Whether you’re thinking about the next phase of your education, launching a new career, or making a transition in your current job, the WorkKeys Assessment is an important first step to prepare. Your assessment scores help you compare your skills to the skills real jobs require.

ACT WorkKeys Assessment questions are based on situations in the everyday work world. That’s why employers nationwide require these assessments or ask applicants for the ACT® WorkKeys® National Career Readiness Certificate® (NCRC®) to help them hire, train, and promote the most qualified candidates. The WorkKeys NCRC is awarded on the basis of individuals’ WorkKeys scores and is the most widely used employability credential in the country.

ACT WorkKeys Assessments include both hard and soft skills assessments that enable you to:
- Determine the skill levels you’ve achieved
- Identify skills you could improve
- Match your skill levels to specific job requirements
- Show employers that you have the skills needed for workplace success

Based on data from more than 21,000 job profiles, ACT has identified three foundational skills that are essential to success in most jobs. These three core skill assessments also form the basis for earning the WorkKeys NCRC:
- Applied Math
- Graphic Literacy
- Workplace Documents
UNDERSTANDING YOUR ACT WORKKEYS ASSESSMENTS SCORES

The Level Scores describe the skills you have achieved and can apply on the job or in training. After taking the assessments, you will receive a score report. Your score is determined by the number of questions answered correctly. **There is no penalty for guessing.**

ACT WORKKEYS SCORE REPORTS

Your report may be slightly different from those shown here, depending on how and where you took the test, but all of the essential elements are the same.
