# CAREER OPTIONS (For Student Use)

The World-of-Work Map arranges Career Areas (groups of similar occupations) into 12 regions. The location of a Career Area shows how much it involves working with people, things, data, and ideas. Although the locations of occupations in an area differ, most are near the point shown. Your location on the World-of-Work Map is based on the 72 activity preferences you reported on the ACT Interest Inventory. To identify related college majors, see the steps below the map.

## WORLD-OF-WORK MAP

### HOW TO USE THE MAP:

1. The Career Areas in the shaded regions contain occupations that involve the kinds of activities you told us you prefer. Information on hundreds of occupations and college majors is available at [www.actstudent.org](http://www.actstudent.org). Find out about occupations in Career Areas that look good to you.
2. If "Region 99" is reported, your responses to the inventory did not suggest a clear direction to explore. If your map is blank, you did not answer enough items for scoring. Go to [www.actstudent.org](http://www.actstudent.org) and begin exploring.
3. Starting to think about college majors? The list to the right shows a few examples of college majors related to each Career Area.

Keep in mind that map regions (like other test scores) are estimates. They provide suggestions, not decisions. Also, your **interests** and **abilities** may differ. Both need to be considered in career planning.

## EXAMPLES OF COLLEGE MAJORS AND PROGRAMS

Examples of college majors and programs of study related to each **Career Area** are listed below. (Your counselor or advisor may have additional examples.) Programs are designated (2) if they are usually offered by 2-year colleges and (4) if they are usually offered by 4-year colleges. Programs usually offered by both are designated (2, 4).
