## Preface

This document is a supplement to the *State Match Alabama Courses of Study English Language Arts, Mathematics, and Science Grades 8–12 and EXPLORE, PLAN, the ACT, and WorkKeys (April 2010)*. This supplement identifies specific ACT College Readiness Standards that correspond to each Alabama Content Standard in a side-by-side format. The left side of each page presents the Alabama Content Standards (highlighted if measured by ACT’s corresponding testing program). The right side of each page presents the specific ACT College Readiness Standard(s) and WorkKeys skill(s) that correspond to each Alabama Standard.

Alabama Content Standards listed here are from the Alabama Courses of Study as presented on the Alabama Department of Education’s website in March 2010.

TABLE 1A

ALABAMA Grade 8 English Language Arts Content Standards	EXPLORE English College Readiness Standards
Writing and Language	
7. Compose a business letter, including heading, inside address, salutation, body, closing, and signature.	
8. Write in narrative, expository, and persuasive modes with attention to descriptive elements.	
<p>9. Apply mechanics in writing, including using quotation marks, underlining, and italics to punctuate titles and using semicolons, conjunctive adverbs, and commas to join two independent clauses or to correct run-on sentences.</p> <ul style="list-style-type: none"> <li>• Demonstrating correct sentence structure by avoiding comma splices in writing</li> <li>• Using commas to set off nonessential clauses and appositives in writing</li> </ul>	<p><b>Sentence Structure and Formation:</b></p> <p>Use conjunctions or punctuation to join simple clauses</p> <p>Revise shifts in verb tense between simple clauses in a sentence or between simple adjoining sentences</p> <p>Determine the need for punctuation and conjunctions to avoid awkward-sounding sentence fragments and fused sentences</p> <p>Decide the appropriate verb tense and voice by considering the meaning of the entire sentence</p> <p>Recognize and correct marked disturbances of sentence flow and structure (e.g., participial phrase fragments, missing or incorrect relative pronouns, dangling or misplaced modifiers)</p> <p>Revise to avoid faulty placement of phrases and faulty coordination and subordination of clauses in sentences with subtle structural problems</p> <p>Maintain consistent verb tense and pronoun person on the basis of the preceding clause or sentence</p> <p><b>Conventions of Usage:</b></p> <p>Solve such basic grammatical problems as how to form the past and past participle of irregular but commonly used verbs and how to form comparative and superlative adjectives</p> <p>Solve such grammatical problems as whether to use an adverb or adjective form, how to ensure straightforward subject-verb and pronoun-antecedent agreement, and which preposition to use in simple contexts</p> <p>Recognize and use the appropriate word in frequently confused pairs such as <i>there</i> and <i>their</i>, <i>past</i> and <i>passed</i>, and <i>led</i> and <i>lead</i></p> <p>Use idiomatically appropriate prepositions, especially in combination with verbs (e.g., <i>long for</i>, <i>appeal to</i>)</p> <p>Ensure that a verb agrees with its subject when there is some text between the two</p> <p>Ensure that a pronoun agrees with its antecedent when the two occur in separate clauses or sentences</p> <p>Identify the correct past and past participle forms of irregular and infrequently used verbs and form present-perfect verbs by using <i>have</i> rather than <i>of</i></p> <p><b>Conventions of Punctuation:</b></p> <p>Delete commas that create basic sense problems (e.g., between verb and direct object)</p> <p>Provide appropriate punctuation in straightforward situations (e.g., items in a series)</p>

TABLE 1A

ALABAMA Grade 8 English Language Arts Content Standards	EXPLORE English College Readiness Standards
	<p>Delete commas that disturb the sentence flow (e.g., between modifier and modified element)</p> <p>Use commas to set off simple parenthetical phrases</p> <p>Delete unnecessary commas when an incorrect reading of the sentence suggests a pause that should be punctuated (e.g., between verb and direct object clause)</p> <p>Use punctuation to set off complex parenthetical phrases</p> <p>Recognize and delete unnecessary commas based on a careful reading of a complicated sentence (e.g., between the elements of a compound subject or compound verb joined by <i>and</i>)</p> <p>Use apostrophes to indicate simple possessive nouns</p> <p>Recognize inappropriate uses of colons and semicolons</p>
<p>10. Use prepositional phrases and compound, complex, and compound-complex sentences to vary sentence structure.</p> <ul style="list-style-type: none"> <li>Using gerunds, infinitives, and participles in writing</li> <li>Recognizing active and passive voice in writing</li> <li>Applying subject-verb agreement rules with collective nouns, nouns compound in form but singular in meaning, compound subjects joined by correlative and coordinating conjunctions, and subjects plural in form but singular in meaning</li> </ul>	<p><b>Sentence Structure and Formation:</b></p> <p>Decide the appropriate verb tense and voice by considering the meaning of the entire sentence</p> <p><b>Conventions of Usage:</b></p> <p>Solve such grammatical problems as whether to use an adverb or adjective form, how to ensure straightforward subject-verb and pronoun-antecedent agreement, and which preposition to use in simple contexts</p> <p>Ensure that a verb agrees with its subject when there is some text between the two</p>
<p>11. Write sentence patterns common to English construction.</p>	
<p>12. Identify the correct use of degrees of comparison, adjectives and adverb forms, and subject-verb agreement with collective nouns when verb forms depend on the rest of the sentence and with compound subjects, including those joined by <i>or</i> with the second element as singular or plural.</p> <ul style="list-style-type: none"> <li>Recognizing parallelism in phrases and clauses</li> </ul>	<p><b>Sentence Structure and Formation:</b></p> <p>Use conjunctions or punctuation to join simple clauses</p> <p>Determine the need for punctuation and conjunctions to avoid awkward-sounding sentence fragments and fused sentences</p> <p>Recognize and correct marked disturbances of sentence flow and structure (e.g., participial phrase fragments, missing or incorrect relative pronouns, dangling or misplaced modifiers)</p> <p>Revise to avoid faulty placement of phrases and faulty coordination and subordination of clauses in sentences with subtle structural problems</p> <p><b>Conventions of Usage:</b></p> <p>Solve such basic grammatical problems as how to form the past and past participle of irregular but commonly used verbs and how to form comparative and superlative adjectives</p> <p>Solve such grammatical problems as whether to use an adverb or adjective form, how to ensure straightforward subject-verb and pronoun-antecedent agreement, and which preposition to use in simple contexts</p> <p>Ensure that a verb agrees with its subject when there is some text between the two</p>

**TABLE 1A**

ALABAMA Grade 8 English Language Arts Content Standards	EXPLORE College Readiness Standards
Research and Inquiry	
13. Combine all aspects of the research process to compose a report. <ul style="list-style-type: none"> <li>• Taking notes to gather and summarize information</li> <li>• Using paraphrasing and documentation of sources to avoid plagiarism</li> </ul>	
Oral and Visual Communication	
14. Identify characteristics of spoken formal and informal language.	

TABLE 1B

ALABAMA Grade 9 English Language Arts Content Standards	EXPLORE Reading College Readiness Standards
Reading	
<p>1. Identify genre, tone, and plot in short stories, drama, and poetry and identify organizational structure in essays and other nonfiction text to comprehend ninth-grade recreational reading materials.</p> <ul style="list-style-type: none"> <li>• Reading predominantly world literature</li> </ul>	
<p>2. Compare the use of language and literary elements and devices, including rhythm, rhyme scheme, tone, and plot, in various selections, cultures, and genres.</p> <ul style="list-style-type: none"> <li>• Interpreting symbolism and other figurative language</li> <li>• Recognizing foreshadowing to anticipate events</li> <li>• Making inferences about characters and their motives</li> <li>• Determining effectiveness of diction</li> <li>• Recognizing use of analogy</li> </ul>	
<p>3. Read with comprehension a variety of ninth-grade informational and functional reading materials, including recognizing tone and propaganda.</p> <ul style="list-style-type: none"> <li>• Organizing steps of a process and other sequences</li> <li>• Identifying organizational structure</li> <li>• Recognizing fallacies in logic</li> <li>• Following complex written directions</li> </ul>	<p><b>Main Ideas and Author’s Approach:</b></p> <p>Understand the overall approach taken by an author or narrator (e.g., point of view, kinds of evidence used) in uncomplicated passages</p> <p>Identify a clear main idea or purpose of any paragraph or paragraphs in uncomplicated passages</p> <p>Infer the main idea or purpose of straightforward paragraphs in more challenging passages</p> <p>Summarize basic events and ideas in more challenging passages</p> <p>Understand the overall approach taken by an author or narrator (e.g., point of view, kinds of evidence used) in more challenging passages</p> <p><b>Supporting Details:</b></p> <p>Locate basic facts (e.g., names, dates, events) clearly stated in a passage</p> <p>Locate simple details at the sentence and paragraph level in uncomplicated passages</p> <p>Recognize a clear function of a part of an uncomplicated passage</p> <p>Locate important details in uncomplicated passages</p> <p>Make simple inferences about how details are used in passages</p> <p>Locate important details in more challenging passages</p> <p>Locate and interpret minor or subtly stated details in uncomplicated passages</p> <p>Discern which details, though they may appear in different sections throughout a passage, support important points in more challenging passages</p> <p><b>Sequential, Comparative, and Cause-Effect Relationships:</b></p> <p>Determine when (e.g., first, last, before, after) or if an event occurred in uncomplicated passages</p>

**TABLE 1B**

ALABAMA Grade 9 English Language Arts Content Standards	EXPLORE Reading College Readiness Standards
	<p>Recognize clear cause-effect relationships described within a single sentence in a passage</p> <p>Identify clear relationships between people, ideas, and so on in uncomplicated passages</p> <p>Identify clear cause-effect relationships in uncomplicated passages</p> <p>Order sequences of events in uncomplicated passages</p> <p>Understand relationships between people, ideas, and so on in uncomplicated passages</p> <p>Understand implied or subtly stated cause-effect relationships in uncomplicated passages</p> <p>Identify clear cause-effect relationships in more challenging passages</p> <p><b>Meanings of Words:</b></p> <p>Understand the implication of a familiar word or phrase and of simple descriptive language</p> <p>Use context to understand basic figurative language</p> <p>Use context to determine the appropriate meaning of some figurative and nonfigurative words, phrases, and statements in uncomplicated passages</p> <p>Use context to determine the appropriate meaning of virtually any word, phrase, or statement in uncomplicated passages</p> <p>Use context to determine the appropriate meaning of some figurative and nonfigurative words, phrases, and statements in more challenging passages</p> <p><b>Generalizations and Conclusions:</b></p> <p>Draw simple generalizations and conclusions about people, ideas, and so on in uncomplicated passages</p> <p>Draw generalizations and conclusions about people, ideas, and so on in uncomplicated passages</p> <p>Draw simple generalizations and conclusions using details that support the main points of more challenging passages</p> <p>Draw generalizations and conclusions about people, ideas, and so on in more challenging passages</p>

[No standards in this strand for this course]	
Algebra	
1. Create algebraic models for application-based problems by developing and solving equations and inequalities, including those involving direct, inverse, and joint variation.	Calculate averages, simple ratios, simple proportions, or rates using whole numbers and decimals Decide what information, calculations, or unit conversions to use to solve the problem Look up a formula and perform single-step conversions within or between systems of measurement Rearrange a formula before solving a problem
2. Solve application-based problems by developing and solving systems of linear equations and inequalities.	Solve problems that include nonlinear functions and/or that involve more than one unknown
3. Use formulas or equations of functions to calculate outcomes of exponential growth or decay.	
4. Determine maximum and minimum values of a function using linear programming procedures.	
5. Determine approximate rates of change of nonlinear relationships from graphical and numerical data. <ul style="list-style-type: none"> <li>Creating graphical representations from tables, equations, or classroom-generated data to model consumer costs and to predict future outcomes</li> </ul>	
6. Use the extreme value of a given quadratic function to solve applied problems.	
7. Use analytical, numerical, and graphical methods to make financial and economic decisions, including those involving banking and investments, insurance, personal budgets, credit purchases, recreation, and deceptive and fraudulent pricing and advertising. <ul style="list-style-type: none"> <li>Creating, manually or with technological tools, graphs and tables related to personal finance and economics</li> </ul>	Calculate averages, simple ratios, simple proportions, or rates using whole numbers and decimals Find the best deal using one- and two-step calculations and then comparing results Calculate percentage discounts or markups Solve problems that include nonlinear functions and/or that involve more than one unknown Find the best deal and use the result for another calculation Calculate multiple rates
Geometry	
8. Determine missing information in an application-based situation using properties of right triangles, including trigonometric ratios and the Pythagorean Theorem.	Find areas of basic shapes when it may be necessary to rearrange the formula, convert units of measurement in the calculations, or use the result in further calculations
9. Analyze aesthetics of physical models for line symmetry, rotational symmetry, or the golden ratio.

Recognizing the many factors that affect the outcome of events and understanding their relationships to each other whereby one factor (variable) can be manipulated while others are controlled	Sort through distracting information
Defining Operationally	
Stating definitions of objects or events based on observable characteristics	Identify trends shown in one or two straightforward graphics
Formulating Hypotheses	
Making predictions of future events based on manipulation of variables	Use the information to make decisions
Experimenting (Controlled)	
Conducting scientific investigations systematically, including identifying and framing the question carefully, forming a hypothesis, managing variables effectively, developing a logical experimental procedure, recording and analyzing data, and presenting conclusions based on investigation and previous research	Compare information and trends from one or more complicated graphics
Analyzing Data	
Using collected data to accept or reject hypotheses	Use the information to make decisions
