

## ACT Aspire/PreACT Study

ACT<sup>®</sup> Aspire<sup>®</sup> or PreACT<sup>®</sup> scores can be helpful indicators of student readiness for Advanced Placement (AP), International Baccalaureate (IB), and concurrent enrollment courses. While a preliminary linkage exists between ACT Aspire and AP course success, data on more recent cohorts of students is required to better understand these relationships and reflect courses currently being taken by students. ACT is seeking your participation in this collaborative research opportunity.

---

### Requirements

- Administered either assessment to 9th- and/or 10th-grade students in 2016-2017 or 2017-2018
- 100 or more PreACT-tested students or 100 or more ACT Aspire-tested students
- Offer more than 6 Advanced Placement course options
- Provide academic performance data on these students (e.g., course grades, exam scores)

### Benefits

- Up to \$500 stipend
- ACT Aspire and/or PreACT cut scores that are associated with a reasonable chance of success in AP, IB, and concurrent enrollment courses

### Next Steps
