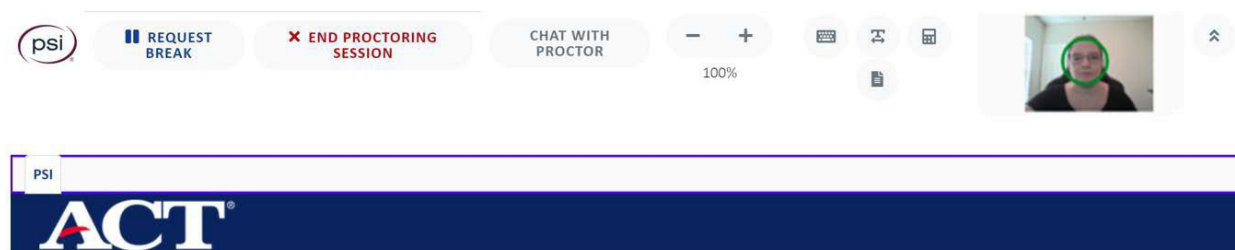

If you become disconnected and need to re-launch the Secure Browser, you can launch from a shortcut for the PSI Bridge Secure Browser that was added to your desktop, or by logging back in to the PSI website https://www.psiexams.com/psitest.
