# ACT<sup>®</sup> Student Information

This booklet documents the information requested of students who take the ACT<sup>®</sup> test. There are three major sections:

## High School Course/Grade Information

This section asks for information about 30 courses students have taken, plan to take, or do not plan to take. For courses taken for a full term, students also report the grades received.

## Interest Inventory

This section asks for information about students' interests, to help them make educational and career plans.

## Student Profile Section

This section asks for information about students' backgrounds, interests, needs, and plans to assist students and colleges in effective planning.

These sections are provided to help recipients of electronic score records understand the meaning of the values reported for these sections.

## High School Course/Grade Information

For National test administrations, all responses for this section provided online during registration, are optional. If you choose to respond, some items will then have required components to answer. For examinees who are providing responses online and are in 10th, 11th, or 12th grade or are providing responses online for State and District testing:

- Questions about the courses are required
- Questions about grades received are optional

For International test administrations, all responses for this section provided online are optional. If you choose to respond, some items will then have required components.

ACT will calculate a grade point average (GPA) on an unweighted 4.0 scale based on your grade responses. Accuracy is important; the information you give may be verified by college personnel. You may wish to refer to your previous high school grade reports or a copy of your current high school transcript to help you complete this section.

*Note: This information is important in helping colleges identify students with adequate high school preparation in various academic areas.*

## Student Profile Section

The Student Profile Section (SPS) is designed to help you think about your future education and to help colleges in their planning.

**All of these questions are optional unless noted.** If you choose to answer them, be sure the information you provide is as accurate as possible, because it will be used in various ways. For example, a college may use some of your ACT information as your application for admission, and scholarship programs may use your answers to certain questions to consider you for an award. Information that you choose to provide might become part of your basic record at a college.

Although you may skip any optional question that you do not wish to answer, we can provide colleges and scholarship programs with a more complete profile when you answer more questions and provide updates to ACT.

**ACT strongly encourages you and your parent(s) or guardian(s) to carefully review the ACT Privacy Policy to understand how we collect, use, and disclose personally identifying information.**
