Preface

This document is a supplement to the *State Match Illinois Middle/Junior and Early High School Learning Standards English Language Arts, Mathematics, and Science; Grade 8 Assessment Frameworks; Grade 11 Assessment Frameworks and EXPLORE and PLAN (June 2009)*. This supplement identifies specific ACT College Readiness Standards that correspond to each Illinois Learning Standard and Illinois Grade 8 and 11 Assessment Framework objective in a side-by-side format.

The left side of each page presents Illinois Learning Standards or Assessment Framework objectives (highlighted if measured by ACT's corresponding testing program). The right side of each page presents the specific ACT College Readiness Standard(s) that corresponds to each Illinois Learning Standard or Assessment Framework objective.

Illinois Learning Standards and Assessment Framework objectives listed here are from the following documents:

<i>Illinois Learning Standards for English Language Arts</i>	1997
<i>Illinois Learning Standards for Mathematics</i>	1997
<i>Illinois Learning Standards for Science</i>	1997
<i>Illinois Reading Assessment Frameworks—ISAT Grade 8</i>	June 2007
<i>Illinois Writing Assessment Frameworks—ISAT Grade 8</i>	July 2006
<i>Illinois Mathematics Assessment Frameworks—ISAT Grade 8</i>	Sep. 2004
<i>Illinois Reading Assessment Frameworks—PSAE Grade 11</i>	Aug. 2005
<i>Illinois Writing Assessment Frameworks—PSAE Grade 11</i>	Jan. 2007
<i>Illinois Mathematics Assessment Frameworks—PSAE Grade 11</i>	Aug. 2005
<i>Illinois Science Assessment Frameworks—PSAE Grade 11</i>	Aug. 2005

SUPPLEMENT
TABLES 1A–1B:

LEARNING STANDARDS

TABLE 1A

ILLINOIS English Language Arts Middle/Junior High School Learning Standards	EXPLORE Reading College Readiness Standards
Reading	
State Goal 1: Read with understanding and fluency.	
A. Apply word analysis and vocabulary skills to comprehend selections.	
1.A.3a. Apply knowledge of word origins and derivations to comprehend words used in specific content areas (e.g., scientific, political, literary, mathematical).	
1.A.3b. Analyze the meaning of words and phrases in their context.	<p>Meanings of Words:</p> <p>Understand the implication of a familiar word or phrase and of simple descriptive language</p> <p>Use context to understand basic figurative language</p> <p>Use context to determine the appropriate meaning of some figurative and nonfigurative words, phrases, and statements in uncomplicated passages</p> <p>Use context to determine the appropriate meaning of virtually any word, phrase, or statement in uncomplicated passages</p> <p>Use context to determine the appropriate meaning of some figurative and nonfigurative words, phrases, and statements in more challenging passages</p>
B. Apply reading strategies to improve understanding and fluency.	
1.B.3a. Preview reading materials, make predictions and relate reading to information from other sources.	<p>Generalizations and Conclusions:</p> <p>Draw simple generalizations and conclusions about the main characters in uncomplicated literary narratives</p> <p>Draw simple generalizations and conclusions about people, ideas, and so on in uncomplicated passages</p> <p>Draw generalizations and conclusions about people, ideas, and so on in uncomplicated passages</p> <p>Draw simple generalizations and conclusions using details that support the main points of more challenging passages</p> <p>Draw subtle generalizations and conclusions about characters, ideas, and so on in uncomplicated literary narratives</p> <p>Draw generalizations and conclusions about people, ideas, and so on in more challenging passages</p>
1.B.3b. Identify text structure and create a visual representation (e.g., graphic organizer, outline, drawing) to use while reading.	<p>Main Ideas and Author’s Approach:</p> <p>Understand the overall approach taken by an author or narrator (e.g., point of view, kinds of evidence used) in uncomplicated passages</p> <p>Understand the overall approach taken by an author or narrator (e.g., point of view, kinds of evidence used) in more challenging passages</p>
1.B.3c. Continuously check and clarify for understanding (e.g., in addition to previous skills, draw comparisons to other readings).	<p>Main Ideas and Author’s Approach:</p> <p>Recognize a clear intent of an author or narrator in uncomplicated literary narratives</p> <p>Identify a clear main idea or purpose of straightforward paragraphs in uncomplicated literary narratives</p>

TABLE 1A

ILLINOIS English Language Arts Middle/Junior High School Learning Standards	EXPLORE Reading College Readiness Standards
Reading	
State Goal 1: Read with understanding and fluency.	
	<p>Infer the main idea or purpose of straightforward paragraphs in uncomplicated literary narratives</p> <p>Understand the overall approach taken by an author or narrator (e.g., point of view, kinds of evidence used) in uncomplicated passages</p> <p>Identify a clear main idea or purpose of any paragraph or paragraphs in uncomplicated passages</p> <p>Infer the main idea or purpose of straightforward paragraphs in more challenging passages</p> <p>Summarize basic events and ideas in more challenging passages</p> <p>Understand the overall approach taken by an author or narrator (e.g., point of view, kinds of evidence used) in more challenging passages</p> <p>Supporting Details:</p> <p>Locate basic facts (e.g., names, dates, events) clearly stated in a passage</p> <p>Locate simple details at the sentence and paragraph level in uncomplicated passages</p> <p>Recognize a clear function of a part of an uncomplicated passage</p> <p>Locate important details in uncomplicated passages</p> <p>Make simple inferences about how details are used in passages</p> <p>Locate important details in more challenging passages</p> <p>Locate and interpret minor or subtly stated details in uncomplicated passages</p> <p>Discern which details, though they may appear in different sections throughout a passage, support important points in more challenging passages</p> <p>Sequential, Comparative, and Cause-Effect Relationships:</p> <p>Determine when (e.g., first, last, before, after) or if an event occurred in uncomplicated passages</p> <p>Recognize clear cause-effect relationships described within a single sentence in a passage</p> <p>Identify relationships between main characters in uncomplicated literary narratives</p> <p>Recognize clear cause-effect relationships within a single paragraph in uncomplicated literary narratives</p> <p>Order simple sequences of events in uncomplicated literary narratives</p> <p>Identify clear relationships between people, ideas, and so on in uncomplicated passages</p> <p>Identify clear cause-effect relationships in uncomplicated passages</p>

TABLE 1A

ILLINOIS English Language Arts Middle/Junior High School Learning Standards	EXPLORE Reading College Readiness Standards
Reading	
State Goal 1: Read with understanding and fluency.	
	<p>Order sequences of events in uncomplicated passages</p> <p>Understand relationships between people, ideas, and so on in uncomplicated passages</p> <p>Identify clear relationships between characters, ideas, and so on in more challenging literary narratives</p> <p>Understand implied or subtly stated cause-effect relationships in uncomplicated passages</p> <p>Identify clear cause-effect relationships in more challenging passages</p> <p>Meanings of Words:</p> <p>Understand the implication of a familiar word or phrase and of simple descriptive language</p> <p>Use context to understand basic figurative language</p> <p>Use context to determine the appropriate meaning of some figurative and nonfigurative words, phrases, and statements in uncomplicated passages</p> <p>Use context to determine the appropriate meaning of virtually any word, phrase, or statement in uncomplicated passages</p> <p>Use context to determine the appropriate meaning of some figurative and nonfigurative words, phrases, and statements in more challenging passages</p> <p>Generalizations and Conclusions:</p> <p>Draw simple generalizations and conclusions about the main characters in uncomplicated literary narratives</p> <p>Draw simple generalizations and conclusions about people, ideas, and so on in uncomplicated passages</p> <p>Draw generalizations and conclusions about people, ideas, and so on in uncomplicated passages</p> <p>Draw simple generalizations and conclusions using details that support the main points of more challenging passages</p> <p>Draw subtle generalizations and conclusions about characters, ideas, and so on in uncomplicated literary narratives</p> <p>Draw generalizations and conclusions about people, ideas, and so on in more challenging passages</p>
<p>1.B.3d. Read age-appropriate material with fluency and accuracy.</p>	<p>Main Ideas and Author’s Approach:</p> <p>Recognize a clear intent of an author or narrator in uncomplicated literary narratives</p> <p>Identify a clear main idea or purpose of straightforward paragraphs in uncomplicated literary narratives</p> <p>Infer the main idea or purpose of straightforward paragraphs in uncomplicated literary narratives</p> <p>Understand the overall approach taken by an author or narrator (e.g., point of view, kinds of evidence used) in uncomplicated passages</p> <p>Identify a clear main idea or purpose of any paragraph or paragraphs in uncomplicated passages</p>

TABLE 1A

ILLINOIS English Language Arts Middle/Junior High School Learning Standards	EXPLORE Reading College Readiness Standards
Reading	
State Goal 1: Read with understanding and fluency.	
	<p>Infer the main idea or purpose of straightforward paragraphs in more challenging passages</p> <p>Summarize basic events and ideas in more challenging passages</p> <p>Understand the overall approach taken by an author or narrator (e.g., point of view, kinds of evidence used) in more challenging passages</p> <p>Supporting Details:</p> <p>Locate basic facts (e.g., names, dates, events) clearly stated in a passage</p> <p>Locate simple details at the sentence and paragraph level in uncomplicated passages</p> <p>Recognize a clear function of a part of an uncomplicated passage</p> <p>Locate important details in uncomplicated passages</p> <p>Make simple inferences about how details are used in passages</p> <p>Locate important details in more challenging passages</p> <p>Locate and interpret minor or subtly stated details in uncomplicated passages</p> <p>Discern which details, though they may appear in different sections throughout a passage, support important points in more challenging passages</p> <p>Sequential, Comparative, and Cause-Effect Relationships:</p> <p>Determine when (e.g., first, last, before, after) or if an event occurred in uncomplicated passages</p> <p>Recognize clear cause-effect relationships described within a single sentence in a passage</p> <p>Identify relationships between main characters in uncomplicated literary narratives</p> <p>Recognize clear cause-effect relationships within a single paragraph in uncomplicated literary narratives</p> <p>Order simple sequences of events in uncomplicated literary narratives</p> <p>Identify clear relationships between people, ideas, and so on in uncomplicated passages</p> <p>Identify clear cause-effect relationships in uncomplicated passages</p> <p>Order sequences of events in uncomplicated passages</p> <p>Understand relationships between people, ideas, and so on in uncomplicated passages</p> <p>Identify clear relationships between characters, ideas, and so on in more challenging literary narratives</p> <p>Understand implied or subtly stated cause-effect relationships in uncomplicated passages</p>

TABLE 1A

ILLINOIS English Language Arts Middle/Junior High School Learning Standards	EXPLORE Reading College Readiness Standards
Reading	
State Goal 1: Read with understanding and fluency.	
	<p>Identify clear cause-effect relationships in more challenging passages</p> <p>Meanings of Words:</p> <p>Understand the implication of a familiar word or phrase and of simple descriptive language</p> <p>Use context to understand basic figurative language</p> <p>Use context to determine the appropriate meaning of some figurative and nonfigurative words, phrases, and statements in uncomplicated passages</p> <p>Use context to determine the appropriate meaning of virtually any word, phrase, or statement in uncomplicated passages</p> <p>Use context to determine the appropriate meaning of some figurative and nonfigurative words, phrases, and statements in more challenging passages</p> <p>Generalizations and Conclusions:</p> <p>Draw simple generalizations and conclusions about the main characters in uncomplicated literary narratives</p> <p>Draw simple generalizations and conclusions about people, ideas, and so on in uncomplicated passages</p> <p>Draw generalizations and conclusions about people, ideas, and so on in uncomplicated passages</p> <p>Draw simple generalizations and conclusions using details that support the main points of more challenging passages</p> <p>Draw subtle generalizations and conclusions about characters, ideas, and so on in uncomplicated literary narratives</p> <p>Draw generalizations and conclusions about people, ideas, and so on in more challenging passages</p>
C. Comprehend a broad range of reading materials.	
1.C.3a. Use information to form, explain and support questions and predictions.	<p>Generalizations and Conclusions:</p> <p>Draw simple generalizations and conclusions about the main characters in uncomplicated literary narratives</p> <p>Draw simple generalizations and conclusions about people, ideas, and so on in uncomplicated passages</p> <p>Draw generalizations and conclusions about people, ideas, and so on in uncomplicated passages</p> <p>Draw simple generalizations and conclusions using details that support the main points of more challenging passages</p> <p>Draw subtle generalizations and conclusions about characters, ideas, and so on in uncomplicated literary narratives</p> <p>Draw generalizations and conclusions about people, ideas, and so on in more challenging passages</p>
1.C.3b. Interpret and analyze entire narrative text using story elements, point of view and theme.	<p>Main Ideas and Author’s Approach:</p> <p>Recognize a clear intent of an author or narrator in uncomplicated literary narratives</p>

TABLE 1A

ILLINOIS English Language Arts Middle/Junior High School Learning Standards	EXPLORE Reading College Readiness Standards
Reading	
State Goal 1: Read with understanding and fluency.	
	<p>Identify a clear main idea or purpose of straightforward paragraphs in uncomplicated literary narratives</p> <p>Infer the main idea or purpose of straightforward paragraphs in uncomplicated literary narratives</p> <p>Understand the overall approach taken by an author or narrator (e.g., point of view, kinds of evidence used) in uncomplicated passages</p> <p>Identify a clear main idea or purpose of any paragraph or paragraphs in uncomplicated passages</p> <p>Infer the main idea or purpose of straightforward paragraphs in more challenging passages</p> <p>Summarize basic events and ideas in more challenging passages</p> <p>Understand the overall approach taken by an author or narrator (e.g., point of view, kinds of evidence used) in more challenging passages</p> <p>Supporting Details:</p> <p>Locate basic facts (e.g., names, dates, events) clearly stated in a passage</p> <p>Locate simple details at the sentence and paragraph level in uncomplicated passages</p> <p>Recognize a clear function of a part of an uncomplicated passage</p> <p>Locate important details in uncomplicated passages</p> <p>Make simple inferences about how details are used in passages</p> <p>Locate important details in more challenging passages</p> <p>Locate and interpret minor or subtly stated details in uncomplicated passages</p> <p>Discern which details, though they may appear in different sections throughout a passage, support important points in more challenging passages</p> <p>Sequential, Comparative, and Cause-Effect Relationships:</p> <p>Determine when (e.g., first, last, before, after) or if an event occurred in uncomplicated passages</p> <p>Recognize clear cause-effect relationships described within a single sentence in a passage</p> <p>Identify relationships between main characters in uncomplicated literary narratives</p> <p>Recognize clear cause-effect relationships within a single paragraph in uncomplicated literary narratives</p> <p>Order simple sequences of events in uncomplicated literary narratives</p> <p>Identify clear relationships between people, ideas, and so on in uncomplicated passages</p>

<p>3.C.3a. Compose narrative, informative, and persuasive writings (e.g., in addition to previous writings, literature reviews, instructions, news articles, correspondence) for a specified audience.</p>	
<p>3.C.3b. Using available technology, produce compositions and multimedia works for specified audiences.</p>	

TABLE 1A

ILLINOIS English Language Arts Middle/Junior High School Learning Standards	EXPLORE College Readiness Standards
Listening and Speaking	
State Goal 4: Listen and speak effectively in a variety of situations.	
A. Listen effectively in formal and informal situations.	
4.A.3a. Demonstrate ways (e.g., ask probing questions, provide feedback to a speaker, summarize and paraphrase complex spoken messages) that listening attentively can improve comprehension.	
4.A.3b. Compare a speaker's verbal and nonverbal messages.	
4.A.3c. Restate and carry out multistep oral instructions.	
4.A.3d. Demonstrate the ability to identify and manage barriers to listening (e.g., noise, speaker credibility, environmental distractions).	
B. Speak effectively using language appropriate to the situation and audience.	
4.B.3a. Deliver planned oral presentations, using language and vocabulary appropriate to the purpose, message and audience; provide details and supporting information that clarify main ideas; and use visual aids and contemporary technology as support.	
4.B.3b. Design and produce reports and multi-media compositions that represent group projects.	
4.B.3c. Develop strategies to manage or overcome communication anxiety and apprehension (e.g., sentence outlining, note cards).	
4.B.3d. Use verbal and nonverbal communication strategies to maintain communications and to resolve conflict.	

TABLE 1A

ILLINOIS English Language Arts Middle/Junior High School Learning Standards	EXPLORE College Readiness Standards
Research	
State Goal 5: Use the language arts to acquire, assess and communicate information.	
A. Locate, organize, and use information from various sources to answer questions, solve problems and communicate ideas.	
5.A.3a. Identify appropriate resources to solve problems or answer questions through research.	
5.A.3b. Design a project related to contemporary issues (e.g., real-world math, career development, community service) using multiple sources.	
B. Analyze and evaluate information acquired from various sources.	
5.B.3a. Choose and analyze information sources for individual, academic and functional purposes.	
5.B.3b. Identify, evaluate and cite primary sources.	
C. Apply acquired information, concepts and ideas to communicate in a variety of formats.	
5.C.3a. Plan, compose, edit and revise documents that synthesize new meaning gleaned from multiple sources.	
5.C.3b. Prepare and orally present original work (e.g., poems, monologues, reports, plays, stories) supported by research.	
5.C.3c. Take notes, conduct interviews, organize and report information in oral, visual and electronic formats.	

TABLE 1B

Writing	
State Goal 3: Write to communicate for a variety of purposes.	
	<p>Conventions of Punctuation:</p> <p>Delete commas that create basic sense problems (e.g., between verb and direct object)</p> <p>Provide appropriate punctuation in straightforward situations (e.g., items in a series)</p> <p>Delete commas that disturb the sentence flow (e.g., between modifier and modified element)</p> <p>Use commas to set off simple parenthetical phrases</p> <p>Delete unnecessary commas when an incorrect reading of the sentence suggests a pause that should be punctuated (e.g., between verb and direct object clause)</p> <p>Use punctuation to set off complex parenthetical phrases</p> <p>Recognize and delete unnecessary commas based on a careful reading of a complicated sentence (e.g., between the elements of a compound subject or compound verb joined by <i>and</i>)</p> <p>Use apostrophes to indicate simple possessive nouns</p> <p>Recognize inappropriate uses of colons and semicolons</p> <p>Use commas to set off a nonessential/nonrestrictive appositive or clause</p> <p>Deal with multiple punctuation problems (e.g., compound sentences containing unnecessary commas and phrases that may or may not be parenthetical)</p> <p>Use an apostrophe to show possession, especially with irregular plural nouns</p>
<p>3.C.4a. Write for real or potentially real situations in academic, professional and civic contexts (e.g., college applications, job applications, business letters, petitions).</p>	
<p>3.C.4b. Using available technology, produce compositions and multimedia works for specified audiences.</p>	

TABLE 1B

ILLINOIS English Language Arts Early High School Learning Standards	PLAN College Readiness Standards
Listening and Speaking	
State Goal 4: Listen and speak effectively in a variety of situations.	
A. Listen effectively in formal and informal situations.	
4.A.4a. Apply listening skills as individuals and members of a group in a variety of settings (e.g., lectures, discussions, conversations, team projects, presentations, interviews).	
4.A.4b. Apply listening skills in practical settings (e.g., classroom note taking, interpersonal conflict situations, giving and receiving directions, evaluating persuasive messages).	
4.A.4c. Follow complex oral instructions.	
4.A.4d. Demonstrate understanding of the relationship of verbal and nonverbal messages within a context (e.g., contradictory, supportive, repetitive, substitutive).	
B. Speak effectively using language appropriate to the situation and audience.	
4.B.4a. Deliver planned informative and persuasive oral presentations using visual aids and contemporary technology as individuals and members of a group; demonstrate organization, clarity, vocabulary, credible and accurate supporting evidence.	
4.B.4b. Use group discussion skills to assume leadership and participant roles within an assigned project or to reach a group goal.	
4.B.4c. Use strategies to manage or overcome communication anxiety and apprehension (e.g., developed outlines, notecards, practice).	
4.B.4d. Use verbal and nonverbal strategies to maintain communication and to resolve individual and group conflict.	

TABLE 1B

ILLINOIS English Language Arts Early High School Learning Standards	PLAN College Readiness Standards
Research	
State Goal 5: Use the language arts to acquire, assess and communicate information.	
A. Locate, organize, and use information from various sources to answer questions, solve problems and communicate ideas.	
5.A.4a. Demonstrate a knowledge of strategies needed to prepare a credible research report (e.g., notes, planning sheets).	
5.A.4b. Design and present a project (e.g., research report, scientific study, career/higher education opportunities) using various formats from multiple sources.	
B. Analyze and evaluate information acquired from various sources.	
5.B.4a. Choose and evaluate primary and secondary sources (print and nonprint) for a variety of purposes.	
5.B.4b. Use multiple sources and multiple formats; cite according to standard style manuals.	
C. Apply acquired information, concepts and ideas to communicate in a variety of formats.	
5.C.4a. Plan, compose, edit and revise information (e.g., brochures, formal reports, proposals, research summaries, analyses, editorials, articles, overheads, multimedia displays) for presentation to an audience.	
5.C.4b. Produce oral presentations and written documents using supportive research and incorporating contemporary technology.	
5.C.4c. Prepare for and participate in formal debates.

TABLES 1C–1D:
MATHEMATICS
LEARNING STANDARDS

TABLE 1C

ILLINOIS Mathematics Middle/Junior High School Learning Standards	EXPLORE Mathematics College Readiness Standards
Number Sense	
State Goal 6: Demonstrate and apply a knowledge and sense of numbers, including numeration and operations (addition, subtraction, multiplication, division), patterns, ratios and proportions.	
A. Demonstrate knowledge and use of numbers and their representations in a broad range of theoretical and practical settings.	Numbers: Concepts & Properties: Exhibit knowledge of elementary number concepts including rounding, the ordering of decimals, pattern identification, absolute value, primes, and greatest common factor
6.A.3. Represent fractions, decimals, percentages, exponents and scientific notation in equivalent forms.	Numbers: Concepts & Properties: Recognize equivalent fractions and fractions in lowest terms Work with scientific notation
B. Investigate, represent and solve problems using number facts, operations (addition, subtraction, multiplication, division) and their properties, algorithms and relationships.	Basic Operations & Applications: Perform one-operation computation with whole numbers and decimals Solve problems in one or two steps using whole numbers Solve routine one-step arithmetic problems (using whole numbers, fractions, and decimals) such as single-step percent Solve some routine two-step arithmetic problems
6.B.3a. Solve practical computation problems involving whole numbers, integers and rational numbers.	Basic Operations & Applications: Perform one-operation computation with whole numbers and decimals Solve problems in one or two steps using whole numbers Solve routine one-step arithmetic problems (using whole numbers, fractions, and decimals) such as single-step percent Solve some routine two-step arithmetic problems
6.B.3b. Apply primes, factors, divisors, multiples, common factors and common multiples in solving problems.	Numbers: Concepts & Properties: Exhibit knowledge of elementary number concepts including rounding, the ordering of decimals, pattern identification, absolute value, primes, and greatest common factor Find and use the least common multiple Work with numerical factors
6.B.3c. Identify and apply properties of real numbers including pi, squares, and square roots.	Numbers: Concepts & Properties: Work with squares and square roots of numbers
C. Compute and estimate using mental mathematics, paper-and-pencil methods, calculators and computers.	Basic Operations & Applications: Perform one-operation computation with whole numbers and decimals Solve problems in one or two steps using whole numbers Solve routine one-step arithmetic problems (using whole numbers, fractions, and decimals) such as single-step percent Solve some routine two-step arithmetic problems

TABLE 1C

ILLINOIS Mathematics Middle/Junior High School Learning Standards	EXPLORE Mathematics College Readiness Standards
Number Sense	
State Goal 6: Demonstrate and apply a knowledge and sense of numbers, including numeration and operations (addition, subtraction, multiplication, division), patterns, ratios and proportions.	
<p>6.C.3a. Select computational procedures and solve problems with whole numbers, fractions, decimals, percents and proportions.</p>	<p>Basic Operations & Applications: Solve problems in one or two steps using whole numbers Solve routine one-step arithmetic problems (using whole numbers, fractions, and decimals) such as single-step percent Solve some routine two-step arithmetic problems Solve routine two-step or three-step arithmetic problems involving concepts such as rate and proportion, tax added, percentage off, and computing with a given average</p>
<p>6.C.3b. Show evidence that computational results using whole numbers, fractions, decimals, percents and proportions are correct and/or that estimates are reasonable.</p>	
<p>D. Solve problems using comparison of quantities, ratios, proportions and percents.</p>	<p>Basic Operations & Applications: Perform common conversions (e.g., inches to feet or hours to minutes) Solve routine one-step arithmetic problems (using whole numbers, fractions, and decimals) such as single-step percent Solve routine two-step or three-step arithmetic problems involving concepts such as rate and proportion, tax added, percentage off, and computing with a given average Solve multistep arithmetic problems that involve planning or converting units of measure (e.g., feet per second to miles per hour) Numbers: Concepts & Properties: Order fractions</p>
<p>6.D.3. Apply ratios and proportions to solve practical problems.</p>	<p>Basic Operations & Applications: Solve routine two-step or three-step arithmetic problems involving concepts such as rate and proportion, tax added, percentage off, and computing with a given average</p>

TABLE 1C

ILLINOIS Mathematics Middle/Junior High School Learning Standards	EXPLORE Mathematics College Readiness Standards
Estimation and Measurement	
State Goal 7: Estimate, make and use measurements of objects, quantities and relationships and determine acceptable levels of accuracy.	
<p>A. Measure and compare quantities using appropriate units, instruments and methods.</p>	<p>Basic Operations & Applications: Perform common conversions (e.g., inches to feet or hours to minutes) Solve multistep arithmetic problems that involve planning or converting units of measure (e.g., feet per second to miles per hour)</p> <p>Numbers: Concepts & Properties: Exhibit knowledge of elementary number concepts including rounding, the ordering of decimals, pattern identification, absolute value, primes, and greatest common factor Order fractions</p> <p>Measurement: Estimate or calculate the length of a line segment based on other lengths given on a geometric figure</p>
<p>7.A.3a. Measure length, capacity, weight/mass and angles using sophisticated instruments (e.g., compass, protractor, trundle wheel).</p>	
<p>7.A.3b. Apply the concepts and attributes of length, capacity, weight/mass, perimeter, area, volume, time, temperature and angle measures in practical situations.</p>	<p>Basic Operations & Applications: Perform common conversions (e.g., inches to feet or hours to minutes) Solve multistep arithmetic problems that involve planning or converting units of measure (e.g., feet per second to miles per hour)</p> <p>Properties of Plane Figures: Find the measure of an angle using properties of parallel lines Exhibit knowledge of basic angle properties and special sums of angle measures (e.g., 90°, 180°, and 360°) Use several angle properties to find an unknown angle measure</p> <p>Measurement: Estimate or calculate the length of a line segment based on other lengths given on a geometric figure Compute the perimeter of polygons when all side lengths are given Compute the area of rectangles when whole number dimensions are given Compute the area and perimeter of triangles and rectangles in simple problems Compute the area of triangles and rectangles when one or more additional simple steps are required Compute the area and circumference of circles after identifying necessary information</p>

TABLE 1C

ILLINOIS Mathematics Middle/Junior High School Learning Standards	EXPLORE Mathematics College Readiness Standards
Estimation and Measurement	
State Goal 7: Estimate, make and use measurements of objects, quantities and relationships and determine acceptable levels of accuracy.	
B. Estimate measurements and determine acceptable levels of accuracy.	Measurement: Estimate or calculate the length of a line segment based on other lengths given on a geometric figure
7.B.3. Select and apply instruments including rulers and protractors and units of measure to the degree of accuracy required.	
C. Select and use appropriate technology, instruments and formulas to solve problems, interpret results and communicate findings.	Basic Operations & Applications: Solve multistep arithmetic problems that involve planning or converting units of measure (e.g., feet per second to miles per hour) Measurement: Use geometric formulas when all necessary information is given
7.C.3a. Construct a simple scale drawing for a given situation.	
7.C.3b. Use concrete and graphic models and appropriate formulas to find perimeters, areas, surface areas and volumes of two- and three-dimensional regions.	Measurement: Compute the perimeter of polygons when all side lengths are given Compute the area of rectangles when whole number dimensions are given Compute the area and perimeter of triangles and rectangles in simple problems Use geometric formulas when all necessary information is given Compute the area of triangles and rectangles when one or more additional simple steps are required Compute the area and circumference of circles after identifying necessary information

TABLE 1C

ILLINOIS Mathematics Middle/Junior High School Learning Standards	EXPLORE Mathematics College Readiness Standards
Algebra and Analytical Methods	
State Goal 8: Use algebraic and analytical methods to identify and describe patterns and relationships in data, solve problems and predict results.	
<p>A. Describe numerical relationships using variables and patterns.</p>	<p>Numbers: Concepts & Properties: Exhibit knowledge of elementary number concepts including rounding, the ordering of decimals, pattern identification, absolute value, primes, and greatest common factor</p> <p>Expressions, Equations, & Inequalities: Exhibit knowledge of basic expressions (e.g., identify an expression for a total as $b + g$) Write expressions, equations, or inequalities with a single variable for common pre-algebra settings (e.g., rate and distance problems and problems that can be solved by using proportions)</p>
<p>8.A.3a. Apply the basic properties of commutative, associative, distributive, transitive, inverse, identity, zero, equality and order of operations to solve problems.</p>	<p>Basic Operations & Applications: Solve routine two-step or three-step arithmetic problems involving concepts such as rate and proportion, tax added, percentage off, and computing with a given average Solve multistep arithmetic problems that involve planning or converting units of measure (e.g., feet per second to miles per hour)</p> <p>Expressions, Equations, & Inequalities: Solve equations in the form $x + a = b$, where a and b are whole numbers or decimals Solve one-step equations having integer or decimal answers Combine like terms (e.g., $2x + 5x$) Add and subtract simple algebraic expressions Solve routine first-degree equations Solve real-world problems using first-degree equations Identify solutions to simple quadratic equations</p>

Geometry	
State Goal 9: Use geometric methods to analyze, categorize and draw conclusions about points, lines, planes and space.	
A. Demonstrate and apply geometric concepts involving points, lines, planes and space.	
9.A.3a. Draw or construct two- and three-dimensional geometric figures including prisms, pyramids, cylinders and cones.	
9.A.3b. Draw transformation images of figures, with and without the use of technology.	
9.A.3c. Use concepts of symmetry, congruency, similarity, scale, perspective, and angles to describe and analyze two- and three-dimensional shapes found in practical applications (e.g., geodesic domes, A-frame houses, basketball courts, inclined planes, art forms, blueprints).	
B. Identify, describe, classify and compare relationships using points, lines, planes and solids.	<p>Properties of Plane Figures:</p> <p>Exhibit some knowledge of the angles associated with parallel lines</p> <p>Find the measure of an angle using properties of parallel lines</p> <p>Exhibit knowledge of basic angle properties and special sums of angle measures (e.g., 90°, 180°, and 360°)</p> <p>Use several angle properties to find an unknown angle measure</p>
9.B.3. Identify, describe, classify and compare two- and three- dimensional geometric figures and models according to their properties.	
C. Construct convincing arguments and proofs to solve problems	
9.C.3a. Construct, develop and communicate logical arguments (informal proofs) about geometric figures and patterns.	
9.C.3b. Develop and solve problems using geometric relationships and models, with and without the use of technology.	<p>Basic Operations & Applications:</p> <p>Solve routine two-step or three-step arithmetic problems involving concepts such as rate and proportion, tax added, percentage off, and computing with a given average</p> <p>Properties of Plane Figures:</p> <p>Exhibit some knowledge of the angles associated with parallel lines</p> <p>Find the measure of an angle using properties of parallel lines</p> <p>Exhibit knowledge of basic angle properties and special sums of angle measures (e.g., 90°, 180°, and 360°)</p> <p>Use several angle properties to find an unknown angle measure</p> <p>Measurement:</p> <p>Compute the perimeter of polygons when all side lengths are given</p>

Number Sense	
State Goal 6: Demonstrate and apply a knowledge and sense of numbers, including numeration and operations (addition, subtraction, multiplication, division), patterns, ratios and proportions.	
A. Demonstrate knowledge and use of numbers and their representations in a broad range of theoretical and practical settings.	Numbers: Concepts & Properties: Exhibit knowledge of elementary number concepts including rounding, the ordering of decimals, pattern identification, absolute value, primes, and greatest common factor
6.A.4. Identify and apply the associative, commutative, distributive and identity properties of real numbers, including special numbers such as pi and square roots.	Numbers: Concepts & Properties: Find and use the least common multiple Work with squares and square roots of numbers
B. Investigate, represent and solve problems using number facts, operations (addition, subtraction, multiplication, division) and their properties, algorithms and relationships.	Basic Operations & Applications: Perform one-operation computation with whole numbers and decimals Solve problems in one or two steps using whole numbers Solve some routine two-step arithmetic problems
6.B.4. Select and use appropriate arithmetic operations in practical situations including calculating wages after taxes, developing a budget and balancing a checkbook.	Basic Operations & Applications: Solve routine one-step arithmetic problems (using whole numbers, fractions, and decimals) such as single-step percent Solve routine two-step or three-step arithmetic problems involving concepts such as rate and proportion, tax added, percentage off, and computing with a given average
C. Compute and estimate using mental mathematics, paper-and-pencil methods, calculators and computers.	Basic Operations & Applications: Perform one-operation computation with whole numbers and decimals Solve problems in one or two steps using whole numbers Solve some routine two-step arithmetic problems
6.C.4. Determine whether exact values or approximations are appropriate (e.g., bid a job, determine gas mileage for a trip).

LEARNING STANDARDS**

TABLE 1E

ILLINOIS Science Middle/Junior High School Learning Standards	EXPLORE Science College Readiness Standards
Inquiry and Design	
State Goal 11: Understand the processes of scientific inquiry and technological design to investigate questions, conduct experiments and solve problems.	
A. Know and apply the concepts, principles and processes of scientific inquiry.	
11.A.3a. Formulate hypotheses that can be tested by collecting data.	Scientific Investigation: Understand a simple experimental design
11.A.3b. Conduct scientific experiments that control all but one variable.	Scientific Investigation: Understand a simple experimental design Identify a control in an experiment
11.A.3c. Collect and record data accurately using consistent measuring and recording techniques and media.	Scientific Investigation: Understand the methods and tools used in a simple experiment
11.A.3d. Explain the existence of unexpected results in a data set.	Scientific Investigation: Understand the methods and tools used in a simple experiment Understand a simple experimental design Evaluation of Models, Inferences, and Experimental Results: Select a simple hypothesis, prediction, or conclusion that is supported by a data presentation or a model
11.A.3e. Use data manipulation tools and quantitative (e.g., mean, mode, simple equations) and representational methods (e.g., simulations, image processing) to analyze measurements.	Interpretation of Data: Interpolate between data points in a table or graph Identify and/or use a simple (e.g., linear) mathematical relationship between data
11.A.3f. Interpret and represent results of analysis to produce findings.	Interpretation of Data: Select a single piece of data (numerical or nonnumerical) from a simple data presentation (e.g., a table or graph with two or three variables; a food web diagram) Identify basic features of a table, graph, or diagram (e.g., headings, units of measurement, axis labels) Select two or more pieces of data from a simple data presentation Understand basic scientific terminology Find basic information in a brief body of text Determine how the value of one variable changes as the value of another variable changes in a simple data presentation Compare or combine data from a simple data presentation (e.g., order or sum data from a table) Evaluation of Models, Inferences, and Experimental Results: Select a simple hypothesis, prediction, or conclusion that is supported by a data presentation or a model
11.A.3g. Report and display the process and results of a scientific investigation.	Interpretation of Data: Translate information into a table, graph, or diagram

TABLE 1E

ILLINOIS Science Middle/Junior High School Learning Standards	EXPLORE Science College Readiness Standards
Inquiry and Design	
State Goal 11: Understand the processes of scientific inquiry and technological design to investigate questions, conduct experiments and solve problems.	
B. Know and apply the concepts, principles and processes of technological design.	
11.B.3a. Identify an actual design problem and establish criteria for determining the success of a solution.	
11.B.3b. Sketch, propose and compare design solutions to the problem considering available materials, tools, cost effectiveness and safety.	
11.B.3c. Select the most appropriate design and build a prototype or simulation.	
11.B.3d. Test the prototype using available materials, instruments and technology and record the data.	
11.B.3e. Evaluate the test results based on established criteria, note sources of error and recommend improvements.	
11.B.3f. Using available technology, report the relative success of the design based on the test results and criteria.	

TABLE 1E

ILLINOIS Science Middle/Junior High School Learning Standards	EXPLORE Science College Readiness Standards
Concepts and Principles	
State Goal 12: <u>Understand the fundamental concepts, principles and interconnections of the life, physical and earth/space sciences.</u>	
A. <u>Know and apply concepts that explain how living things function, adapt and change.</u>	
12.A.3a. <u>Explain how cells function as “building blocks” of organisms and describe the requirements for cells to live.</u>	
12.A.3b. <u>Compare characteristics of organisms produced from a single parent with those of organisms produced by two parents.</u>	
12.A.3c. <u>Compare and contrast how different forms and structures reflect different functions (e.g., similarities and differences among animals that fly, walk or swim; structures of plant cells and animal cells).</u>	
B. <u>Know and apply concepts, that describe how living things interact with each other and with their environment.</u>	
12.B.3a. <u>Identify and classify biotic and abiotic factors in an environment that affect population density, habitat and placement of organisms in an energy pyramid.</u>	
12.B.3b. <u>Compare and assess features of organisms for their adaptive, competitive and survival potential (e.g., appendages, reproductive rates, camouflage, defensive structures).</u>	
C. <u>Know and apply concepts that describe properties of matter and energy and the interactions between them.</u>	
12.C.3a. <u>Explain interactions of energy with matter including changes of state and conservation of mass and energy.</u>	
12.C.3b. <u>Model and describe the chemical and physical characteristics of matter (e.g., atoms, molecules, elements, compounds, mixtures).</u>	
D. <u>Know and apply concepts that describe force and motion and the principles that explain them.</u>	
12.D.3a. <u>Explain and demonstrate how forces affect motion (e.g., action/reaction, equilibrium conditions, free-falling objects).</u>	
12.D.3b. <u>Explain the factors that affect the gravitational forces on objects (e.g., changes in mass, distance).</u>	
E. <u>Know and apply concepts that describe the features and processes of the Earth and its resources.</u>	
12.E.3a. <u>Analyze and explain large-scale dynamic forces, events and processes that affect the Earth’s land, water and atmospheric systems (e.g., jetstream, hurricanes, plate tectonics).</u>	
12.E.3b. <u>Describe interactions between solid earth, oceans, atmosphere and organisms that have resulted in ongoing changes of Earth (e.g., erosion, El Nino).</u>	

TABLE 1E

ILLINOIS Science Middle/Junior High School Learning Standards	EXPLORE Science College Readiness Standards
Concepts and Principles	
State Goal 12: <u>Understand the fundamental concepts, principles and interconnections of the life, physical and earth/space sciences.</u>	
12.E.3c. <u>Evaluate the biodegradability of renewable and nonrenewable natural resources.</u>	
F. <u>Know and apply concepts that explain the composition and structure of the universe and Earth's place in it.</u>	
12.F.3a. <u>Simulate, analyze and explain the effects of gravitational force in the solar system (e.g., orbital shape and speed, tides, spherical shape of the planets and moons).</u>	
12.F.3b. <u>Describe the organization and physical characteristics of the solar system (e.g., sun, planets, satellites, asteroids, comets).</u>	
12.F.3c. <u>Compare and contrast the sun as a star with other objects in the Milky Way Galaxy (e.g., nebulae, dust clouds, stars, black holes).</u>	

TABLE 1E

ILLINOIS Science Middle/Junior High School Learning Standards	EXPLORE Science College Readiness Standards
Science, Technology and Society	
State Goal 13: Understand the relationships among science, technology and society in historical and contemporary contexts.	
A. Know and apply the accepted practices of science.	
13.A.3a. Identify and reduce potential hazards in science activities (e.g., ventilation, handling chemicals).	
13.A.3b. Analyze historical and contemporary cases in which the work of science has been affected by both valid and biased scientific practices.	
13.A.3c. Explain what is similar and different about observational and experimental investigations.	
B. Know and apply concepts that describe the interaction between science, technology and society.	
13.B.3a. Identify and explain ways that scientific knowledge and economics drive technological development.	
13.B.3b. Identify important contributions to science and technology that have been made by individuals and groups from various cultures.	
13.B.3c. Describe how occupations use scientific and technological knowledge and skills.	
13.B.3d. Analyze the interaction of resource acquisition, technological development and ecosystem impact (e.g., diamond, coal or gold mining; deforestation).	
13.B.3e. Identify advantages and disadvantages of natural resource conservation and management programs.	
13.B.3f. Apply classroom-developed criteria to determine the effects of policies on local science and technology issues (e.g., energy consumption, landfills, water quality).	

TABLE 1F

ILLINOIS Science Early High School Learning Standards	PLAN Science College Readiness Standards
Inquiry and Design	
State Goal 11: Understand the processes of scientific inquiry and technological design to investigate questions, conduct experiments and solve problems.	
A. Know and apply the concepts, principles and processes of scientific inquiry.	
11.A.4a. Formulate hypotheses referencing prior research and knowledge.	Scientific Investigation: Understand a simple experimental design Determine the hypothesis for an experiment
11.A.4b. Conduct controlled experiments or simulations to test hypotheses.	Scientific Investigation: Understand the methods and tools used in a simple experiment Understand a simple experimental design Identify a control in an experiment
11.A.4c. Collect, organize and analyze data accurately and precisely.	Interpretation of Data: Select a single piece of data (numerical or nonnumerical) from a simple data presentation (e.g., a table or graph with two or three variables; a food web diagram) Identify basic features of a table, graph, or diagram (e.g., headings, units of measurement, axis labels) Select two or more pieces of data from a simple data presentation Understand basic scientific terminology Find basic information in a brief body of text Determine how the value of one variable changes as the value of another variable changes in a simple data presentation Compare or combine data from a simple data presentation (e.g., order or sum data from a table) Scientific Investigation: Understand the methods and tools used in a simple experiment
11.A.4d. Apply statistical methods to the data to reach and support conclusions.	Interpretation of Data: Interpolate between data points in a table or graph Identify and/or use a simple (e.g., linear) mathematical relationship between data Identify and/or use a complex (e.g., nonlinear) mathematical relationship between data Extrapolate from data points in a table or graph
11.A.4e. Formulate alternative hypotheses to explain unexpected results.	Scientific Investigation: Understand the methods and tools used in a simple experiment Evaluation of Models, Inferences, and Experimental Results: Select a simple hypothesis, prediction, or conclusion that is supported by a data presentation or a model

TABLE 1F

ILLINOIS Science Early High School Learning Standards	PLAN Science College Readiness Standards
Inquiry and Design	
State Goal 11: Understand the processes of scientific inquiry and technological design to investigate questions, conduct experiments and solve problems.	
<p>11.A.4f. Using available technology, report, display and defend to an audience conclusions drawn from investigations.</p>	<p>Interpretation of Data:</p> <p>Select a single piece of data (numerical or nonnumerical) from a simple data presentation (e.g., a table or graph with two or three variables; a food web diagram)</p> <p>Identify basic features of a table, graph, or diagram (e.g., headings, units of measurement, axis labels)</p> <p>Select two or more pieces of data from a simple data presentation</p> <p>Understand basic scientific terminology</p> <p>Find basic information in a brief body of text</p> <p>Determine how the value of one variable changes as the value of another variable changes in a simple data presentation</p> <p>Compare or combine data from a simple data presentation (e.g., order or sum data from a table)</p> <p>Translate information into a table, graph, or diagram</p> <p>Scientific Investigation:</p> <p>Understand the methods and tools used in a simple experiment</p> <p>Understand a simple experimental design</p> <p>Evaluation of Models, Inferences, and Experimental Results:</p> <p>Select a simple hypothesis, prediction, or conclusion that is supported by a data presentation or a model</p> <p>Determine whether given information supports or contradicts a simple hypothesis or conclusion, and why</p> <p>Select a data presentation or a model that supports or contradicts a hypothesis, prediction, or conclusion</p>
B. Know and apply the concepts, principles and processes of technological design.	
11.B.4a. Identify a technological design problem inherent in a commonly used product.	
11.B.4b. Propose and compare different solution designs to the design problem based upon given constraints including available tools, materials and time.	
11.B.4c. Develop working visualizations of the proposed solution designs (e.g., blueprints, schematics, flowcharts, cad-cam, animations).	
11.B.4d. Determine the criteria upon which the designs will be judged, identify advantages and disadvantages of the designs and select the most promising design.	
11.B.4e. Develop and test a prototype or simulation of the solution design using available materials, instruments and technology.

Inquiry and Design	
State Goal 11: Understand the processes of scientific inquiry and technological design to investigate questions, conduct experiments and solve problems.	
11.B.4f. Evaluate the test results based on established criteria, note sources of error and recommend improvements.	
11.B.4g. Using available technology, report to an audience the relative success of the design based on the test results and criteria.	

TABLE 1F

ILLINOIS Science Early High School Learning Standards	PLAN Science College Readiness Standards
Concepts and Principles	
State Goal 12: <u>Understand the fundamental concepts, principles and interconnections of the life, physical and earth/space sciences.</u>	
A. <u>Know and apply concepts that explain how living things function, adapt and change.</u>	
12.A.4a. <u>Explain how genetic combinations produce visible effects and variations among physical features and cellular functions of organisms.</u>	
12.A.4b. <u>Describe the structures and organization of cells and tissues that underlie basic life functions including nutrition, respiration, cellular transport, biosynthesis and reproduction.</u>	
12.A.4c. <u>Describe processes by which organisms change over time using evidence from comparative anatomy and physiology, embryology, the fossil record, genetics and biochemistry.</u>	
B. <u>Know and apply concepts that describe how living things interact with each other and with their environment.</u>	
12.B.4a. <u>Compare physical, ecological and behavioral factors that influence interactions and interdependence of organisms.</u>	
12.B.4b. <u>Simulate and analyze factors that influence the size and stability of populations within ecosystems (e.g., birth rate, death rate, predation, migration patterns).</u>	
C. <u>Know and apply concepts that describe properties of matter and energy and the interactions between them.</u>	
12.C.4a. <u>Use kinetic theory, wave theory, quantum theory and the laws of thermo-dynamics to explain energy transformations.</u>	
12.C.4b. <u>Analyze and explain the atomic and nuclear structure of matter.</u>	
D. <u>Know and apply concepts that describe force and motion and the principles that explain them.</u>	
12.D.4a. <u>Explain and predict motions in inertial and accelerated frames of reference.</u>	
12.D.4b. <u>Describe the effects of electromagnetic and nuclear forces including atomic and molecular bonding, capacitance and nuclear reactions.</u>	
E. <u>Know and apply concepts that describe the features and processes of the Earth and its resources.</u>	
12.E.4a. <u>Explain how external and internal energy sources drive Earth processes (e.g., solar energy drives weather patterns; internal heat drives plate tectonics).</u>	
12.E.4b. <u>Describe how rock sequences and fossil remains are used to interpret the age and changes in the Earth.</u>	

TABLE 1F

Science, Technology and Society	
State Goal 13: Understand the relationships among science, technology and society in historical and contemporary contexts.	
13.A.4d. Explain how peer review helps to assure the accurate use of data and improves the scientific process.	
B. Know and apply concepts that describe the interaction between science, technology and society	
13.B.4a. Compare and contrast scientific inquiry and technological design as pure and applied sciences.	
13.B.4b. Analyze a particular occupation to identify decisions that may be influenced by a knowledge of science.	
13.B.4c. Analyze ways that resource management and technology can be used to accommodate population trends.	
13.B.4d. Analyze local examples of resource use, technology use or conservation programs; document findings; and make recommendations for improvements.	
13.B.4e. Evaluate claims derived from purported scientific studies used in advertising and marketing strategies.	

**SUPPLEMENT
TABLES 2A–2C**

**GRADE 8
ASSESSMENT
FRAMEWORKS**

TABLE 2A

ILLINOIS Reading Grade 8 Assessment Frameworks	EXPLORE Reading College Readiness Standards
STATE GOAL 1: Read with understanding and fluency.	
A. VOCABULARY DEVELOPMENT	
Words in Isolation	
1.8.01. Determine the meaning of an unknown word or content-area vocabulary using knowledge of prefixes, suffixes, and word roots.	
1.8.02. Use etymologies to determine the meanings of words.	
Words in Context	
1.8.03. Determine the meaning of an unknown word using word, sentence, and cross-sentence clues.	<p>Meanings of Words:</p> <p>Use context to understand basic figurative language</p> <p>Use context to determine the appropriate meaning of some figurative and nonfigurative words, phrases, and statements in uncomplicated passages</p> <p>Use context to determine the appropriate meaning of virtually any word, phrase, or statement in uncomplicated passages</p>
1.8.04. Determine the connotation of a word using word, sentence, and cross-sentence clues.	<p>Meanings of Words:</p> <p>Understand the implication of a familiar word or phrase and of simple descriptive language</p> <p>Use context to understand basic figurative language</p> <p>Use context to determine the appropriate meaning of some figurative and nonfigurative words, phrases, and statements in uncomplicated passages</p> <p>Use context to determine the appropriate meaning of virtually any word, phrase, or statement in uncomplicated passages</p>
1.8.05. Determine the meaning of a word in context when the word has multiple meanings.	<p>Meanings of Words:</p> <p>Understand the implication of a familiar word or phrase and of simple descriptive language</p> <p>Use context to understand basic figurative language</p> <p>Use context to determine the appropriate meaning of some figurative and nonfigurative words, phrases, and statements in uncomplicated passages</p> <p>Use context to determine the appropriate meaning of virtually any word, phrase, or statement in uncomplicated passages</p>
B. READING STRATEGIES	
1.8.06. Make and verify predictions based on prior knowledge and understanding of genres.	
1.8.07. Clarify an understanding of text by creating outlines, notes, or other visual representations.	
1.8.08. Use information in charts, graphs, diagrams, maps, and tables to help understand a reading passage.	
1.8.09. Compare the content and organization (e.g., themes, topics, text structure, story elements) of various selections.	
1.8.10. Relate information in the passage to other readings.	

TABLE 2A

ILLINOIS Reading Grade 8 Assessment Frameworks	EXPLORE Reading College Readiness Standards
STATE GOAL 1: Read with understanding and fluency.	
1.8.11. Identify cause and effect organizational patterns in fiction and nonfiction.	<p>Main Ideas and Author’s Approach: Understand the overall approach taken by an author or narrator (e.g., point of view, kinds of evidence used) in uncomplicated passages</p>
1.8.12. Identify compare and contrast organizational patterns in fiction and nonfiction.	<p>Main Ideas and Author’s Approach: Understand the overall approach taken by an author or narrator (e.g., point of view, kinds of evidence used) in uncomplicated passages</p>
1.8.13. Identify proposition and support organizational patterns in fiction and nonfiction.	<p>Main Ideas and Author’s Approach: Understand the overall approach taken by an author or narrator (e.g., point of view, kinds of evidence used) in uncomplicated passages</p>
C. READING COMPREHENSION	
Literal or Simple Inference	
1.8.14. Determine the answer to a literal or simple inference question regarding the meaning of a passage.	<p>Main Ideas and Author’s Approach: Recognize a clear intent of an author or narrator in uncomplicated literary narratives Identify a clear main idea or purpose of straightforward paragraphs in uncomplicated literary narratives Infer the main idea or purpose of straightforward paragraphs in uncomplicated literary narratives Understand the overall approach taken by an author or narrator (e.g., point of view, kinds of evidence used) in uncomplicated passages Identify a clear main idea or purpose of any paragraph or paragraphs in uncomplicated passages</p> <p>Supporting Details: Locate basic facts (e.g., names, dates, events) clearly stated in a passage Locate simple details at the sentence and paragraph level in uncomplicated passages Recognize a clear function of a part of an uncomplicated passage Locate important details in uncomplicated passages Make simple inferences about how details are used in passages Locate and interpret minor or subtly stated details in uncomplicated passages</p> <p>Sequential, Comparative, and Cause-Effect Relationships: Determine when (e.g., first, last, before, after) or if an event occurred in uncomplicated passages Recognize clear cause-effect relationships described within a single sentence in a passage Identify relationships between main characters in uncomplicated literary narratives Recognize clear cause-effect relationships within a single</p>

STATE GOAL 1: Read with understanding and fluency.	
	<p>paragraph in uncomplicated literary narratives</p> <p>Order simple sequences of events in uncomplicated literary narratives</p> <p>Identify clear relationships between people, ideas, and so on in uncomplicated passages</p> <p>Identify clear cause-effect relationships in uncomplicated passages</p> <p>Order sequences of events in uncomplicated passages</p> <p>Understand relationships between people, ideas, and so on in uncomplicated passages</p> <p>Understand implied or subtly stated cause-effect relationships in uncomplicated passages</p> <p>Meanings of Words:</p> <p>Understand the implication of a familiar word or phrase and of simple descriptive language</p> <p>Use context to understand basic figurative language</p> <p>Use context to determine the appropriate meaning of some figurative and nonfigurative words, phrases, and statements in uncomplicated passages</p> <p>Use context to determine the appropriate meaning of virtually any word, phrase, or statement in uncomplicated passages</p> <p>Generalizations and Conclusions:</p> <p>Draw simple generalizations and conclusions about the main characters in uncomplicated literary narratives</p> <p>Draw simple generalizations and conclusions about people, ideas, and so on in uncomplicated passages</p> <p>Draw generalizations and conclusions about people, ideas, and so on in uncomplicated passages</p> <p>Draw subtle generalizations and conclusions about characters, ideas, and so on in uncomplicated literary narratives</p>
Summarizing and Main Idea	
1.8.15. Compare an original text to a summary to determine whether the summary accurately captures the key ideas.	Main Ideas and Author’s Approach: Summarize basic events and ideas in more challenging passages
1.8.16. Summarize a story or nonfiction passage, or identify the best summary.	Main Ideas and Author’s Approach: Summarize basic events and ideas in more challenging passages

TABLE 2A

ILLINOIS Reading Grade 8 Assessment Frameworks	EXPLORE Reading College Readiness Standards
STATE GOAL 1: Read with understanding and fluency.	
Sequencing and Ordering	
<p>1.8.17. Identify the outcome or conclusion of a story or nonfiction account, based on previous occurrences or events.</p>	<p>Sequential, Comparative, and Cause-Effect Relationships:</p> <p>Determine when (e.g., first, last, before, after) or if an event occurred in uncomplicated passages</p> <p>Order simple sequences of events in uncomplicated literary narratives</p> <p>Order sequences of events in uncomplicated passages</p> <p>Generalizations and Conclusions:</p> <p>Draw simple generalizations and conclusions about the main characters in uncomplicated literary narratives</p> <p>Draw simple generalizations and conclusions about people, ideas, and so on in uncomplicated passages</p> <p>Draw generalizations and conclusions about people, ideas, and so on in uncomplicated passages</p> <p>Draw subtle generalizations and conclusions about characters, ideas, and so on in uncomplicated literary narratives</p>
<p>1.8.18. Identify the causes of events in a story or nonfiction account.</p>	<p>Sequential, Comparative, and Cause-Effect Relationships:</p> <p>Recognize clear cause-effect relationships described within a single sentence in a passage</p> <p>Recognize clear cause-effect relationships within a single paragraph in uncomplicated literary narratives</p> <p>Identify clear cause-effect relationships in uncomplicated passages</p> <p>Understand implied or subtly stated cause-effect relationships in uncomplicated passages</p>
Drawing Conclusions Based on Evidence	
<p>1.8.19. Draw inferences, conclusions, or generalizations about text and support them with textual evidence and prior knowledge.</p>	<p>Main Ideas and Author’s Approach:</p> <p>Infer the main idea or purpose of straightforward paragraphs in uncomplicated literary narratives</p> <p>Understand the overall approach taken by an author or narrator (e.g., point of view, kinds of evidence used) in uncomplicated passages</p> <p>Supporting Details:</p> <p>Make simple inferences about how details are used in passages</p> <p>Locate and interpret minor or subtly stated details in uncomplicated passages</p> <p>Sequential, Comparative, and Cause-Effect Relationships:</p> <p>Determine when (e.g., first, last, before, after) or if an event occurred in uncomplicated passages</p> <p>Order simple sequences of events in uncomplicated literary narratives</p> <p>Order sequences of events in uncomplicated passages</p>

ILLINOIS Reading Grade 8 Assessment Frameworks	EXPLORE Reading College Readiness Standards
STATE GOAL 1: Read with understanding and fluency.	
	<p>Locate important details in uncomplicated passages</p> <p>Make simple inferences about how details are used in passages</p> <p>Locate and interpret minor or subtly stated details in uncomplicated passages</p> <p>Sequential, Comparative, and Cause-Effect Relationships:</p> <p>Determine when (e.g., first, last, before, after) or if an event occurred in uncomplicated passages</p> <p>Recognize clear cause-effect relationships described within a single sentence in a passage</p> <p>Identify relationships between main characters in uncomplicated literary narratives</p> <p>Recognize clear cause-effect relationships within a single paragraph in uncomplicated literary narratives</p> <p>Order simple sequences of events in uncomplicated literary narratives</p> <p>Identify clear relationships between people, ideas, and so on in uncomplicated passages</p> <p>Identify clear cause-effect relationships in uncomplicated passages</p> <p>Order sequences of events in uncomplicated passages</p> <p>Understand relationships between people, ideas, and so on in uncomplicated passages</p> <p>Understand implied or subtly stated cause-effect relationships in uncomplicated passages</p> <p>Meanings of Words:</p> <p>Understand the implication of a familiar word or phrase and of simple descriptive language</p> <p>Use context to understand basic figurative language</p> <p>Use context to determine the appropriate meaning of some figurative and nonfigurative words, phrases, and statements in uncomplicated passages</p> <p>Use context to determine the appropriate meaning of virtually any word, phrase, or statement in uncomplicated passages</p> <p>Generalizations and Conclusions:</p> <p>Draw simple generalizations and conclusions about the main characters in uncomplicated literary narratives</p> <p>Draw simple generalizations and conclusions about people, ideas, and so on in uncomplicated passages</p> <p>Draw generalizations and conclusions about people, ideas, and so on in uncomplicated passages</p> <p>Draw subtle generalizations and conclusions about characters, ideas, and so on in uncomplicated literary narratives</p>
1.8.22. Use information from a variety of sources to explain a situation or decision or to solve a problem.	

TABLE 2A

ILLINOIS Reading Grade 8 Assessment Frameworks	EXPLORE Reading College Readiness Standards
STATE GOAL 1: Read with understanding and fluency.	
Interpreting Instructions	
1.8.23. Determine whether a set of technical, multiple-step instructions or procedures are clear (e.g., if not clear, edit to clarify).	
Author’s Purpose and Design	
1.8.24. Determine the author’s purpose as represented by the choice of genre, and literary devices employed.	<p>Main Ideas and Author’s Approach:</p> <p>Recognize a clear intent of an author or narrator in uncomplicated literary narratives</p> <p>Identify a clear main idea or purpose of straightforward paragraphs in uncomplicated literary narratives</p> <p>Infer the main idea or purpose of straightforward paragraphs in uncomplicated literary narratives</p> <p>Understand the overall approach taken by an author or narrator (e.g., point of view, kinds of evidence used) in uncomplicated passages</p> <p>Identify a clear main idea or purpose of any paragraph or paragraphs in uncomplicated passages</p> <p>Supporting Details:</p> <p>Recognize a clear function of a part of an uncomplicated passage</p> <p>Make simple inferences about how details are used in passages</p>
1.8.25. Determine why some points are illustrated.	

TABLE 2A

ILLINOIS Reading Grade 8 Assessment Frameworks	EXPLORE Reading College Readiness Standards
<p>STATE GOAL 2: Read and understand literature representative of various societies, eras and ideas.</p>	
<p>A. LITERARY ELEMENTS AND TECHNIQUES</p>	
<p>Story and Literary Structure</p>	
<p>2.8.01. Identify elements of fiction: theme, rising action, falling action, conflict, point of view, resolution, and flashback.</p>	<p>Main Ideas and Author’s Approach: Understand the overall approach taken by an author or narrator (e.g., point of view, kinds of evidence used) in uncomplicated passages Summarize basic events and ideas in more challenging passages</p> <p>Sequential, Comparative, and Cause-Effect Relationships: Determine when (e.g., first, last, before, after) or if an event occurred in uncomplicated passages Recognize clear cause-effect relationships described within a single sentence in a passage Identify relationships between main characters in uncomplicated literary narratives Recognize clear cause-effect relationships within a single paragraph in uncomplicated literary narratives Order simple sequences of events in uncomplicated literary narratives Identify clear relationships between people, ideas, and so on in uncomplicated passages Identify clear cause-effect relationships in uncomplicated passages Order sequences of events in uncomplicated passages Understand relationships between people, ideas, and so on in uncomplicated passages Understand implied or subtly stated cause-effect relationships in uncomplicated passages</p> <p>Generalizations and Conclusions: Draw simple generalizations and conclusions about the main characters in uncomplicated literary narratives Draw simple generalizations and conclusions about people, ideas, and so on in uncomplicated passages Draw generalizations and conclusions about people, ideas, and so on in uncomplicated passages Draw subtle generalizations and conclusions about characters, ideas, and so on in uncomplicated literary narratives</p>
<p>2.8.02. Explain how theme, rising action, falling action, conflict, point of view, and resolution contribute to the meaning and a reader’s interpretation of a literary selection.</p>	<p>Main Ideas and Author’s Approach: Understand the overall approach taken by an author or narrator (e.g., point of view, kinds of evidence used) in uncomplicated passages Summarize basic events and ideas in more challenging passages</p> <p>Sequential, Comparative, and Cause-Effect Relationships:</p>

TABLE 2A

ILLINOIS Reading Grade 8 Assessment Frameworks	EXPLORE Reading College Readiness Standards
STATE GOAL 2: Read and understand literature representative of various societies, eras and ideas.	
	<p>Determine when (e.g., first, last, before, after) or if an event occurred in uncomplicated passages</p> <p>Recognize clear cause-effect relationships described within a single sentence in a passage</p> <p>Identify relationships between main characters in uncomplicated literary narratives</p> <p>Recognize clear cause-effect relationships within a single paragraph in uncomplicated literary narratives</p> <p>Order simple sequences of events in uncomplicated literary narratives</p> <p>Identify clear relationships between people, ideas, and so on in uncomplicated passages</p> <p>Identify clear cause-effect relationships in uncomplicated passages</p> <p>Order sequences of events in uncomplicated passages</p> <p>Understand relationships between people, ideas, and so on in uncomplicated passages</p> <p>Understand implied or subtly stated cause-effect relationships in uncomplicated passages</p> <p>Generalizations and Conclusions:</p> <p>Draw simple generalizations and conclusions about the main characters in uncomplicated literary narratives</p> <p>Draw simple generalizations and conclusions about people, ideas, and so on in uncomplicated passages</p> <p>Draw generalizations and conclusions about people, ideas, and so on in uncomplicated passages</p> <p>Draw subtle generalizations and conclusions about characters, ideas, and so on in uncomplicated literary narratives</p>
<p>2.8.03. Identify the author’s message or theme.</p>	<p>Main Ideas and Author’s Approach:</p> <p>Summarize basic events and ideas in more challenging passages</p>
<p>2.8.04. Compare stories to personal experience, prior knowledge, or other stories</p>	
<p>2.8.05. Recognize points of view in narratives (e.g., first person).</p>	<p>Main Ideas and Author’s Approach:</p> <p>Understand the overall approach taken by an author or narrator (e.g., point of view, kinds of evidence used) in uncomplicated passages</p>
Characterization	
<p>2.8.06. Determine what characters are like by their words, thoughts, and actions, as well as how other characters react to them.</p>	<p>Supporting Details:</p> <p>Recognize a clear function of a part of an uncomplicated passage</p> <p>Make simple inferences about how details are used in passages</p> <p>Sequential, Comparative, and Cause-Effect Relationships:</p> <p>Recognize clear cause-effect relationships described within</p>

TABLE 2A

STATE GOAL 2: Read and understand literature representative of various societies, eras and ideas.	
	<p>on in uncomplicated passages</p> <p>Identify clear cause-effect relationships in uncomplicated passages</p> <p>Understand relationships between people, ideas, and so on in uncomplicated passages</p> <p>Understand implied or subtly stated cause-effect relationships in uncomplicated passages</p> <p>Generalizations and Conclusions:</p> <p>Draw simple generalizations and conclusions about the main characters in uncomplicated literary narratives</p> <p>Draw simple generalizations and conclusions about people, ideas, and so on in uncomplicated passages</p> <p>Draw generalizations and conclusions about people, ideas, and so on in uncomplicated passages</p> <p>Draw subtle generalizations and conclusions about characters, ideas, and so on in uncomplicated literary narratives</p>
<p>2.8.09. Explain the relationship between main and supporting characters.</p>	
Literary Terms and Devices	
<p>2.8.10. Identify literary devices (e.g., figurative language, hyperbole, understatement, symbols, dialogue).</p>	<p>Supporting Details:</p> <p>Recognize a clear function of a part of an uncomplicated passage</p> <p>Make simple inferences about how details are used in passages</p> <p>Meanings of Words:</p> <p>Use context to understand basic figurative language</p> <p>Use context to determine the appropriate meaning of some figurative and nonfigurative words, phrases, and statements in uncomplicated passages</p> <p>Use context to determine the appropriate meaning of virtually any word, phrase, or statement in uncomplicated passages</p>
<p>2.8.11. Explain how the literary devices (e.g., imagery, metaphor, figurative language dialogue) contribute to the meaning of a literary selection.</p>	<p>Supporting Details:</p> <p>Recognize a clear function of a part of an uncomplicated passage</p> <p>Make simple inferences about how details are used in passages</p> <p>Meanings of Words:</p> <p>Use context to understand basic figurative language</p> <p>Use context to determine the appropriate meaning of some figurative and nonfigurative words, phrases, and statements in uncomplicated passages</p> <p>Use context to determine the appropriate meaning of virtually any word, phrase, or statement in uncomplicated passages</p>
<p>2.8.12. Identify varieties of irony, including dramatic irony.</p>	

TABLE 2A

ILLINOIS Reading Grade 8 Assessment Frameworks	EXPLORE Reading College Readiness Standards
STATE GOAL 2: Read and understand literature representative of various societies, eras and ideas.	
B. VARIETY OF LITERARY WORKS	
2.8.13. Identify various subcategories of genres: poetry, drama (comedy and tragedy), science fiction, historical fiction, myth or legend, biography/autobiography, short story, poem, fairy tale, folktale, fable, nonfiction, and essay.	

TABLE 2B

ILLINOIS Writing Grade 8 Assessment Frameworks	EXPLORE English College Readiness Standards
STATE GOAL 3: Write to communicate for a variety of purposes.	
A. GRAMMAR, SENTENCE STRUCTURE, SPELLING, PUNCTUATION, AND CAPITALIZATION	
Grammar and Sentence Structure	
<p>3.8.01. Write complete sentences (e.g., avoid fragments and run-on sentences).</p>	<p>Sentence Structure and Formation:</p> <p>Use conjunctions or punctuation to join simple clauses</p> <p>Determine the need for punctuation and conjunctions to avoid awkward-sounding sentence fragments and fused sentences</p> <p>Recognize and correct marked disturbances of sentence flow and structure (e.g., participial phrase fragments, missing or incorrect relative pronouns, dangling or misplaced modifiers)</p> <p>Revise to avoid faulty placement of phrases and faulty coordination and subordination of clauses in sentences with subtle structural problems</p>
<p>3.8.02. Use the correct form of regular and irregular verbs.</p>	<p>Conventions of Usage:</p> <p>Solve such basic grammatical problems as how to form the past and past participle of irregular but commonly used verbs and how to form comparative and superlative adjectives</p> <p>Identify the correct past and past participle forms of irregular and infrequently used verbs and form present-perfect verbs by using <i>have</i> rather than <i>of</i></p>
<p>3.8.03. Write a variety of sentences (e.g., simple, compound and complex).</p>	
<p>3.8.04. Use correct subject-verb agreement.</p>	<p>Conventions of Usage:</p> <p>Solve such grammatical problems as whether to use an adverb or adjective form, how to ensure straightforward subject-verb and pronoun-antecedent agreement, and which preposition to use in simple contexts</p> <p>Ensure that a verb agrees with its subject when there is some text between the two</p>
<p>3.8.05. Write sentences with correct pronoun-antecedent agreement.</p>	<p>Conventions of Usage:</p> <p>Solve such grammatical problems as whether to use an adverb or adjective form, how to ensure straightforward subject-verb and pronoun-antecedent agreement, and which preposition to use in simple contexts</p> <p>Ensure that a pronoun agrees with its antecedent when the two occur in separate clauses or sentences</p>
<p>3.8.06. Demonstrate grade-appropriate use of the various parts of speech.</p>	<p>Sentence Structure and Formation:</p> <p>Use conjunctions or punctuation to join simple clauses</p> <p>Revise shifts in verb tense between simple clauses in a sentence or between simple adjoining sentences</p> <p>Determine the need for punctuation and conjunctions to avoid awkward-sounding sentence fragments and fused sentences</p> <p>Decide the appropriate verb tense and voice by considering the meaning of the entire sentence</p>

TABLE 2B

ILLINOIS Writing Grade 8 Assessment Frameworks	EXPLORE English College Readiness Standards
STATE GOAL 3: Write to communicate for a variety of purposes.	
	<p>Recognize and correct marked disturbances of sentence flow and structure (e.g., participial phrase fragments, missing or incorrect relative pronouns, dangling or misplaced modifiers)</p> <p>Revise to avoid faulty placement of phrases and faulty coordination and subordination of clauses in sentences with subtle structural problems</p> <p>Maintain consistent verb tense and pronoun person on the basis of the preceding clause or sentence</p> <p>Conventions of Usage:</p> <p>Solve such basic grammatical problems as how to form the past and past participle of irregular but commonly used verbs and how to form comparative and superlative adjectives</p> <p>Solve such grammatical problems as whether to use an adverb or adjective form, how to ensure straightforward subject-verb and pronoun-antecedent agreement, and which preposition to use in simple contexts</p> <p>Recognize and use the appropriate word in frequently confused pairs such as <i>there</i> and <i>their</i>, <i>past</i> and <i>passed</i>, and <i>led</i> and <i>lead</i></p> <p>Use idiomatically appropriate prepositions, especially in combination with verbs (e.g., <i>long for</i>, <i>appeal to</i>)</p> <p>Ensure that a verb agrees with its subject when there is some text between the two</p> <p>Ensure that a pronoun agrees with its antecedent when the two occur in separate clauses or sentences</p> <p>Identify the correct past and past participle forms of irregular and infrequently used verbs and form present-perfect verbs by using <i>have</i> rather than <i>of</i></p>
3.8.07. Use consistent verb tense.	<p>Sentence Structure and Formation:</p> <p>Revise shifts in verb tense between simple clauses in a sentence or between simple adjoining sentences</p> <p>Decide the appropriate verb tense and voice by considering the meaning of the entire sentence</p> <p>Maintain consistent verb tense and pronoun person on the basis of the preceding clause or sentence</p>
Spelling	
3.8.08. Spell grade-appropriate words correctly.	
Punctuation and Capitalization	
3.8.09. Capitalize words correctly (based on grade-appropriate rules).	
3.8.10. Use correct end punctuation.	<p>Conventions of Punctuation:</p> <p>Provide appropriate punctuation in straightforward situations (e.g., items in a series)</p>

TABLE 2B

ILLINOIS Writing Grade 8 Assessment Frameworks	EXPLORE English College Readiness Standards
STATE GOAL 3: Write to communicate for a variety of purposes.	
3.8.11. Use commas joining two independent clauses.	<p>Sentence Structure and Formation: Use conjunctions or punctuation to join simple clauses Determine the need for punctuation and conjunctions to avoid awkward-sounding sentence fragments and fused sentences</p> <p>Conventions of Punctuation: Provide appropriate punctuation in straightforward situations (e.g., items in a series)</p>
3.8.12. Use grade-appropriate apostrophes correctly.	<p>Conventions of Punctuation: Use apostrophes to indicate simple possessive nouns</p>
3.8.13. Use quotation marks in direct quotations.	
B & C. COMPOSITION	
PERSUASIVE COMPOSITION	
Write a persuasive composition by taking a position on a topic and developing one side of the argument.	
Persuasive (Focus)	
The clarity with which a composition presents and maintains a clear main idea or point view	
3.8.14. Write a sophisticated opening through the use of anecdotes, quotations, definitions, personal appeals or other effective strategies.	<p>Organization, Unity, and Coherence: Add a sentence to introduce or conclude the essay or to provide a transition between paragraphs when the essay is fairly straightforward</p>
3.8.15. Clearly maintain logic and position throughout.	<p>Topic Development in Terms of Purpose and Focus: Identify the central idea or main topic of a straightforward piece of writing Identify the focus of a simple essay, applying that knowledge to add a sentence that sharpens that focus or to determine if an essay has met a specified goal</p> <p>Organization, Unity, and Coherence: Use conjunctive adverbs or phrases to show time relationships in simple narrative essays (e.g., <i>then, this time</i>) Select the most logical place to add a sentence in a paragraph Use conjunctive adverbs or phrases to express straightforward logical relationships (e.g., <i>first, afterward, in response</i>) Decide the most logical place to add a sentence in an essay Add a sentence that introduces a simple paragraph Determine the need for conjunctive adverbs or phrases to create subtle logical connections between sentences (e.g., <i>therefore, however, in addition</i>) Rearrange the sentences in a fairly uncomplicated paragraph for the sake of logic Add a sentence to introduce or conclude the essay or to</p>

TABLE 2B

ILLINOIS Writing Grade 8 Assessment Frameworks	EXPLORE English College Readiness Standards
STATE GOAL 3: Write to communicate for a variety of purposes.	
	provide a transition between paragraphs when the essay is fairly straightforward
3.8.16. Write an effective closing which unifies the essay.	Organization, Unity, and Coherence: Add a sentence to introduce or conclude the essay or to provide a transition between paragraphs when the essay is fairly straightforward
Persuasive (Support)	
The degree to which the main point or position is supported and explained by specific details and reasons	
3.8.17. Use well chosen words that suit the message and occasion.	Word Choice in Terms of Style, Tone, Clarity, and Economy: Revise expressions that deviate from the style of an essay Use the word or phrase most consistent with the style and tone of a fairly straightforward essay Use the word or phrase most appropriate in terms of the content of the sentence and tone of the essay
3.8.18. Use multiple strategies to develop support (e.g., explanation, evidence, examples).	Topic Development in Terms of Purpose and Focus: Identify the basic purpose or role of a specified phrase or sentence Add a sentence to accomplish a fairly straightforward purpose such as illustrating a given statement
3.8.19. Build and connect ideas to create depth.	Topic Development in Terms of Purpose and Focus: Identify the basic purpose or role of a specified phrase or sentence Delete a clause or sentence because it is obviously irrelevant to the essay Identify the central idea or main topic of a straightforward piece of writing Determine relevancy when presented with a variety of sentence-level details Identify the focus of a simple essay, applying that knowledge to add a sentence that sharpens that focus or to determine if an essay has met a specified goal Delete material primarily because it disturbs the flow and development of the paragraph Add a sentence to accomplish a fairly straightforward purpose such as illustrating a given statement Organization, Unity, and Coherence: Use conjunctive adverbs or phrases to show time relationships in simple narrative essays (e.g., <i>then, this time</i>) Select the most logical place to add a sentence in a paragraph Use conjunctive adverbs or phrases to express straightforward logical relationships (e.g., <i>first, afterward, in response</i>) Decide the most logical place to add a sentence in an

TABLE 2B

ILLINOIS Writing Grade 8 Assessment Frameworks	EXPLORE English College Readiness Standards
STATE GOAL 3: Write to communicate for a variety of purposes.	
	<p>essay</p> <p>Add a sentence that introduces a simple paragraph</p> <p>Determine the need for conjunctive adverbs or phrases to create subtle logical connections between sentences (e.g., <i>therefore, however, in addition</i>)</p> <p>Rearrange the sentences in a fairly uncomplicated paragraph for the sake of logic</p> <p>Add a sentence to introduce or conclude the essay or to provide a transition between paragraphs when the essay is fairly straightforward</p>
3.8.20. Develop key points evenly (to the same degree of specificity).	
3.8.21. Maintain consistent voice throughout.	<p>Word Choice in Terms of Style, Tone, Clarity, and Economy:</p> <p>Revise expressions that deviate from the style of an essay</p> <p>Use the word or phrase most consistent with the style and tone of a fairly straightforward essay</p> <p>Use the word or phrase most appropriate in terms of the content of the sentence and tone of the essay</p>
Persuasive (Organization)	
The clarity of the logical flow of ideas and the explicitness of the text structure or plan (coherence and cohesion).	
3.8.22. Include a clear structure (appropriate to purpose).	<p>Organization, Unity, and Coherence:</p> <p>Use conjunctive adverbs or phrases to show time relationships in simple narrative essays (e.g., <i>then, this time</i>)</p> <p>Select the most logical place to add a sentence in a paragraph</p> <p>Use conjunctive adverbs or phrases to express straightforward logical relationships (e.g., <i>first, afterward, in response</i>)</p> <p>Decide the most logical place to add a sentence in an essay</p> <p>Add a sentence that introduces a simple paragraph</p> <p>Determine the need for conjunctive adverbs or phrases to create subtle logical connections between sentences (e.g., <i>therefore, however, in addition</i>)</p> <p>Rearrange the sentences in a fairly uncomplicated paragraph for the sake of logic</p> <p>Add a sentence to introduce or conclude the essay or to provide a transition between paragraphs when the essay is fairly straightforward</p>

TABLE 2B

ILLINOIS Writing Grade 8 Assessment Frameworks	EXPLORE English College Readiness Standards
STATE GOAL 3: Write to communicate for a variety of purposes.	
<p>3.8.23. Use appropriate, purposeful paragraphing for major points.</p>	<p>Organization, Unity, and Coherence:</p> <p>Select the most logical place to add a sentence in a paragraph</p> <p>Add a sentence that introduces a simple paragraph</p> <p>Rearrange the sentences in a fairly uncomplicated paragraph for the sake of logic</p> <p>Add a sentence to introduce or conclude the essay or to provide a transition between paragraphs when the essay is fairly straightforward</p>
<p>3.8.24. Connect sentences and paragraphs through effective and varied transitions and other devices (e.g., repetition, pronouns, synonyms, parallel structure).</p>	<p>Organization, Unity, and Coherence:</p> <p>Use conjunctive adverbs or phrases to show time relationships in simple narrative essays (e.g., <i>then, this time</i>)</p> <p>Use conjunctive adverbs or phrases to express straightforward logical relationships (e.g., <i>first, afterward, in response</i>)</p> <p>Add a sentence that introduces a simple paragraph</p> <p>Determine the need for conjunctive adverbs or phrases to create subtle logical connections between sentences (e.g., <i>therefore, however, in addition</i>)</p> <p>Add a sentence to introduce or conclude the essay or to provide a transition between paragraphs when the essay is fairly straightforward</p>
<p>3.8.25. Vary sentence structure and word choice.</p>	
Persuasive (Integration)	
<p>Evaluation of the composition based on a focused, global judgment of how effectively the composition as a whole fulfills the assignment</p>	
<p>3.8.26. Fully develop the composition for grade level.</p>	
<p>3.8.27. Include clear, purposeful focus and voice.</p>	<p>Topic Development in Terms of Purpose and Focus:</p> <p>Identify the basic purpose or role of a specified phrase or sentence</p> <p>Delete a clause or sentence because it is obviously irrelevant to the essay</p> <p>Identify the central idea or main topic of a straightforward piece of writing</p> <p>Determine relevancy when presented with a variety of sentence-level details</p> <p>Identify the focus of a simple essay, applying that knowledge to add a sentence that sharpens that focus or to determine if an essay has met a specified goal</p> <p>Delete material primarily because it disturbs the flow and development of the paragraph</p>
<p>3.8.28. Write in-depth, balanced support.</p>	
<p>3.8.29. Develop lines of reasoning coherently and cohesively throughout the composition.</p>	

TABLE 2B

ILLINOIS Writing Grade 8 Assessment Frameworks	EXPLORE English College Readiness Standards
STATE GOAL 3: Write to communicate for a variety of purposes.	
NARRATIVE COMPOSITION	
Write a personal narrative composition recounting and reflecting upon a significant experience, describing the action that occurs and the reactions of the participants involved.	
Narrative (Focus)	
The clarity with which a narrative composition presents and maintains a unifying event or theme	
3.8.30. Clearly set the purpose of the composition through a successful introduction strategy.	Organization, Unity, and Coherence: Add a sentence to introduce or conclude the essay or to provide a transition between paragraphs when the essay is fairly straightforward
3.8.31. Include reactions that are effectively connected to the unifying event.	
3.8.32. Write an effective closing which unifies the writing.	Organization, Unity, and Coherence: Add a sentence to introduce or conclude the essay or to provide a transition between paragraphs when the essay is fairly straightforward
Narrative (Elaboration)	
The degree to which the event is elaborated by specific details, descriptions, and reactions	
3.8.33. Develop all major episodes/reactions with specific details and examples (developed to the same degree of specificity).	Topic Development in Terms of Purpose and Focus: Identify the basic purpose or role of a specified phrase or sentence Add a sentence to accomplish a fairly straightforward purpose such as illustrating a given statement
3.8.34. Describe events/reactions through multiple strategies (e.g., points of view/perspective, others' reactions, dialogue, etc.).	
3.8.35. Write an effective closing which unifies the writing.	Organization, Unity, and Coherence: Add a sentence to introduce or conclude the essay or to provide a transition between paragraphs when the essay is fairly straightforward
3.8.36. Use specific words to describe the event/reactions.	Word Choice in Terms of Style, Tone, Clarity, and Economy: Revise vague nouns and pronouns that create obvious logic problems Use the word or phrase most appropriate in terms of the content of the sentence and tone of the essay
3.8.37. Maintain consistent voice throughout.	Word Choice in Terms of Style, Tone, Clarity, and Economy: Revise expressions that deviate from the style of an essay Use the word or phrase most consistent with the style and tone of a fairly straightforward essay Use the word or phrase most appropriate in terms of the content of the sentence and tone of the essay

TABLE 2B

ILLINOIS Writing Grade 8 Assessment Frameworks	EXPLORE English College Readiness Standards
STATE GOAL 3: Write to communicate for a variety of purposes.	
Narrative (Organization)	
The clarity of the logical flow of an experience and/or movement of an event through time (coherence and cohesion)	
<p>3.8.38. Write a sequence of episodes that move through time with a beginning, a middle, and an end without gaps.</p>	<p>Organization, Unity, and Coherence:</p> <p>Use conjunctive adverbs or phrases to show time relationships in simple narrative essays (e.g., <i>then, this time</i>)</p> <p>Select the most logical place to add a sentence in a paragraph</p> <p>Use conjunctive adverbs or phrases to express straightforward logical relationships (e.g., <i>first, afterward, in response</i>)</p> <p>Decide the most logical place to add a sentence in an essay</p> <p>Add a sentence that introduces a simple paragraph</p> <p>Determine the need for conjunctive adverbs or phrases to create subtle logical connections between sentences (e.g., <i>therefore, however, in addition</i>)</p> <p>Rearrange the sentences in a fairly uncomplicated paragraph for the sake of logic</p> <p>Add a sentence to introduce or conclude the essay or to provide a transition between paragraphs when the essay is fairly straightforward</p>
<p>3.8.39. Use appropriate, purposeful paragraphing (follow narrative structure).</p>	<p>Organization, Unity, and Coherence:</p> <p>Select the most logical place to add a sentence in a paragraph</p> <p>Add a sentence that introduces a simple paragraph</p> <p>Rearrange the sentences in a fairly uncomplicated paragraph for the sake of logic</p> <p>Add a sentence to introduce or conclude the essay or to provide a transition between paragraphs when the essay is fairly straightforward</p>
<p>3.8.40. Use effective and varied devices to demonstrate coherence and cohesion (e.g., transitions, parallel structure, pronouns, etc.).</p>	<p>Organization, Unity, and Coherence:</p> <p>Use conjunctive adverbs or phrases to show time relationships in simple narrative essays (e.g., <i>then, this time</i>)</p> <p>Use conjunctive adverbs or phrases to express straightforward logical relationships (e.g., <i>first, afterward, in response</i>)</p> <p>Add a sentence that introduces a simple paragraph</p> <p>Determine the need for conjunctive adverbs or phrases to create subtle logical connections between sentences (e.g., <i>therefore, however, in addition</i>)</p> <p>Add a sentence to introduce or conclude the essay or to provide a transition between paragraphs when the essay is fairly straightforward</p>

TABLE 2B

ILLINOIS Writing Grade 8 Assessment Frameworks	EXPLORE English College Readiness Standards
STATE GOAL 3: Write to communicate for a variety of purposes.	
3.8.41. Present and interrelate episodes and reactions logically.	
3.8.42. Vary sentence structure to produce cohesion.	
Narrative (Integration)	
The evaluation of the composition based on a focused, global judgment of how effectively the composition as a whole fulfills the assignment	
3.8.43. Fully develop the composition for grade level.	
3.8.44. Maintain a clear and purposeful focus, an in-depth, balanced elaboration, and a consistent voice.	<p>Topic Development in Terms of Purpose and Focus:</p> <ul style="list-style-type: none"> Identify the basic purpose or role of a specified phrase or sentence Delete a clause or sentence because it is obviously irrelevant to the essay Identify the central idea or main topic of a straightforward piece of writing Determine relevancy when presented with a variety of sentence-level details Identify the focus of a simple essay, applying that knowledge to add a sentence that sharpens that focus or to determine if an essay has met a specified goal Delete material primarily because it disturbs the flow and development of the paragraph <p>Word Choice in Terms of Style, Tone, Clarity, and Economy:</p> <ul style="list-style-type: none"> Revise expressions that deviate from the style of an essay Use the word or phrase most consistent with the style and tone of a fairly straightforward essay Use the word or phrase most appropriate in terms of the content of the sentence and tone of the essay

TABLE 2B

ILLINOIS Writing Grade 8 Assessment Frameworks	EXPLORE English College Readiness Standards
<p>STATE GOAL 3: Write to communicate for a variety of purposes.</p>	
<p>3.8.45. Develop a sequence of episodes coherently and cohesively throughout.</p>	<p>Organization, Unity, and Coherence:</p> <ul style="list-style-type: none"> Use conjunctive adverbs or phrases to show time relationships in simple narrative essays (e.g., <i>then, this time</i>) Select the most logical place to add a sentence in a paragraph Use conjunctive adverbs or phrases to express straightforward logical relationships (e.g., <i>first, afterward, in response</i>) Decide the most logical place to add a sentence in an essay Add a sentence that introduces a simple paragraph Determine the need for conjunctive adverbs or phrases to create subtle logical connections between sentences (e.g., <i>therefore, however, in addition</i>) Rearrange the sentences in a fairly uncomplicated paragraph for the sake of logic Add a sentence to introduce or conclude the essay or to provide a transition between paragraphs when the essay is fairly straightforward

TABLE 2C

ILLINOIS Mathematics Grade 8 Assessment Frameworks	EXPLORE Mathematics College Readiness Standards
STATE GOAL 6: Number Sense. Demonstrate and apply a knowledge and sense of numbers, including numeration and operations (addition, subtraction, multiplication, division), patterns, ratios and proportions.	
A. REPRESENTATIONS AND ORDERING	
Read, Write, and Represent Numbers	
6.8.01. Read, write, and recognize equivalent representations of integer powers of 10.	
6.8.02. Read, write, recognize, model, and interpret integers, including translating numerical expressions.	
6.8.03. Recognize, translate between, and apply multiple representations of rational numbers (decimals, fractions, mixed numbers, percents, and roots).	Basic Operations & Applications: Solve routine one-step arithmetic problems (using whole numbers, fractions, and decimals) such as single-step percent Numbers: Concepts & Properties: Recognize equivalent fractions and fractions in lowest terms
6.8.04. Use scientific notation to represent numbers and solve problems.	Numbers: Concepts & Properties: Work with scientific notation
6.8.05. Represent repeated factors using exponents.	
Order and Compare Numbers	
6.8.06. Order and compare rational numbers.	Numbers: Concepts & Properties: Exhibit knowledge of elementary number concepts including rounding, the ordering of decimals, pattern identification, absolute value, primes, and greatest common factor
Number Line	
6.8.07. Identify and locate rational and irrational numbers (e.g., π , $\sqrt{2}$, $\sqrt{5}$) on a number line.	Numbers: Concepts & Properties: Exhibit knowledge of elementary number concepts including rounding, the ordering of decimals, pattern identification, absolute value, primes, and greatest common factor Graphical Representations: Identify the location of a point with a positive coordinate on the number line Locate points on the number line and in the first quadrant
Classifications of Numbers	
6.8.08. Solve problems involving descriptions of numbers, including characteristics and relationships (e.g., exponents, roots, prime/composite, prime factorization, greatest common factor, least common multiple).	Numbers: Concepts & Properties: Recognize one-digit factors of a number Exhibit knowledge of elementary number concepts including rounding, the ordering of decimals, pattern identification, absolute value, primes, and greatest common factor Find and use the least common multiple Work with numerical factors Work with squares and square roots of numbers

TABLE 2C

ILLINOIS Mathematics Grade 8 Assessment Frameworks	EXPLORE Mathematics College Readiness Standards
STATE GOAL 6: Number Sense. Demonstrate and apply a knowledge and sense of numbers, including numeration and operations (addition, subtraction, multiplication, division), patterns, ratios and proportions.	
B & C. COMPUTATION, OPERATIONS, ESTIMATION, AND PROPERTIES	
Number Operations	
6.8.09. Solve problems and number sentences involving addition, subtraction, multiplication, and division using rational numbers, exponents, and roots.	Basic Operations & Applications: Perform one-operation computation with whole numbers and decimals Solve problems in one or two steps using whole numbers Solve routine one-step arithmetic problems (using whole numbers, fractions, and decimals) such as single-step percent Solve some routine two-step arithmetic problems
6.8.10. Identify and apply order of operations to simplify numeric expressions involving integers (including exponents and roots), fractions, and decimals.	Basic Operations & Applications: Solve problems in one or two steps using whole numbers Solve some routine two-step arithmetic problems
Properties	
6.8.11. Identify and apply the following properties of operations with rational numbers: <ul style="list-style-type: none"> • the commutative and associative properties for addition and multiplication; • the distributive property; • the additive and multiplicative identity properties; • the additive and multiplicative inverse properties; and • the multiplicative property of zero. 	Basic Operations & Applications: Solve problems in one or two steps using whole numbers Solve some routine two-step arithmetic problems Expressions, Equations, & Inequalities: Solve equations in the form $x + a = b$, where a and b are whole numbers or decimals Solve one-step equations having integer or decimal answers Solve routine first-degree equations
6.8.12. Describe the effect of multiplying and dividing by numbers, including the effect of multiplying or dividing a rational number by: <ul style="list-style-type: none"> • a number less than zero; • zero; • a number between zero and one; and • a number greater than one. 	
Estimation	
6.8.13. Select, use, and justify appropriate operations, methods, and tools to compute or estimate with rational numbers. Verify solutions and determine the reasonableness of results.	Basic Operations & Applications: Perform one-operation computation with whole numbers and decimals Solve problems in one or two steps using whole numbers Solve routine one-step arithmetic problems (using whole numbers, fractions, and decimals) such as single-step percent Solve some routine two-step arithmetic problems Solve routine two-step or three-step arithmetic problems involving concepts such as rate and proportion, tax added, percentage off, and computing with a given average

TABLE 2C

ILLINOIS Mathematics Grade 8 Assessment Frameworks	EXPLORE Mathematics College Readiness Standards
STATE GOAL 6: Number Sense. Demonstrate and apply a knowledge and sense of numbers, including numeration and operations (addition, subtraction, multiplication, division), patterns, ratios and proportions.	
6.8.14. Estimate the square or cube root of a number less than 1,000 between two whole numbers (e.g., $\sqrt[3]{200}$ is between 5 and 6).	
D. RATIOS, PROPORTIONS, AND PERCENTS	
Identify and Express Ratios	
6.8.15. Use ratios to describe problem situations.	Basic Operations & Applications: Solve routine two-step or three-step arithmetic problems involving concepts such as rate and proportion, tax added, percentage off, and computing with a given average Solve multistep arithmetic problems that involve planning or converting units of measure (e.g., feet per second to miles per hour)
Proportional Reasoning	
6.8.16. Use proportional reasoning to model and solve problems.	Basic Operations & Applications: Solve routine two-step or three-step arithmetic problems involving concepts such as rate and proportion, tax added, percentage off, and computing with a given average Solve multistep arithmetic problems that involve planning or converting units of measure (e.g., feet per second to miles per hour)
Percents	
6.8.17. Read, write, recognize, model, and interpret percents, including those less than 1% and greater than 100%.	Basic Operations & Applications: Solve routine one-step arithmetic problems (using whole numbers, fractions, and decimals) such as single-step percent Solve routine two-step or three-step arithmetic problems involving concepts such as rate and proportion, tax added, percentage off, and computing with a given average
6.8.18. Solve number sentences and problems involving fractions, decimals, and percents (e.g., percent increase and decrease, interest rates, tax, discounts, tips).	Basic Operations & Applications: Perform one-operation computation with whole numbers and decimals Solve problems in one or two steps using whole numbers Solve routine one-step arithmetic problems (using whole numbers, fractions, and decimals) such as single-step percent Solve some routine two-step arithmetic problems Solve routine two-step or three-step arithmetic problems involving concepts such as rate and proportion, tax added, percentage off, and computing with a given average

TABLE 2C

ILLINOIS Mathematics Grade 8 Assessment Frameworks	EXPLORE Mathematics College Readiness Standards
STATE GOAL 7: Measurement. Estimate, make and use measurements of objects, quantities and relationships and determine acceptable levels of accuracy.	
A, B, & C. UNITS, TOOLS, ESTIMATION, AND APPLICATIONS	
Measurement Tools	
7.8.01. Select and use appropriate standard units and tools to solve measurement problems, including measurements of polygons and circles.	Measurement: Estimate or calculate the length of a line segment based on other lengths given on a geometric figure
Area , Perimeter, and Circumference	
7.8.02. Solve problems involving perimeter/circumference and area of polygons, circles, and composite figures using diagrams, models, and grids or by measuring or using given formulas (may include sketching a figure from its description).	Measurement: Compute the perimeter of polygons when all side lengths are given Compute the area of rectangles when whole number dimensions are given Compute the area and perimeter of triangles and rectangles in simple problems Use geometric formulas when all necessary information is given Compute the area of triangles and rectangles when one or more additional simple steps are required Compute the area and circumference of circles after identifying necessary information
Estimation	
7.8.03. Compare and estimate length (including perimeter/circumference), area, volume, weight/mass, and angles (0° to 360°) using referents.	Measurement: Estimate or calculate the length of a line segment based on other lengths given on a geometric figure
Volume and Surface Area	
7.8.04. Solve problems involving the volume or surface area of a right rectangular prism, right circular cylinder, or composite shape using an appropriate formula or strategy.	Measurement: Use geometric formulas when all necessary information is given
Measurement Conversions	
7.8.05. Solve problems involving unit conversions <i>within the same measurement system</i> for length, weight/mass, capacity, square units, and measures expressed as rates (e.g., converting feet/second to yards/minute).	Basic Operations & Applications: Perform common conversions (e.g., inches to feet or hours to minutes) Solve multistep arithmetic problems that involve planning or converting units of measure (e.g., feet per second to miles per hour)
Indirect Measurements and Scale Drawings	
7.8.06. Solve problems involving scale drawings, maps, and indirect measurement (e.g., determining the height of a building by comparing its known shadow length to the known height and shadow length of another object).	Basic Operations & Applications: Solve routine two-step or three-step arithmetic problems involving concepts such as rate and proportion, tax added, percentage off, and computing with a given average

TABLE 2C

ILLINOIS Mathematics Grade 8 Assessment Frameworks	EXPLORE Mathematics College Readiness Standards
STATE GOAL 8: Algebra. Use algebraic and analytical methods to identify and describe patterns and relationships in data, solve problems and predict results.	
A. REPRESENTATIONS, PATTERNS, AND EXPRESSIONS	
Patterns	
8.8.01. Analyze, extend, and create sequences or linear functions, and determine algebraic expressions to describe the n th term of a sequence.	Expressions, Equations, & Inequalities: Write expressions, equations, or inequalities with a single variable for common pre-algebra settings (e.g., rate and distance problems and problems that can be solved by using proportions)
Write and Simplify Expressions	
8.8.02. Write an expression using variables to represent unknown quantities.	Expressions, Equations, & Inequalities: Exhibit knowledge of basic expressions (e.g., identify an expression for a total as $b + g$) Perform straightforward word-to-symbol translations
8.8.03. Simplify algebraic expressions.	Expressions, Equations, & Inequalities: Combine like terms (e.g., $2x + 5x$) Add and subtract simple algebraic expressions
8.8.04. Recognize and generate equivalent forms of algebraic expressions.	Expressions, Equations, & Inequalities: Combine like terms (e.g., $2x + 5x$) Add and subtract simple algebraic expressions Perform straightforward word-to-symbol translations
Evaluate Algebraic Expressions	
8.8.05. Evaluate or simplify algebraic expressions with one or more rational variable values (e.g., $3a^2 - b$ for $a = 3$ and $b = 7$).	Expressions, Equations, & Inequalities: Substitute whole numbers for unknown quantities to evaluate expressions Evaluate algebraic expressions by substituting integers for unknown quantities
B. CONNECTIONS USING TABLES, GRAPHS, AND SYMBOLS	
Describing Change	
8.8.06. Recognize, describe, and extend patterns using rate of change.	Basic Operations & Applications: Solve multistep arithmetic problems that involve planning or converting units of measure (e.g., feet per second to miles per hour) Expressions, Equations, & Inequalities: Write expressions, equations, or inequalities with a single variable for common pre-algebra settings (e.g., rate and distance problems and problems that can be solved by using proportions)
Coordinate System	
8.8.07. Represent linear equations and quantitative relationships on a rectangular coordinate system, and interpret the meaning of a specific part of a graph.	Probability, Statistics, & Data Analysis: Translate from one representation of data to another (e.g., a bar graph to a circle graph)

TABLE 2C

ILLINOIS Mathematics Grade 8 Assessment Frameworks	EXPLORE Mathematics College Readiness Standards
STATE GOAL 8: Algebra. Use algebraic and analytical methods to identify and describe patterns and relationships in data, solve problems and predict results.	
Representations	
8.8.08. Translate between different representations (table, written, graphical, or pictorial) of whole number relationships and linear expressions.	Probability, Statistics, & Data Analysis: Translate from one representation of data to another (e.g., a bar graph to a circle graph)
8.8.09. Interpret the meaning of slope and intercepts in linear situations.	
Inequalities	
8.8.10. Identify, graph, and interpret up to two inequalities with a single variable (including the intersection or union of these inequalities) on a number line.	
C & D. WRITING, INTERPRETING, AND SOLVING EQUATIONS	
Write Equations and Inequalities	
8.8.11. Represent and analyze problems with linear equations and inequalities.	Expressions, Equations, & Inequalities: Write expressions, equations, or inequalities with a single variable for common pre-algebra settings (e.g., rate and distance problems and problems that can be solved by using proportions)
Solve Equations and Inequalities	
8.8.12. Solve linear equations and inequalities in one variable over the rational numbers (e.g., $5x + 7 = -13$, $4x - 3 = -7x + 8$, $-2x + 3 > -5$).	Expressions, Equations, & Inequalities: Solve equations in the form $x + a = b$, where a and b are whole numbers or decimals Solve one-step equations having integer or decimal answers Solve routine first-degree equations Solve real-world problems using first-degree equations
8.8.13. Solve word problems involving unknown quantities.	Expressions, Equations, & Inequalities: Solve real-world problems using first-degree equations Write expressions, equations, or inequalities with a single variable for common pre-algebra settings (e.g., rate and distance problems and problems that can be solved by using proportions)

TABLE 2C

ILLINOIS Mathematics Grade 8 Assessment Frameworks	EXPLORE Mathematics College Readiness Standards
STATE GOAL 9: Geometry. Use geometric methods to analyze, categorize and draw conclusions about points, lines, planes and space.	
A. PROPERTIES OF SINGLE FIGURES AND COORDINATE GEOMETRY	
Properties of Single Figures	
<p>9.8.01. Solve problems involving two- and three-dimensional shapes.</p>	<p>Properties of Plane Figures:</p> <p>Exhibit some knowledge of the angles associated with parallel lines</p> <p>Find the measure of an angle using properties of parallel lines</p> <p>Exhibit knowledge of basic angle properties and special sums of angle measures (e.g., 90°, 180°, and 360°)</p> <p>Use several angle properties to find an unknown angle measure</p> <p>Measurement:</p> <p>Estimate or calculate the length of a line segment based on other lengths given on a geometric figure</p> <p>Compute the perimeter of polygons when all side lengths are given</p> <p>Compute the area of rectangles when whole number dimensions are given</p> <p>Compute the area and perimeter of triangles and rectangles in simple problems</p> <p>Use geometric formulas when all necessary information is given</p> <p>Compute the area of triangles and rectangles when one or more additional simple steps are required</p> <p>Compute the area and circumference of circles after identifying necessary information</p>
<p>9.8.02. Solve problems that require knowledge of triangle and quadrilateral properties (e.g., triangle inequality).</p>	<p>Properties of Plane Figures:</p> <p>Exhibit some knowledge of the angles associated with parallel lines</p> <p>Find the measure of an angle using properties of parallel lines</p> <p>Exhibit knowledge of basic angle properties and special sums of angle measures (e.g., 90°, 180°, and 360°)</p> <p>Use several angle properties to find an unknown angle measure</p>
<p>9.8.03. Find the length of any side of a right triangle using the Pythagorean theorem (whole number solutions).</p>	
Circles	
<p>9.8.04. Identify, describe, and determine the radius, diameter, and circumference of a circle and their relationship to each other and to pi.</p>	<p>Measurement:</p> <p>Use geometric formulas when all necessary information is given</p> <p>Compute the area and circumference of circles after identifying necessary information</p>

TABLE 2C

ILLINOIS Mathematics Grade 8 Assessment Frameworks	EXPLORE Mathematics College Readiness Standards
STATE GOAL 9: Geometry. Use geometric methods to analyze, categorize and draw conclusions about points, lines, planes and space.	
Coordinate Geometry	
9.8.05. Graph points, and identify coordinates of points on the Cartesian coordinate plane (all four quadrants).	Graphical Representations: Locate points on the number line and in the first quadrant Locate points in the coordinate plane
9.8.06. Represent and identify geometric figures using coordinate geometry, including those resulting from transformations.	
Transformations	
9.8.07. Analyze the results of a combination of transformations, and determine a different transformation that could produce the same result.	
Lines, Segments, Rays, and Angles	
9.8.08. Identify or analyze relationships of angles formed by intersecting lines (including parallel lines cut by a transversal) and angles formed by radii of a circle.	Properties of Plane Figures: Exhibit some knowledge of the angles associated with parallel lines Find the measure of an angle using properties of parallel lines Exhibit knowledge of basic angle properties and special sums of angle measures (e.g., 90°, 180°, and 360°) Use several angle properties to find an unknown angle measure
9.8.09. Solve problems involving vertical, complementary, and supplementary angles.	Properties of Plane Figures: Exhibit some knowledge of the angles associated with parallel lines Find the measure of an angle using properties of parallel lines Exhibit knowledge of basic angle properties and special sums of angle measures (e.g., 90°, 180°, and 360°) Use several angle properties to find an unknown angle measure
B. RELATIONSHIPS BETWEEN AND AMONG MULTIPLE FIGURES	
Relationships Between Two- and Three-Dimensional Objects	
9.8.10. Identify front, side, and top views of a three-dimensional solid built with cubes.	
Congruency and Similarity	
9.8.11. Solve problems involving congruent and similar figures.	
Distance	
9.8.12. Relate absolute value to distance on the number line.	Numbers: Concepts & Properties: Exhibit knowledge of elementary number concepts including rounding, the ordering of decimals, pattern identification, absolute value, primes, and greatest common factor

TABLE 2C

ILLINOIS Mathematics Grade 8 Assessment Frameworks	EXPLORE Mathematics College Readiness Standards
STATE GOAL 10: Data Analysis, Statistics, and Probability. Collect, organize and analyze data using statistical methods; predict results; and interpret uncertainty using concepts of probability.	
A & B. DATA ANALYSIS AND STATISTICS	
Read and Interpret Displays	
10.8.01. Read, interpret (including possible misleading characteristics), and make predictions from data represented in a bar graph, line (dot) plot, Venn diagram (with two or three circles), chart/table, line graph, scatter plot, circle graph, stem-and-leaf plot, or histogram.	Probability, Statistics, & Data Analysis: Read tables and graphs Perform computations on data from tables and graphs Manipulate data from tables and graphs
10.8.02. Compare and contrast the effectiveness of different representations of the same data.	
Complete and Create Displays	
10.8.03. Create a bar graph, chart/table, line graph, or circle graph and solve a problem using the data in the graph for a given set of data.	Probability, Statistics, & Data Analysis: Translate from one representation of data to another (e.g., a bar graph to a circle graph) Manipulate data from tables and graphs
Line of Best Fit	
10.8.04. Identify or draw a reasonable approximation of the line of best fit from a set of data or a scatter plot, and use the line to make predictions.	Probability, Statistics, & Data Analysis: Translate from one representation of data to another (e.g., a bar graph to a circle graph) Manipulate data from tables and graphs
Statistics	
10.8.05. Analyze and apply measures of central tendency (mode, range, median, and mean) in problem-solving situations.	Probability, Statistics, & Data Analysis: Calculate the average of a list of positive whole numbers Calculate the average of a list of numbers Calculate the average, given the number of data values and the sum of the data values Calculate the missing data value, given the average and all data values but one Calculate the average, given the frequency counts of all the data values
C. PROBABILITY	
Probability	
10.8.06. Solve problems involving the probability of an event composed of repeated trials, compound events (including independent events), or future events with or without replacement.	Probability, Statistics, & Data Analysis: Use the relationship between the probability of an event and the probability of its complement Determine the probability of a simple event Compute straightforward probabilities for common situations
Outcomes and Counting Principles	
10.8.07. Represent all possible outcomes (sample space) for simple or compound events (e.g., tables, grids, tree diagrams).	

TABLE 2C

ILLINOIS Mathematics Grade 8 Assessment Frameworks	EXPLORE Mathematics College Readiness Standards
<p>STATE GOAL 10: Data Analysis, Statistics, and Probability. Collect, organize and analyze data using statistical methods; predict results; and interpret uncertainty using concepts of probability.</p>	
<p>10.8.08. Solve simple problems involving the number of ways objects can be arranged (permutations and combinations).</p>

TABLE 3A

ILLINOIS Reading Grade 11 Assessment Frameworks	PLAN Reading College Readiness Standards
STATE GOAL 1: Read with understanding and fluency.	
A. VOCABULARY DEVELOPMENT	
Words in Context	
<p>1.11.01. Determine the connotation of a familiar or unfamiliar word using word, sentence, and cross-sentence clues.</p>	<p>Meanings of Words:</p> <p>Understand the implication of a familiar word or phrase and of simple descriptive language</p> <p>Use context to understand basic figurative language</p> <p>Use context to determine the appropriate meaning of some figurative and nonfigurative words, phrases, and statements in uncomplicated passages</p> <p>Use context to determine the appropriate meaning of virtually any word, phrase, or statement in uncomplicated passages</p> <p>Use context to determine the appropriate meaning of some figurative and nonfigurative words, phrases, and statements in more challenging passages</p> <p>Determine the appropriate meaning of words, phrases, or statements from figurative or somewhat technical contexts</p>
<p>1.11.02. Determine the meaning of a word in context when the word has multiple meanings.</p>	<p>Meanings of Words:</p> <p>Understand the implication of a familiar word or phrase and of simple descriptive language</p> <p>Use context to understand basic figurative language</p> <p>Use context to determine the appropriate meaning of some figurative and nonfigurative words, phrases, and statements in uncomplicated passages</p> <p>Use context to determine the appropriate meaning of virtually any word, phrase, or statement in uncomplicated passages</p> <p>Use context to determine the appropriate meaning of some figurative and nonfigurative words, phrases, and statements in more challenging passages</p> <p>Determine the appropriate meaning of words, phrases, or statements from figurative or somewhat technical contexts</p>
<p>1.11.03. Determine the meaning of jargon and/or technical terms used independent of context.</p>	
<p>1.11.04. Determine the meaning of jargon and/or technical terms in context.</p>	<p>Meanings of Words:</p> <p>Determine the appropriate meaning of words, phrases, or statements from figurative or somewhat technical contexts</p>
<p>1.11.05. Determine what an acronym stands for in context.</p>	

TABLE 3A

ILLINOIS Reading Grade 11 Assessment Frameworks	PLAN Reading College Readiness Standards
STATE GOAL 1: Read with understanding and fluency.	
<p>1.11.06. Determine the meaning of figurative words and phrases.</p>	<p>Meanings of Words:</p> <p>Use context to understand basic figurative language</p> <p>Use context to determine the appropriate meaning of some figurative and nonfigurative words, phrases, and statements in uncomplicated passages</p> <p>Use context to determine the appropriate meaning of virtually any word, phrase, or statement in uncomplicated passages</p> <p>Use context to determine the appropriate meaning of some figurative and nonfigurative words, phrases, and statements in more challenging passages</p> <p>Determine the appropriate meaning of words, phrases, or statements from figurative or somewhat technical contexts</p>
B. READING STRATEGIES	
<p>1.11.07. Infer target audiences for passages.</p>	
C. READING COMPREHENSION	
Literal or Simple Inference	
<p>1.11.08. Infer the meaning of a passage.</p>	<p>Main Ideas and Author’s Approach:</p> <p>Infer the main idea or purpose of straightforward paragraphs in uncomplicated literary narratives</p> <p>Understand the overall approach taken by an author or narrator (e.g., point of view, kinds of evidence used) in uncomplicated passages</p> <p>Infer the main idea or purpose of straightforward paragraphs in more challenging passages</p> <p>Summarize basic events and ideas in more challenging passages</p> <p>Understand the overall approach taken by an author or narrator (e.g., point of view, kinds of evidence used) in more challenging passages</p> <p>Infer the main idea or purpose of more challenging passages or their paragraphs</p> <p>Supporting Details:</p> <p>Make simple inferences about how details are used in passages</p> <p>Locate and interpret minor or subtly stated details in uncomplicated passages</p> <p>Discern which details, though they may appear in different sections throughout a passage, support important points in more challenging passages</p> <p>Sequential, Comparative, and Cause-Effect Relationships:</p> <p>Determine when (e.g., first, last, before, after) or if an event occurred in uncomplicated passages</p> <p>Order simple sequences of events in uncomplicated literary narratives</p> <p>Order sequences of events in uncomplicated passages</p>

TABLE 3A

ILLINOIS Reading Grade 11 Assessment Frameworks	PLAN Reading College Readiness Standards
STATE GOAL 1: Read with understanding and fluency.	
	<p>Understand relationships between people, ideas, and so on in uncomplicated passages</p> <p>Understand implied or subtly stated cause-effect relationships in uncomplicated passages</p> <p>Order sequences of events in more challenging passages</p> <p>Understand the dynamics between people, ideas, and so on in more challenging passages</p> <p>Understand implied or subtly stated cause-effect relationships in more challenging passages</p> <p>Meanings of Words:</p> <p>Understand the implication of a familiar word or phrase and of simple descriptive language</p> <p>Use context to understand basic figurative language</p> <p>Use context to determine the appropriate meaning of some figurative and nonfigurative words, phrases, and statements in uncomplicated passages</p> <p>Use context to determine the appropriate meaning of virtually any word, phrase, or statement in uncomplicated passages</p> <p>Use context to determine the appropriate meaning of some figurative and nonfigurative words, phrases, and statements in more challenging passages</p> <p>Determine the appropriate meaning of words, phrases, or statements from figurative or somewhat technical contexts</p> <p>Generalizations and Conclusions:</p> <p>Draw simple generalizations and conclusions about the main characters in uncomplicated literary narratives</p> <p>Draw simple generalizations and conclusions about people, ideas, and so on in uncomplicated passages</p> <p>Draw generalizations and conclusions about people, ideas, and so on in uncomplicated passages</p> <p>Draw simple generalizations and conclusions using details that support the main points of more challenging passages</p> <p>Draw subtle generalizations and conclusions about characters, ideas, and so on in uncomplicated literary narratives</p> <p>Draw generalizations and conclusions about people, ideas, and so on in more challenging passages</p> <p>Use information from one or more sections of a more challenging passage to draw generalizations and conclusions about people, ideas, and so on</p>

TABLE 3A

ILLINOIS Reading Grade 11 Assessment Frameworks	PLAN Reading College Readiness Standards
STATE GOAL 1: Read with understanding and fluency.	
1.11.09. Identify significant details.	Supporting Details: Locate basic facts (e.g., names, dates, events) clearly stated in a passage Locate simple details at the sentence and paragraph level in uncomplicated passages Locate important details in uncomplicated passages Locate important details in more challenging passages Locate and interpret minor or subtly stated details in uncomplicated passages
1.11.10. Identify implied details.	Supporting Details: Locate and interpret minor or subtly stated details in uncomplicated passages Locate and interpret minor or subtly stated details in more challenging passages
1.11.11. Identify subtly-stated details.	Supporting Details: Locate and interpret minor or subtly stated details in uncomplicated passages Locate and interpret minor or subtly stated details in more challenging passages
Summarizing and Main Idea	
1.11.12. Summarize a complex story or nonfiction passage.	Main Ideas and Author's Approach: Summarize events and ideas in virtually any passage
1.11.13. Identify the main idea when it is not explicitly stated.	Main Ideas and Author's Approach: Infer the main idea or purpose of straightforward paragraphs in uncomplicated literary narratives Infer the main idea or purpose of straightforward paragraphs in more challenging passages Infer the main idea or purpose of more challenging passages or their paragraphs
Sequencing and Ordering	
1.11.14. Identify the causes of events in a passage.	Sequential, Comparative, and Cause-Effect Relationships: Recognize clear cause-effect relationships described within a single sentence in a passage Recognize clear cause-effect relationships within a single paragraph in uncomplicated literary narratives Identify clear cause-effect relationships in uncomplicated passages Understand implied or subtly stated cause-effect relationships in uncomplicated passages Identify clear cause-effect relationships in more challenging passages Understand implied or subtly stated cause-effect relationships in more challenging passages

TABLE 3A

ILLINOIS Reading Grade 11 Assessment Frameworks	PLAN Reading College Readiness Standards
STATE GOAL 1: Read with understanding and fluency.	
<p>1.11.15. Identify the outcome or conclusion of a passage, based on previous occurrences or events in the text.</p>	<p>Generalizations and Conclusions:</p> <p>Draw simple generalizations and conclusions about the main characters in uncomplicated literary narratives</p> <p>Draw simple generalizations and conclusions about people, ideas, and so on in uncomplicated passages</p> <p>Draw generalizations and conclusions about people, ideas, and so on in uncomplicated passages</p> <p>Draw simple generalizations and conclusions using details that support the main points of more challenging passages</p> <p>Draw subtle generalizations and conclusions about characters, ideas, and so on in uncomplicated literary narratives</p> <p>Draw generalizations and conclusions about people, ideas, and so on in more challenging passages</p> <p>Use information from one or more sections of a more challenging passage to draw generalizations and conclusions about people, ideas, and so on</p>
<p>1.11.16. Sequence steps in instructions.</p>	
<p>1.11.17. Identify cause and effect organization patterns in fiction and nonfiction passages.</p>	<p>Main Ideas and Author’s Approach:</p> <p>Understand the overall approach taken by an author or narrator (e.g., point of view, kinds of evidence used) in uncomplicated passages</p> <p>Understand the overall approach taken by an author or narrator (e.g., point of view, kinds of evidence used) in more challenging passages</p>
Drawing Conclusions Based on Evidence	
<p>1.11.18. Draw inferences, conclusions, or generalizations about text and support them with textual evidence and/or prior knowledge.</p>	<p>Main Ideas and Author’s Approach:</p> <p>Infer the main idea or purpose of straightforward paragraphs in uncomplicated literary narratives</p> <p>Understand the overall approach taken by an author or narrator (e.g., point of view, kinds of evidence used) in uncomplicated passages</p> <p>Infer the main idea or purpose of straightforward paragraphs in more challenging passages</p> <p>Summarize basic events and ideas in more challenging passages</p> <p>Understand the overall approach taken by an author or narrator (e.g., point of view, kinds of evidence used) in more challenging passages</p> <p>Infer the main idea or purpose of more challenging passages or their paragraphs</p> <p>Supporting Details:</p> <p>Make simple inferences about how details are used in passages</p> <p>Locate and interpret minor or subtly stated details in uncomplicated passages</p>

TABLE 3A

ILLINOIS Reading Grade 11 Assessment Frameworks	PLAN Reading College Readiness Standards
STATE GOAL 1: Read with understanding and fluency.	
	<p>Discern which details, though they may appear in different sections throughout a passage, support important points in more challenging passages</p> <p>Sequential, Comparative, and Cause-Effect Relationships:</p> <p>Determine when (e.g., first, last, before, after) or if an event occurred in uncomplicated passages</p> <p>Order simple sequences of events in uncomplicated literary narratives</p> <p>Order sequences of events in uncomplicated passages</p> <p>Understand relationships between people, ideas, and so on in uncomplicated passages</p> <p>Understand implied or subtly stated cause-effect relationships in uncomplicated passages</p> <p>Order sequences of events in more challenging passages</p> <p>Understand the dynamics between people, ideas, and so on in more challenging passages</p> <p>Understand implied or subtly stated cause-effect relationships in more challenging passages</p> <p>Meanings of Words:</p> <p>Understand the implication of a familiar word or phrase and of simple descriptive language</p> <p>Use context to understand basic figurative language</p> <p>Use context to determine the appropriate meaning of some figurative and nonfigurative words, phrases, and statements in uncomplicated passages</p> <p>Use context to determine the appropriate meaning of virtually any word, phrase, or statement in uncomplicated passages</p> <p>Use context to determine the appropriate meaning of some figurative and nonfigurative words, phrases, and statements in more challenging passages</p> <p>Determine the appropriate meaning of words, phrases, or statements from figurative or somewhat technical contexts</p> <p>Generalizations and Conclusions:</p> <p>Draw simple generalizations and conclusions about the main characters in uncomplicated literary narratives</p> <p>Draw simple generalizations and conclusions about people, ideas, and so on in uncomplicated passages</p> <p>Draw generalizations and conclusions about people, ideas, and so on in uncomplicated passages</p> <p>Draw simple generalizations and conclusions using details that support the main points of more challenging passages</p> <p>Draw subtle generalizations and conclusions about characters, ideas, and so on in uncomplicated literary narratives</p> <p>Draw generalizations and conclusions about people, ideas, and so on in more challenging passages</p>

TABLE 3A

ILLINOIS Reading Grade 11 Assessment Frameworks	PLAN Reading College Readiness Standards
STATE GOAL 1: Read with understanding and fluency.	
	Use information from one or more sections of a more challenging passage to draw generalizations and conclusions about people, ideas, and so on
<p>1.11.19. Draw conclusions about general conditions/situations/events based on information in a passage.</p>	<p>Generalizations and Conclusions:</p> <p>Draw simple generalizations and conclusions about the main characters in uncomplicated literary narratives</p> <p>Draw simple generalizations and conclusions about people, ideas, and so on in uncomplicated passages</p> <p>Draw generalizations and conclusions about people, ideas, and so on in uncomplicated passages</p> <p>Draw simple generalizations and conclusions using details that support the main points of more challenging passages</p> <p>Draw subtle generalizations and conclusions about characters, ideas, and so on in uncomplicated literary narratives</p> <p>Draw generalizations and conclusions about people, ideas, and so on in more challenging passages</p> <p>Use information from one or more sections of a more challenging passage to draw generalizations and conclusions about people, ideas, and so on</p>
<p>1.11.20. Understand the rationale behind a policy or procedure.</p>	
<p>1.11.21. Differentiate between reasoning based on fact versus reasoning based on opinions, emotional appeals, or other persuasive techniques.</p>	<p>Supporting Details:</p> <p>Recognize a clear function of a part of an uncomplicated passage</p> <p>Make simple inferences about how details are used in passages</p> <p>Discern which details, though they may appear in different sections throughout a passage, support important points in more challenging passages</p> <p>Generalizations and Conclusions:</p> <p>Draw simple generalizations and conclusions about the main characters in uncomplicated literary narratives</p> <p>Draw simple generalizations and conclusions about people, ideas, and so on in uncomplicated passages</p> <p>Draw generalizations and conclusions about people, ideas, and so on in uncomplicated passages</p> <p>Draw simple generalizations and conclusions using details that support the main points of more challenging passages</p> <p>Draw subtle generalizations and conclusions about characters, ideas, and so on in uncomplicated literary narratives</p> <p>Draw generalizations and conclusions about people, ideas, and so on in more challenging passages</p> <p>Use information from one or more sections of a more challenging passage to draw generalizations and conclusions about people, ideas, and so on</p>
<p>1.11.22. Apply information to a described situation.</p>	

TABLE 3A

ILLINOIS Reading Grade 11 Assessment Frameworks	PLAN Reading College Readiness Standards
STATE GOAL 1: Read with understanding and fluency.	
<p>1.11.23. Use comparison/contrast to identify how information in a passage has similar or different characteristics.</p>	<p>Sequential, Comparative, and Cause-Effect Relationships:</p> <p>Identify relationships between main characters in uncomplicated literary narratives</p> <p>Identify clear relationships between people, ideas, and so on in uncomplicated passages</p> <p>Understand relationships between people, ideas, and so on in uncomplicated passages</p> <p>Identify clear relationships between characters, ideas, and so on in more challenging literary narratives</p> <p>Understand the dynamics between people, ideas, and so on in more challenging passages</p>
Interpreting Instructions	
1.11.24. Apply instructions with conditionals.	
1.11.25. Apply information to new situations.	
1.11.26. Generalize from text to situations not described.	
1.11.27. Identify underlying principles and apply them to dissimilar situations.	
Author’s Purpose and Design	
<p>1.11.28. Identify and interpret the author’s purpose and point of view in expository texts and literary passages.</p>	<p>Main Ideas and Author’s Approach:</p> <p>Recognize a clear intent of an author or narrator in uncomplicated literary narratives</p> <p>Understand the overall approach taken by an author or narrator (e.g., point of view, kinds of evidence used) in uncomplicated passages</p> <p>Understand the overall approach taken by an author or narrator (e.g., point of view, kinds of evidence used) in more challenging passages</p>
<p>1.11.29. Explain how dialogue is used in a given passage to develop characters and create mood.</p>	<p>Supporting Details:</p> <p>Recognize a clear function of a part of an uncomplicated passage</p> <p>Make simple inferences about how details are used in passages</p> <p>Discern which details, though they may appear in different sections throughout a passage, support important points in more challenging passages</p>
<p>1.11.30. Determine an author’s implied meaning by drawing conclusions based on facts, events, images, patterns, symbols, etc. found in the text.</p>	<p>Main Ideas and Author’s Approach:</p> <p>Infer the main idea or purpose of straightforward paragraphs in uncomplicated literary narratives</p> <p>Understand the overall approach taken by an author or narrator (e.g., point of view, kinds of evidence used) in uncomplicated passages</p> <p>Infer the main idea or purpose of straightforward paragraphs in more challenging passages</p> <p>Summarize basic events and ideas in more challenging passages</p>

TABLE 3A

ILLINOIS Reading Grade 11 Assessment Frameworks	PLAN Reading College Readiness Standards
STATE GOAL 1: Read with understanding and fluency.	
	<p>Understand the overall approach taken by an author or narrator (e.g., point of view, kinds of evidence used) in more challenging passages</p> <p>Infer the main idea or purpose of more challenging passages or their paragraphs</p> <p>Supporting Details:</p> <p>Make simple inferences about how details are used in passages</p> <p>Locate and interpret minor or subtly stated details in uncomplicated passages</p> <p>Discern which details, though they may appear in different sections throughout a passage, support important points in more challenging passages</p> <p>Sequential, Comparative, and Cause-Effect Relationships:</p> <p>Determine when (e.g., first, last, before, after) or if an event occurred in uncomplicated passages</p> <p>Order simple sequences of events in uncomplicated literary narratives</p> <p>Order sequences of events in uncomplicated passages</p> <p>Understand relationships between people, ideas, and so on in uncomplicated passages</p> <p>Understand implied or subtly stated cause-effect relationships in uncomplicated passages</p> <p>Order sequences of events in more challenging passages</p> <p>Understand the dynamics between people, ideas, and so on in more challenging passages</p> <p>Understand implied or subtly stated cause-effect relationships in more challenging passages</p> <p>Meanings of Words:</p> <p>Understand the implication of a familiar word or phrase and of simple descriptive language</p> <p>Use context to understand basic figurative language</p> <p>Use context to determine the appropriate meaning of some figurative and nonfigurative words, phrases, and statements in uncomplicated passages</p> <p>Use context to determine the appropriate meaning of virtually any word, phrase, or statement in uncomplicated passages</p> <p>Use context to determine the appropriate meaning of some figurative and nonfigurative words, phrases, and statements in more challenging passages</p> <p>Determine the appropriate meaning of words, phrases, or statements from figurative or somewhat technical contexts</p> <p>Generalizations and Conclusions:</p> <p>Draw simple generalizations and conclusions about the main characters in uncomplicated literary narratives</p>

TABLE 3A

ILLINOIS Reading Grade 11 Assessment Frameworks	PLAN Reading College Readiness Standards
STATE GOAL 1: Read with understanding and fluency.	
	<p>Draw simple generalizations and conclusions about people, ideas, and so on in uncomplicated passages</p> <p>Draw generalizations and conclusions about people, ideas, and so on in uncomplicated passages</p> <p>Draw simple generalizations and conclusions using details that support the main points of more challenging passages</p> <p>Draw subtle generalizations and conclusions about characters, ideas, and so on in uncomplicated literary narratives</p> <p>Draw generalizations and conclusions about people, ideas, and so on in more challenging passages</p> <p>Use information from one or more sections of a more challenging passage to draw generalizations and conclusions about people, ideas, and so on</p>

TABLE 3B

ILLINOIS Writing Grade 11 Assessment Frameworks	PLAN English College Readiness Standards
STATE GOAL 3: Write to communicate for a variety of purposes.	
GRAMMAR, SENTENCE STRUCTURE, AND PUNCTUATION (Standard A)	
Grammar and Sentence Structure	
3.11.01. Recognize correct subject verb agreement.	Conventions of Usage: Solve such grammatical problems as whether to use an adverb or adjective form, how to ensure straightforward subject-verb and pronoun-antecedent agreement, and which preposition to use in simple contexts Ensure that a verb agrees with its subject when there is some text between the two Ensure that a verb agrees with its subject in unusual situations (e.g., when the subject-verb order is inverted or when the subject is an indefinite pronoun)
3.11.02. Recognize appropriate use of subordinating conjunctions and relative pronouns.	Sentence Structure and Formation: Use conjunctions or punctuation to join simple clauses Determine the need for punctuation and conjunctions to avoid awkward-sounding sentence fragments and fused sentences Recognize and correct marked disturbances of sentence flow and structure (e.g., participial phrase fragments, missing or incorrect relative pronouns, dangling or misplaced modifiers) Revise to avoid faulty placement of phrases and faulty coordination and subordination of clauses in sentences with subtle structural problems Use sentence-combining techniques, effectively avoiding problematic comma splices, run-on sentences, and sentence fragments, especially in sentences containing compound subjects or verbs Conventions of Usage: Correctly use reflexive pronouns, the possessive pronouns <i>its</i> and <i>your</i> , and the relative pronouns <i>who</i> and <i>whom</i>
3.11.03. Edit sentences to create or maintain parallelism between phrases.	Sentence Structure and Formation: Recognize and correct marked disturbances of sentence flow and structure (e.g., participial phrase fragments, missing or incorrect relative pronouns, dangling or misplaced modifiers) Revise to avoid faulty placement of phrases and faulty coordination and subordination of clauses in sentences with subtle structural problems Use sentence-combining techniques, effectively avoiding problematic comma splices, run-on sentences, and sentence fragments, especially in sentences containing compound subjects or verbs

TABLE 3B

ILLINOIS Writing Grade 11 Assessment Frameworks	PLAN English College Readiness Standards
STATE GOAL 3: Write to communicate for a variety of purposes.	
<p>3.11.04. Select prepositions and pronouns precisely and in keeping with established idioms (e.g., going <i>to</i> the store, rather than going <i>at</i> the store).</p>	<p>Word Choice in Terms of Style, Tone, Clarity, and Economy:</p> <p>Revise vague nouns and pronouns that create obvious logic problems</p> <p>Identify and correct ambiguous pronoun references</p> <p>Conventions of Usage:</p> <p>Solve such grammatical problems as whether to use an adverb or adjective form, how to ensure straightforward subject-verb and pronoun-antecedent agreement, and which preposition to use in simple contexts</p> <p>Use idiomatically appropriate prepositions, especially in combination with verbs (e.g., <i>long for</i>, <i>appeal to</i>)</p>
<p>3.11.05. Recognize subject verb agreement in sentences with collective nouns and indefinite pronouns as subjects.</p>	<p>Conventions of Usage:</p> <p>Ensure that a verb agrees with its subject in unusual situations (e.g., when the subject-verb order is inverted or when the subject is an indefinite pronoun)</p>
<p>3.11.06. Recognize the distinctions between adjective and adverbial forms of words and when each is appropriate for a given context (e.g., With a dreamy—not “dreamily”—look in his eye, he made a wish.).</p>	<p>Conventions of Usage:</p> <p>Solve such grammatical problems as whether to use an adverb or adjective form, how to ensure straightforward subject-verb and pronoun-antecedent agreement, and which preposition to use in simple contexts</p>
<p>3.11.07. Recognize the correct form of regular and irregular verbs including how they should be formed in different tenses (e.g., The book should have—not “of”—been returned by now.).</p>	<p>Conventions of Usage:</p> <p>Solve such basic grammatical problems as how to form the past and past participle of irregular but commonly used verbs and how to form comparative and superlative adjectives</p> <p>Identify the correct past and past participle forms of irregular and infrequently used verbs and form present-perfect verbs by using <i>have</i> rather than <i>of</i></p>
<p>3.11.08. Recognize the proper form of possessive pronouns, and distinguish them from adverbs and contractions (e.g., They need their—not “there”—buckets to play in the sand. The movie has a charm all its—not “it’s”—own.).</p>	<p>Conventions of Usage:</p> <p>Recognize and use the appropriate word in frequently confused pairs such as <i>there</i> and <i>their</i>, <i>past</i> and <i>passed</i>, and <i>led</i> and <i>lead</i></p> <p>Correctly use reflexive pronouns, the possessive pronouns <i>its</i> and <i>your</i>, and the relative pronouns <i>who</i> and <i>whom</i></p>
<p>3.11.09. Recognize the proper case of a pronoun in a given context (e.g., She—not “Her”—and I went to the math contest.).</p>	<p>Conventions of Usage:</p> <p>Correctly use reflexive pronouns, the possessive pronouns <i>its</i> and <i>your</i>, and the relative pronouns <i>who</i> and <i>whom</i></p>
<p>3.11.10. Recognize the correct form of words used to create a comparison (e.g., They are the fastest—not “most fastest”—swimmers.).</p>	<p>Conventions of Usage:</p> <p>Solve such basic grammatical problems as how to form the past and past participle of irregular but commonly used verbs and how to form comparative and superlative adjectives</p>

TABLE 3B

ILLINOIS Writing Grade 11 Assessment Frameworks	PLAN English College Readiness Standards
STATE GOAL 3: Write to communicate for a variety of purposes.	
<p>3.11.11. Recognize the idioms of standard written English (e.g., I felt as if I had walked a mile in his shoes. You won't get away with that easily.).</p>	<p>Conventions of Usage:</p> <p>Solve such grammatical problems as whether to use an adverb or adjective form, how to ensure straightforward subject-verb and pronoun-antecedent agreement, and which preposition to use in simple contexts</p> <p>Use idiomatically appropriate prepositions, especially in combination with verbs (e.g., <i>long for</i>, <i>appeal to</i>)</p>
<p>3.11.12. Avoid run-on sentences, fused sentences, comma splices, and sentence fragments.</p>	<p>Sentence Structure and Formation:</p> <p>Use conjunctions or punctuation to join simple clauses</p> <p>Determine the need for punctuation and conjunctions to avoid awkward-sounding sentence fragments and fused sentences</p> <p>Recognize and correct marked disturbances of sentence flow and structure (e.g., participial phrase fragments, missing or incorrect relative pronouns, dangling or misplaced modifiers)</p> <p>Revise to avoid faulty placement of phrases and faulty coordination and subordination of clauses in sentences with subtle structural problems</p> <p>Use sentence-combining techniques, effectively avoiding problematic comma splices, run-on sentences, and sentence fragments, especially in sentences containing compound subjects or verbs</p>
<p>3.11.13. Recognize sentences in which modifiers are properly placed in order to avoid ambiguity or confusion (e.g., They thought the room filled with flowers was lovely. <i>Not:</i> Filled with flowers, they thought the room was lovely.).</p>	<p>Sentence Structure and Formation:</p> <p>Recognize and correct marked disturbances of sentence flow and structure (e.g., participial phrase fragments, missing or incorrect relative pronouns, dangling or misplaced modifiers)</p> <p>Revise to avoid faulty placement of phrases and faulty coordination and subordination of clauses in sentences with subtle structural problems</p>
<p>3.11.14. Maintain consistency of person within a sentence and between sentences (e.g., You may spend the time riding your bike or jogging around the track. You—<i>not</i> “One”—may also lift weights.).</p>	<p>Sentence Structure and Formation:</p> <p>Maintain consistent verb tense and pronoun person on the basis of the preceding clause or sentence</p>
<p>3.11.15. Maintain consistency of voice within a sentence.</p>	<p>Sentence Structure and Formation:</p> <p>Decide the appropriate verb tense and voice by considering the meaning of the entire sentence</p>
<p>3.11.16. Maintain the proper verb tense within a sentence and between sentences.</p>	<p>Sentence Structure and Formation:</p> <p>Revise shifts in verb tense between simple clauses in a sentence or between simple adjoining sentences</p> <p>Decide the appropriate verb tense and voice by considering the meaning of the entire sentence</p> <p>Maintain consistent verb tense and pronoun person on the basis of the preceding clause or sentence</p>
<p>3.11.17. Recognize the mood in which a verb should be placed to create a coherent sentence (e.g., They told Mr. Liu that his car had been fixed and he can—<i>not</i> “were to”—pick it up at the garage.).</p>	

TABLE 3B

ILLINOIS Writing Grade 11 Assessment Frameworks	PLAN English College Readiness Standards
STATE GOAL 3: Write to communicate for a variety of purposes.	
Punctuation	
3.11.18. Recognize when commas are needed to set off independent modifiers.	Conventions of Punctuation: Provide appropriate punctuation in straightforward situations (e.g., items in a series)
3.11.19. Recognize when semicolons are needed and/or effective between two closely related clauses.	Conventions of Punctuation: Recognize inappropriate uses of colons and semicolons Use a semicolon to indicate a relationship between closely related independent clauses
3.11.20. Identify and omit misplaced commas, colons, dashes, and semicolons.	Conventions of Punctuation: Delete commas that create basic sense problems (e.g., between verb and direct object) Delete commas that disturb the sentence flow (e.g., between modifier and modified element) Delete unnecessary commas when an incorrect reading of the sentence suggests a pause that should be punctuated (e.g., between verb and direct object clause) Recognize and delete unnecessary commas based on a careful reading of a complicated sentence (e.g., between the elements of a compound subject or compound verb joined by <i>and</i>) Recognize inappropriate uses of colons and semicolons
3.11.21. Recognize whether the end of a sentence should be punctuated with a period, question mark, or exclamation point.	Conventions of Punctuation: Provide appropriate punctuation in straightforward situations (e.g., items in a series)
3.11.22. Recognize the correct use of apostrophes.	Conventions of Punctuation: Use apostrophes to indicate simple possessive nouns Use an apostrophe to show possession, especially with irregular plural nouns
3.11.23. Recognize when information within a sentence should be identified, through punctuation, as parenthetical and how to identify it as such with the correct use of commas, dashes, or parentheses.	Conventions of Punctuation: Use commas to set off simple parenthetical phrases Use punctuation to set off complex parenthetical phrases

TABLE 3B

ILLINOIS Writing Grade 11 Assessment Frameworks	PLAN English College Readiness Standards
STATE GOAL 3: Write to communicate for a variety of purposes.	
<p>3.11.24. Understand how to use punctuation to avoid ambiguity in a sentence (e.g., The boys say the girls are talented. The boys, say the girls, are talented.).</p>	<p>Conventions of Punctuation:</p> <p>Delete commas that create basic sense problems (e.g., between verb and direct object)</p> <p>Provide appropriate punctuation in straightforward situations (e.g., items in a series)</p> <p>Delete commas that disturb the sentence flow (e.g., between modifier and modified element)</p> <p>Use commas to set off simple parenthetical phrases</p> <p>Delete unnecessary commas when an incorrect reading of the sentence suggests a pause that should be punctuated (e.g., between verb and direct object clause)</p> <p>Use punctuation to set off complex parenthetical phrases</p> <p>Recognize and delete unnecessary commas based on a careful reading of a complicated sentence (e.g., between the elements of a compound subject or compound verb joined by <i>and</i>)</p> <p>Use apostrophes to indicate simple possessive nouns</p> <p>Use commas to set off a nonessential/nonrestrictive appositive or clause</p> <p>Deal with multiple punctuation problems (e.g., compound sentences containing unnecessary commas and phrases that may or may not be parenthetical)</p> <p>Use an apostrophe to show possession, especially with irregular plural nouns</p>
<p>3.11.25. Recognize the correct way to punctuate items or simple phrases in a series.</p>	<p>Conventions of Punctuation:</p> <p>Provide appropriate punctuation in straightforward situations (e.g., items in a series)</p>
<p>3.11.26. Recognize the correct way to use punctuation to indicate restrictive or nonrestrictive clauses.</p>	<p>Conventions of Punctuation:</p> <p>Use commas to set off a nonessential/nonrestrictive appositive or clause</p>
COMPOSITION	
Organization and Paragraphs (Standard B)	
<p>3.11.27. Recognize and eliminate wordiness or redundancy.</p>	<p>Word Choice in Terms of Style, Tone, Clarity, and Economy:</p> <p>Delete obviously synonymous and wordy material in a sentence</p> <p>Delete redundant material when information is repeated in different parts of speech (e.g., “alarmingly startled”)</p> <p>Revise a phrase that is redundant in terms of the meaning and logic of the entire sentence</p>

TABLE 3B

ILLINOIS Writing Grade 11 Assessment Frameworks	PLAN English College Readiness Standards
STATE GOAL 3: Write to communicate for a variety of purposes.	
<p>3.11.28. Recognize the best order of words in a sentence or of sentences in a paragraph to maintain or establish clarity and coherence.</p>	<p>Organization, Unity, and Coherence: Select the most logical place to add a sentence in a paragraph Rearrange the sentences in a fairly uncomplicated paragraph for the sake of logic</p> <p>Word Choice in Terms of Style, Tone, Clarity, and Economy: Revise sentences to correct awkward and confusing arrangements of sentence elements</p> <p>Sentence Structure and Formation: Recognize and correct marked disturbances of sentence flow and structure (e.g., participial phrase fragments, missing or incorrect relative pronouns, dangling or misplaced modifiers) Revise to avoid faulty placement of phrases and faulty coordination and subordination of clauses in sentences with subtle structural problems</p>
<p>3.11.29. Recognize the word or phrase that creates the most logical and effective transition between parts of a sentence, between sentences, or between paragraphs.</p>	<p>Organization, Unity, and Coherence: Use conjunctive adverbs or phrases to show time relationships in simple narrative essays (e.g., <i>then, this time</i>) Use conjunctive adverbs or phrases to express straightforward logical relationships (e.g., <i>first, afterward, in response</i>) Determine the need for conjunctive adverbs or phrases to create subtle logical connections between sentences (e.g., <i>therefore, however, in addition</i>)</p>
<p>3.11.30. Identify the best sentence to be added to a paragraph (e.g., a sentence, from a list, that adds something significant and relevant to a paragraph).</p>	<p>Topic Development in Terms of Purpose and Focus: Identify the basic purpose or role of a specified phrase or sentence Delete a clause or sentence because it is obviously irrelevant to the essay Determine relevancy when presented with a variety of sentence-level details Identify the focus of a simple essay, applying that knowledge to add a sentence that sharpens that focus or to determine if an essay has met a specified goal Delete material primarily because it disturbs the flow and development of the paragraph Add a sentence to accomplish a fairly straightforward purpose such as illustrating a given statement Apply an awareness of the focus and purpose of a fairly involved essay to determine the rhetorical effect and suitability of an existing phrase or sentence, or to determine the need to delete plausible but irrelevant material Add a sentence to accomplish a subtle rhetorical purpose such as to emphasize, to add supporting detail, or to express meaning through connotation</p>

TABLE 3B

ILLINOIS Writing Grade 11 Assessment Frameworks	PLAN English College Readiness Standards
STATE GOAL 3: Write to communicate for a variety of purposes.	
3.11.31. Decide the best place to divide one paragraph into two paragraphs to create coherent paragraphs, each with a distinct focus, mood, or other specified purpose.	
3.11.32. Identify additional information most relevant to a paragraph (e.g., information, from a list, that adds something to a paragraph).	<p>Topic Development in Terms of Purpose and Focus:</p> <p>Identify the basic purpose or role of a specified phrase or sentence</p> <p>Delete a clause or sentence because it is obviously irrelevant to the essay</p> <p>Determine relevancy when presented with a variety of sentence-level details</p> <p>Identify the focus of a simple essay, applying that knowledge to add a sentence that sharpens that focus or to determine if an essay has met a specified goal</p> <p>Delete material primarily because it disturbs the flow and development of the paragraph</p> <p>Add a sentence to accomplish a fairly straightforward purpose such as illustrating a given statement</p> <p>Apply an awareness of the focus and purpose of a fairly involved essay to determine the rhetorical effect and suitability of an existing phrase or sentence, or to determine the need to delete plausible but irrelevant material</p> <p>Add a sentence to accomplish a subtle rhetorical purpose such as to emphasize, to add supporting detail, or to express meaning through connotation</p>
3.11.33. Recognize the best analysis of the effect of removing specified words or phrases from sentences or of removing specified words, phrases, or sentences from paragraphs.	<p>Topic Development in Terms of Purpose and Focus:</p> <p>Identify the basic purpose or role of a specified phrase or sentence</p> <p>Delete a clause or sentence because it is obviously irrelevant to the essay</p> <p>Determine relevancy when presented with a variety of sentence-level details</p> <p>Delete material primarily because it disturbs the flow and development of the paragraph</p> <p>Apply an awareness of the focus and purpose of a fairly involved essay to determine the rhetorical effect and suitability of an existing phrase or sentence, or to determine the need to delete plausible but irrelevant material</p>
3.11.34. Recognize words that maintain the style and tone of a paragraph or essay (e.g., avoiding words that are too formal, casual, old-fashioned, academic, technical for an established context).	<p>Word Choice in Terms of Style, Tone, Clarity, and Economy:</p> <p>Revise expressions that deviate from the style of an essay</p> <p>Use the word or phrase most consistent with the style and tone of a fairly straightforward essay</p> <p>Use the word or phrase most appropriate in terms of the content of the sentence and tone of the essay</p>

TABLE 3B

ILLINOIS Writing Grade 11 Assessment Frameworks	PLAN English College Readiness Standards
<p>STATE GOAL 3: Write to communicate for a variety of purposes.</p>	
<p>3.11.35. Select words that establish or maintain clarity rather than words that result in mixed metaphors or other nonsensical or confusing statements.</p>	<p>Word Choice in Terms of Style, Tone, Clarity, and Economy:</p> <ul style="list-style-type: none"> Revise sentences to correct awkward and confusing arrangements of sentence elements Revise vague nouns and pronouns that create obvious logic problems Determine the clearest and most logical conjunction to link clauses Identify and correct ambiguous pronoun references Use the word or phrase most appropriate in terms of the content of the sentence and tone of the essay
<p>Writing Prompt (Standards B/C)</p>	
<p>3.11.36. Persuasive Writing: Take a position on the question stated in the prompt. Write about one of the two points given or present a different point of view. Use specific reasons and examples to support your position.</p>	

TABLE 3C

ILLINOIS Mathematics Grade 11 Assessment Frameworks	PLAN Mathematics College Readiness Standards
<p>STATE GOAL 6: Number Sense. Demonstrate and apply a knowledge and sense of numbers, including numeration and operations (addition, subtraction, multiplication, division), patterns, ratios and proportions.</p>	
<p>A. REPRESENTATIONS AND ORDERING</p>	
<p>6.11.01. Recognize, represent, order, compare real numbers, and locate real numbers on a number line (e.g., π, $\sqrt{2}$, $\sqrt{5}$, $2/3$, -1.6).</p>	<p>Numbers: Concepts & Properties: Exhibit knowledge of elementary number concepts including rounding, the ordering of decimals, pattern identification, absolute value, primes, and greatest common factor Order fractions Work with squares and square roots of numbers Work with cubes and cube roots of numbers</p> <p>Graphical Representations: Identify the location of a point with a positive coordinate on the number line Locate points on the number line and in the first quadrant</p>
<p>6.11.02. Represent numbers in equivalent forms (e.g., fraction/decimal/percent, exponential/logarithmic, radical/rational exponents, absolute value, scientific notation).</p>	<p>Numbers: Concepts & Properties: Recognize equivalent fractions and fractions in lowest terms Exhibit knowledge of elementary number concepts including rounding, the ordering of decimals, pattern identification, absolute value, primes, and greatest common factor Work with scientific notation Work with squares and square roots of numbers Work with cubes and cube roots of numbers</p>
<p>6.11.03. Use matrices to organize data.</p>	
<p>B & C. COMPUTATION, OPERATIONS, ESTIMATION, AND PROPERTIES</p>	
<p>6.11.04. Apply the rules of order of operations to real-number expressions.</p>	<p>Basic Operations & Applications: Solve some routine two-step arithmetic problems</p> <p>Expressions, Equations, & Inequalities: Substitute whole numbers for unknown quantities to evaluate expressions Evaluate algebraic expressions by substituting integers for unknown quantities</p>
<p>6.11.05. Simplify or test expressions by applying field properties (commutative, associative, distributive), order properties (transitive, reflexive, symmetric), and properties of equality for the set of real numbers.</p>	<p>Numbers: Concepts & Properties: Exhibit knowledge of elementary number concepts including rounding, the ordering of decimals, pattern identification, absolute value, primes, and greatest common factor</p> <p>Expressions, Equations, & Inequalities: Solve equations in the form $x + a = b$, where a and b are whole numbers or decimals Solve one-step equations having integer or decimal answers Combine like terms (e.g., $2x + 5x$)</p>

TABLE 3C

ILLINOIS Mathematics Grade 11 Assessment Frameworks	PLAN Mathematics College Readiness Standards
STATE GOAL 6: Number Sense. Demonstrate and apply a knowledge and sense of numbers, including numeration and operations (addition, subtraction, multiplication, division), patterns, ratios and proportions.	
	Add and subtract simple algebraic expressions Solve routine first-degree equations Multiply two binomials Add, subtract, and multiply polynomials Manipulate expressions and equations
6.11.06. Apply number theory concepts to the solution of problems (e.g., prime and composite numbers, prime factorization, greatest common factor, least common multiple, divisibility rules).	Numbers: Concepts & Properties: Exhibit knowledge of elementary number concepts including rounding, the ordering of decimals, pattern identification, absolute value, primes, and greatest common factor Find and use the least common multiple Work with numerical factors Apply number properties involving prime factorization Apply number properties involving even/odd numbers and factors/multiples Apply number properties involving positive/negative numbers
6.11.07. Determine the effects of operations on the magnitudes of quantities (e.g., multiplication, division, powers, roots).	Numbers: Concepts & Properties: Exhibit knowledge of elementary number concepts including rounding, the ordering of decimals, pattern identification, absolute value, primes, and greatest common factor Work with squares and square roots of numbers Work problems involving positive integer exponents Work with cubes and cube roots of numbers Determine when an expression is undefined Apply number properties involving even/odd numbers and factors/multiples Apply number properties involving positive/negative numbers Apply rules of exponents
6.11.08. Determine the appropriate solution, including rounding, from a context (e.g., rounding up, down, to the nearest integer).	Numbers: Concepts & Properties: Exhibit knowledge of elementary number concepts including rounding, the ordering of decimals, pattern identification, absolute value, primes, and greatest common factor
6.11.09. Solve problems involving estimates or data (e.g., use averages to estimate the cost of a job that includes labor and materials).	Probability, Statistics, & Data Analysis: Manipulate data from tables and graphs Interpret and use information from figures, tables, and graphs

TABLE 3C

ILLINOIS Mathematics Grade 11 Assessment Frameworks	PLAN Mathematics College Readiness Standards
STATE GOAL 6: Number Sense. Demonstrate and apply a knowledge and sense of numbers, including numeration and operations (addition, subtraction, multiplication, division), patterns, ratios and proportions.	
6.11.10. Perform numerical computations with real numbers.	<p>Basic Operations & Applications:</p> <p>Perform one-operation computation with whole numbers and decimals</p> <p>Solve problems in one or two steps using whole numbers</p> <p>Solve routine one-step arithmetic problems (using whole numbers, fractions, and decimals) such as single-step percent</p> <p>Solve some routine two-step arithmetic problems</p> <p>Solve routine two-step or three-step arithmetic problems involving concepts such as rate and proportion, tax added, percentage off, and computing with a given average</p> <p>Solve multistep arithmetic problems that involve planning or converting units of measure (e.g., feet per second to miles per hour)</p> <p>Numbers: Concepts & Properties:</p> <p>Work problems involving positive integer exponents</p> <p>Apply rules of exponents</p>
6.11.11. Perform numerical computations with non-real complex numbers.	
6.11.12. Solve problems using simple matrix operations (addition, subtraction, multiplication, scalar multiplication).	
6.11.13. Set up, evaluate, or solve single- and multi-step number sentences and word problems with rational numbers using the four basic operations.	<p>Basic Operations & Applications:</p> <p>Perform one-operation computation with whole numbers and decimals</p> <p>Solve problems in one or two steps using whole numbers</p> <p>Solve routine one-step arithmetic problems (using whole numbers, fractions, and decimals) such as single-step percent</p> <p>Solve some routine two-step arithmetic problems</p> <p>Solve routine two-step or three-step arithmetic problems involving concepts such as rate and proportion, tax added, percentage off, and computing with a given average</p> <p>Solve multistep arithmetic problems that involve planning or converting units of measure (e.g., feet per second to miles per hour)</p> <p>Expressions, Equations, & Inequalities:</p> <p>Solve equations in the form $x + a = b$, where a and b are whole numbers or decimals</p> <p>Substitute whole numbers for unknown quantities to evaluate expressions</p> <p>Solve one-step equations having integer or decimal answers</p> <p>Evaluate algebraic expressions by substituting integers for unknown quantities</p> <p>Solve routine first-degree equations</p>

TABLE 3C

ILLINOIS Mathematics Grade 11 Assessment Frameworks	PLAN Mathematics College Readiness Standards
STATE GOAL 6: Number Sense. Demonstrate and apply a knowledge and sense of numbers, including numeration and operations (addition, subtraction, multiplication, division), patterns, ratios and proportions.	
	Perform straightforward word-to-symbol translations Solve real-world problems using first-degree equations Write expressions, equations, or inequalities with a single variable for common pre-algebra settings (e.g., rate and distance problems and problems that can be solved by using proportions) Manipulate expressions and equations Write expressions, equations, and inequalities for common algebra settings Solve linear inequalities that require reversing the inequality sign Solve absolute value equations Solve quadratic equations
6.11.14. Determine the most cost effective option using single- and multi-step calculations and then comparing results.	
6.11.15. Judge the reasonableness of solutions, and find mistakes in calculation, logic, and formula application.	
6.11.16. Simplify numerical problems involving absolute value.	Numbers: Concepts & Properties: Exhibit knowledge of elementary number concepts including rounding, the ordering of decimals, pattern identification, absolute value, primes, and greatest common factor Expressions, Equations, & Inequalities: Solve absolute value equations
D. RATIOS, PROPORTIONS, AND PERCENTS	
6.11.17. Set up, evaluate, or solve number sentences or word problems involving ratios and proportions with rational numbers (e.g., scale drawing, unit rate, scale factor, rate of change).	Basic Operations & Applications: Solve routine two-step or three-step arithmetic problems involving concepts such as rate and proportion, tax added, percentage off, and computing with a given average Solve multistep arithmetic problems that involve planning or converting units of measure (e.g., feet per second to miles per hour) Solve word problems containing several rates, proportions, or percentages Properties of Plane Figures: Apply properties of 30° - 60° - 90° , 45° - 45° - 90° , similar, and congruent triangles

TABLE 3C

ILLINOIS Mathematics Grade 11 Assessment Frameworks	PLAN Mathematics College Readiness Standards
STATE GOAL 7: Measurement. Estimate, make and use measurements of objects, quantities and relationships and determine acceptable levels of accuracy.	
A, B, & C. UNITS, TOOLS, ESTIMATION, AND APPLICATIONS	
<p>7.11.01. Change from one unit to another within the same system of measurement, including calculations with mixed units (e.g., 3½ hours plus 4 hours and 20 minutes; 2½ feet minus 16 inches).</p>	<p>Basic Operations & Applications:</p> <p>Perform common conversions (e.g., inches to feet or hours to minutes)</p> <p>Solve routine two-step or three-step arithmetic problems involving concepts such as rate and proportion, tax added, percentage off, and computing with a given average</p> <p>Solve multistep arithmetic problems that involve planning or converting units of measure (e.g., feet per second to miles per hour)</p>
<p>7.11.02. Change from one unit in one system of measurement to a unit in another system of measurement, given a conversion factor.</p>	<p>Basic Operations & Applications:</p> <p>Solve multistep arithmetic problems that involve planning or converting units of measure (e.g., feet per second to miles per hour)</p>
<p>7.11.03. Determine and calculate to an indicated precision the length, width, height, perimeter/circumference, area, volume, surface area, angle measures, or sums of angle measures of common geometric figures or combinations of common geometric figures.</p>	<p>Properties of Plane Figures:</p> <p>Find the measure of an angle using properties of parallel lines</p> <p>Exhibit knowledge of basic angle properties and special sums of angle measures (e.g., 90°, 180°, and 360°)</p> <p>Use several angle properties to find an unknown angle measure</p> <p>Recognize Pythagorean triples</p> <p>Use properties of isosceles triangles</p> <p>Apply properties of 30°-60°-90°, 45°-45°-90°, similar, and congruent triangles</p> <p>Use the Pythagorean theorem</p> <p>Measurement:</p> <p>Estimate or calculate the length of a line segment based on other lengths given on a geometric figure</p> <p>Compute the perimeter of polygons when all side lengths are given</p> <p>Compute the area of rectangles when whole number dimensions are given</p> <p>Compute the area and perimeter of triangles and rectangles in simple problems</p> <p>Use geometric formulas when all necessary information is given</p> <p>Compute the area of triangles and rectangles when one or more additional simple steps are required</p> <p>Compute the area and circumference of circles after identifying necessary information</p> <p>Compute the perimeter of simple composite geometric figures with unknown side lengths</p> <p>Use relationships involving area, perimeter, and volume of geometric figures to compute another measure</p>

TABLE 3C

ILLINOIS Mathematics Grade 11 Assessment Frameworks	PLAN Mathematics College Readiness Standards
STATE GOAL 7: Measurement. Estimate, make and use measurements of objects, quantities and relationships and determine acceptable levels of accuracy.	
7.11.04. Describe the general trends of how the change in one measure affects other measures in the same figure (e.g., length, area, volume).	
7.11.05. Determine the linear measure, perimeter, area, surface area, and volume of similar figures.	<p>Properties of Plane Figures: Apply properties of 30°-60°-90°, 45°-45°-90°, similar, and congruent triangles</p> <p>Measurement: Use relationships involving area, perimeter, and volume of geometric figures to compute another measure</p>
7.11.06. Determine the ratio of perimeters, areas, and volumes of figures.	
7.11.07. Use measures expressed as rates (e.g., speed, density), measures expressed as products (e.g., person-days), and dimensional analysis (e.g., converting ft/sec to yards/min) to solve problems.	<p>Basic Operations & Applications: Solve routine two-step or three-step arithmetic problems involving concepts such as rate and proportion, tax added, percentage off, and computing with a given average</p> <p>Solve multistep arithmetic problems that involve planning or converting units of measure (e.g., feet per second to miles per hour)</p> <p>Solve word problems containing several rates, proportions, or percentages</p>

TABLE 3C

ILLINOIS Mathematics Grade 11 Assessment Frameworks	PLAN Mathematics College Readiness Standards
STATE GOAL 8: Algebra. Use algebraic and analytical methods to identify and describe patterns and relationships in data, solve problems and predict results.	
A. REPRESENTATIONS, PATTERNS, AND EXPRESSIONS	
8.11.01. Simplify or identify equivalent algebraic expressions (e.g., exponential, rational, logarithmic, factored, polynomial).	Expressions, Equations, & Inequalities: Combine like terms (e.g., $2x + 5x$) Add and subtract simple algebraic expressions Multiply two binomials Add, subtract, and multiply polynomials Factor simple quadratics (e.g., the difference of squares and perfect square trinomials) Manipulate expressions and equations
8.11.02. Represent mathematical relationships using symbolic algebra.	Expressions, Equations, & Inequalities: Perform straightforward word-to-symbol translations Write expressions, equations, or inequalities with a single variable for common pre-algebra settings (e.g., rate and distance problems and problems that can be solved by using proportions) Write expressions, equations, and inequalities for common algebra settings
8.11.03. Identify essential quantitative relationships in a situation, and determine the class or classes of functions (e.g., linear, quadratic, exponential) that model the relationships.	Probability, Statistics, & Data Analysis: Interpret and use information from figures, tables, and graphs Graphical Representations: Interpret and use information from graphs in the coordinate plane
8.11.04. Determine a specific term, a finite sum, or a rule that generates terms of a pattern.	Numbers: Concepts & Properties: Exhibit knowledge of elementary number concepts including rounding, the ordering of decimals, pattern identification, absolute value, primes, and greatest common factor Expressions, Equations, & Inequalities: Write expressions, equations, and inequalities for common algebra settings
8.11.05. Model and describe slope as a constant rate of change.	
8.11.06. Evaluate variable expressions and functions.	Expressions, Equations, & Inequalities: Substitute whole numbers for unknown quantities to evaluate expressions Evaluate algebraic expressions by substituting integers for unknown quantities

TABLE 3C

ILLINOIS Mathematics Grade 11 Assessment Frameworks	PLAN Mathematics College Readiness Standards
STATE GOAL 8: Algebra. Use algebraic and analytical methods to identify and describe patterns and relationships in data, solve problems and predict results.	
B. CONNECTIONS USING TABLES, GRAPHS, AND SYMBOLS	
8.11.07. Identify an equation of a line or an equation of a line of best fit from given information (e.g., from a set of ordered pairs, graphs, tables).	Probability, Statistics, & Data Analysis: Translate from one representation of data to another (e.g., a bar graph to a circle graph) Graphical Representations: Interpret and use information from graphs in the coordinate plane
8.11.08. Recognize and describe the general shape and properties of functions from graphs, tables, or equations (e.g., linear, absolute value, quadratic, exponential, logarithmic).	Graphical Representations: Interpret and use information from graphs in the coordinate plane
8.11.09. Identify slope from an equation, table of values, or graph.	Probability, Statistics, & Data Analysis: Interpret and use information from figures, tables, and graphs Graphical Representations: Determine the slope of a line from points or equations Interpret and use information from graphs in the coordinate plane
8.11.10. Interpret the role of the coefficients and constants on the graphs of linear and quadratic functions, given a set of equations.	
8.11.11. Analyze functions by investigating domain, range, rates of change, intercepts, and zeros.	
8.11.12. Create and connect representations that are tabular, graphic, numeric, and symbolic from a set of data.	Probability, Statistics, & Data Analysis: Translate from one representation of data to another (e.g., a bar graph to a circle graph) Interpret and use information from figures, tables, and graphs
8.11.13. Represent quantitative relationships graphically, and interpret the meaning of the graph or a specific part of the graph as it relates to the situation represented by the graph.	Probability, Statistics, & Data Analysis: Translate from one representation of data to another (e.g., a bar graph to a circle graph) Interpret and use information from figures, tables, and graphs Graphical Representations: Interpret and use information from graphs in the coordinate plane
C & D. WRITING, INTERPRETING, AND SOLVING EQUATIONS	
8.11.14. Model problems using mathematical functions and relations (e.g., linear, non-linear).	Probability, Statistics, & Data Analysis: Translate from one representation of data to another (e.g., a bar graph to a circle graph) Interpret and use information from figures, tables, and graphs

TABLE 3C

ILLINOIS Mathematics Grade 11 Assessment Frameworks	PLAN Mathematics College Readiness Standards
STATE GOAL 8: Algebra. Use algebraic and analytical methods to identify and describe patterns and relationships in data, solve problems and predict results.	
8.11.15. Interpret the graph of a system of equations and inequalities, including cases where there are no solutions.	Expressions, Equations, & Inequalities: Find solutions to systems of linear equations Graphical Representations: Interpret and use information from graphs in the coordinate plane
8.11.16. Solve linear equations and inequalities, including selecting and evaluating formulas.	Expressions, Equations, & Inequalities: Solve equations in the form $x + a = b$, where a and b are whole numbers or decimals Solve one-step equations having integer or decimal answers Solve routine first-degree equations Solve first-degree inequalities that do not require reversing the inequality sign Solve linear inequalities that require reversing the inequality sign
8.11.17. Solve systems of equations and inequalities.	Expressions, Equations, & Inequalities: Find solutions to systems of linear equations
8.11.18. Solve quadratic equations over the complex number system, including selecting and evaluating formulas.	Expressions, Equations, & Inequalities: Solve quadratic equations
8.11.19. Solve problems that include nonlinear functions, including selecting and evaluating formulas (i.e., absolute value, trigonometric, logarithmic, exponential).	Expressions, Equations, & Inequalities: Solve absolute value equations Solve quadratic equations
8.11.20. Identify, interpret, and write equations for circles and other conic sections.	Probability, Statistics, & Data Analysis: Interpret and use information from figures, tables, and graphs
8.11.21. Recognize and apply mathematical and algebraic axioms, theorems of algebra, and deductive reasoning.	Expressions, Equations, & Inequalities: Solve equations in the form $x + a = b$, where a and b are whole numbers or decimals Solve one-step equations having integer or decimal answers Combine like terms (e.g., $2x + 5x$) Add and subtract simple algebraic expressions Solve routine first-degree equations Multiply two binomials Add, subtract, and multiply polynomials Solve first-degree inequalities that do not require reversing the inequality sign Manipulate expressions and equations Solve linear inequalities that require reversing the inequality sign Solve absolute value equations Solve quadratic equations Find solutions to systems of linear equations

TABLE 3C

ILLINOIS Mathematics Grade 11 Assessment Frameworks	PLAN Mathematics College Readiness Standards
STATE GOAL 8: Algebra. Use algebraic and analytical methods to identify and describe patterns and relationships in data, solve problems and predict results.	
8.11.22. Identify equivalent forms of equations, inequalities, and systems of equations.	Expressions, Equations, & Inequalities: Manipulate expressions and equations

TABLE 3C

ILLINOIS Mathematics Grade 11 Assessment Frameworks	PLAN Mathematics College Readiness Standards
STATE GOAL 9: Geometry. Use geometric methods to analyze, categorize and draw conclusions about points, lines, planes and space.	
A. PROPERTIES OF SINGLE FIGURES AND COORDINATE GEOMETRY	
9.11.01. Apply the Pythagorean theorem.	Properties of Plane Figures: Use the Pythagorean theorem
9.11.02. Identify and represent transformations (rotations, reflections, translations, dilations) of an object in the plane, and describe the effects of transformations on points in words or coordinates.	
9.11.03. Determine how changing the scale factor affects the size and position of a figure in the plane.	
9.11.04. Classify plane figures according to their properties.	
9.11.05. Identify, apply, or solve problems that require knowledge of geometric properties of plane figures (e.g., triangles, quadrilaterals, parallel lines cut by a transversal, angles, diagonals, triangle inequality).	Properties of Plane Figures: Find the measure of an angle using properties of parallel lines Exhibit knowledge of basic angle properties and special sums of angle measures (e.g., 90° , 180° , and 360°) Use several angle properties to find an unknown angle measure Use properties of isosceles triangles Apply properties of 30° - 60° - 90° , 45° - 45° - 90° , similar, and congruent triangles Use the Pythagorean theorem Measurement: Use geometric formulas when all necessary information is given
9.11.06. Identify a three-dimensional object from different perspectives.	
9.11.07. Identify the relationship between two-dimensional patterns (e.g., nets) and related three-dimensional objects (e.g., cylinders, prisms, cones).	
9.11.08. Identify two- and three-dimensional figures that would match a set of given conditions.	
9.11.09. Solve problems that involve calculating distance, midpoint, and slope using coordinate geometry.	Graphical Representations: Comprehend the concept of length on the number line Determine the slope of a line from points or equations Find the midpoint of a line segment Use the distance formula
9.11.10. Identify, apply, and solve problems that require knowledge of geometric relationships of circles (e.g. arcs, chords, tangents, secants, central angles, inscribed angles).	Measurement: Use geometric formulas when all necessary information is given Compute the area and circumference of circles after identifying necessary information

TABLE 3C

ILLINOIS Mathematics Grade 11 Assessment Frameworks	PLAN Mathematics College Readiness Standards
STATE GOAL 9: Geometry. Use geometric methods to analyze, categorize and draw conclusions about points, lines, planes and space.	
9.11.11. Graph, locate, and identify points on a coordinate system.	Graphical Representations: Locate points on the number line and in the first quadrant Locate points in the coordinate plane
B. RELATIONSHIPS BETWEEN AND AMONG MULTIPLE FIGURES	
9.11.12. Solve problems involving similar figures.	Properties of Plane Figures: Apply properties of 30° - 60° - 90° , 45° - 45° - 90° , similar, and congruent triangles
9.11.13. Solve problems using triangle congruence.	Properties of Plane Figures: Apply properties of 30° - 60° - 90° , 45° - 45° - 90° , similar, and congruent triangles
9.11.14. Describe how two or more objects are related in space (e.g., skew lines, the possible ways three planes might intersect).	
9.11.15. Identify relationships between circles and other objects in the plane (e.g., inscribed circles, concentric circles, internal/external tangency).	
C. JUSTIFICATIONS OF CONJECTURES AND CONCLUSIONS	
9.11.16. Recognize and apply the conditions that assure congruence and similarity.	Properties of Plane Figures: Apply properties of 30° - 60° - 90° , 45° - 45° - 90° , similar, and congruent triangles
9.11.17. Recognize and apply mathematical and geometric axioms, fundamental theorems of geometry, and deductive reasoning.	Properties of Plane Figures: Find the measure of an angle using properties of parallel lines Exhibit knowledge of basic angle properties and special sums of angle measures (e.g., 90° , 180° , and 360°) Use several angle properties to find an unknown angle measure Use properties of isosceles triangles Apply properties of 30° - 60° - 90° , 45° - 45° - 90° , similar, and congruent triangles Use the Pythagorean theorem
9.11.18. Identify a counter-example to disprove a conjecture.	
D. TRIGONOMETRY	
9.11.19. Determine distances and angle measures using indirect measurement (e.g., properties of right triangles, Law of Sines, Law of Cosines).	Properties of Plane Figures: Find the measure of an angle using properties of parallel lines Exhibit knowledge of basic angle properties and special sums of angle measures (e.g., 90° , 180° , and 360°) Use several angle properties to find an unknown angle measure Apply properties of 30° - 60° - 90° , 45° - 45° - 90° , similar, and congruent triangles Use the Pythagorean theorem

TABLE 3C

ILLINOIS Mathematics Grade 11 Assessment Frameworks	PLAN Mathematics College Readiness Standards
STATE GOAL 9: Geometry. Use geometric methods to analyze, categorize and draw conclusions about points, lines, planes and space.	
9.11.20. Solve problems using 45°-45°-90° and 30°-60°-90° triangles.	Properties of Plane Figures: Apply properties of 30°-60°-90°, 45°-45°-90°, similar, and congruent triangles
9.11.21. Identify graphs of a given trigonometric function ($\sin x$, $\cos x$) using its characteristics (e.g., period, amplitude).	
9.11.22. Define, identify, and evaluate trigonometric ratios.	
9.11.23. Use trigonometric identities (e.g., $\sin^2 x + \cos^2 x = 1$)	

TABLE 3C

ILLINOIS Mathematics Grade 11 Assessment Frameworks	PLAN Mathematics College Readiness Standards
STATE GOAL 10: Data Analysis, Statistics, and Probability. Collect, organize and analyze data using statistical methods; predict results; and interpret uncertainty using concepts of probability.	
A & B. DATA ANALYSIS AND STATISTICS	
10.11.01. Read, interpret, predict, interpolate, extrapolate, and use information from a variety of graphs, charts, and tables.	Probability, Statistics, & Data Analysis: Read tables and graphs Perform computations on data from tables and graphs Manipulate data from tables and graphs Interpret and use information from figures, tables, and graphs
10.11.02. Translate from one representation of data to another (e.g., a bar graph to a circle graph).	Probability, Statistics, & Data Analysis: Translate from one representation of data to another (e.g., a bar graph to a circle graph)
10.11.03. Solve problems involving Venn diagrams.	Probability, Statistics, & Data Analysis: Use Venn diagrams in counting
10.11.04. Find an unknown value in a dataset given information about descriptive statistics.	Probability, Statistics, & Data Analysis: Perform computations on data from tables and graphs Calculate the missing data value, given the average and all data values but one Manipulate data from tables and graphs Interpret and use information from figures, tables, and graphs
10.11.05. Calculate, interpret, and use measures of central tendency and dispersion.	
10.11.06. Compare two or more data sets on measures of central tendency and dispersion.	
C. PROBABILITY	
10.11.07. Compute the probability of an event composed of single or repeated trials with or without replacement.	Probability, Statistics, & Data Analysis: Use the relationship between the probability of an event and the probability of its complement Determine the probability of a simple event Compute straightforward probabilities for common situations
10.11.08. Compute probabilities for compound events.	Probability, Statistics, & Data Analysis: Compute straightforward probabilities for common situations Compute a probability when the event and/or sample space are not given or obvious
10.11.09. Determine geometric probability based on area.	
10.11.10. Apply counting techniques (e.g., permutations, combinations, Fundamental Counting Principle).	Probability, Statistics, & Data Analysis: Exhibit knowledge of simple counting techniques Use Venn diagrams in counting Apply counting techniques

<p>11.11.04. Distinguish and define the following components of typical experiments: constants, variables, experimental group, control group (or control setup).</p>	<p>Scientific Investigation:</p> <p>Understand a simple experimental design</p> <p>Identify a control in an experiment</p>
B. TECHNOLOGICAL DESIGN	
<p>11.11.05. Identify a technological design problem inherent in a given product.</p>	
<p>11.11.06. Out of different lists of criteria, select the list of criteria outlining a successful design solution to a given problem.</p>	
<p>11.11.07. Given test results on different models, choose the model which best solves the design problem.</p>	
<p>11.11.08. Given a description of a test to be performed on a model, select from a list of options what are the possible sources of error in conducting the test.</p>	

TABLE 3D

ILLINOIS Science Grade 11 Assessment Frameworks	PLAN Science College Readiness Standards
STATE GOAL 12: <u>Understand the fundamental concepts, principles and interconnections of the life, physical and earth/space sciences.</u>	
A. LIVING THINGS	
Classification	
12.11.01. <u>Identify the major categories (taxa) of biological classification: kingdom, phylum, class, order, family, genus, and species.</u>	
12.11.02. <u>Understand the kingdoms used by taxonomists: a 5-kingdom system; monera, protista, fungi, plantae, and animalia and a 6-kingdom system; eubacteria, archaeobacteria, protista, fungi, plantae, and animalia. Students should be able to identify organisms within the systems. Understand how to read a cladogram and a dichotomous key.</u>	
12.11.03. <u>Identify the following basic animal types by their common characteristics: sponges, cnidarians, flatworms and roundworms, mollusks, arthropods, echinoderms, invertebrate chordates, and vertebrates.</u>	
Cell Biology	
12.11.04. <u>Identify the similarities and differences between plant and animal cells (i.e., know the various fundamental organelles of plant and animal cells and be able to distinguish these organelles in diagrams).</u>	
12.11.05. <u>Understand how the semi-permeable membranes regulate the flow of substances in and out of the cell body.</u>	
12.11.06. <u>Understand the role of the endoplasmic reticulum and Golgi apparatus in the secretion of proteins.</u>	
12.11.07. <u>Understand that chloroplasts in plant cells capture useable energy from sunlight and store it for future use by synthesizing sugar out of carbon dioxide and water.</u>	
12.11.08. <u>Understand the role of mitochondria in making stored chemical-bond energy available to cells by completing the breakdown of glucose to carbon dioxide and water.</u>	
12.11.09. <u>Understand that the chief energy-storing compound used by organisms is ATP (adenosine triphosphate).</u>	
12.11.10. <u>Understand that enzymes are proteins that catalyze biochemical reactions and that the activity of enzymes depends on the temperature, ionic conditions, and the pH of the surroundings.</u>	

TABLE 3D

ILLINOIS Science Grade 11 Assessment Frameworks	PLAN Science College Readiness Standards
STATE GOAL 12: Understand the fundamental concepts, principles and interconnections of the life, physical and earth/space sciences.	
<p>12.11.11. <u>Understand how prokaryotic cells, eukaryotic cells (whether of animals or plants and whether unicellular or multicellular), and viruses differ in complexity and structure. In particular:</u></p> <ol style="list-style-type: none"> <u>1. Prokaryotes are organisms whose cells lack nuclei. They are usually small and unicellular.</u> <u>2. Eukaryotes are organisms whose cells have nuclei and membrane bound organelles.</u> <u>3. A virus is a non-cellular particle usually made up of genetic material and protein that can invade living cells. Viruses are also much smaller than any unicellular organism (such as a bacterium) and cannot be seen with light microscopes but only with electron microscopes.</u> 	
Genetics and Reproduction	
<p>12.11.12. <u>Understand Mendel's law of segregation and also that genes do not always separate as hypothesized by Mendel's law of segregation. Understand that if genes are located close to each other on the same chromosome, then they are linked and may undergo independent assortment.</u></p>	
<p>12.11.13. <u>Identify and be able to apply the following concepts: trait, alleles, dominant allele, recessive allele, gametes, genotype, homozygous, heterozygous, chromosome, meiosis, and mitosis.</u></p>	
<p>12.11.14. <u>Answer questions about given Punnett squares.</u></p>	
<p>12.11.15. <u>Understand that meiosis is an early step in sexual reproduction in which the pairs of chromosomes separate and segregate randomly during cell division to produce gametes containing one chromosome of each pair. Understand that only certain cells in a multicellular organism undergo meiosis.</u></p>	
<p>12.11.16. <u>Understand how random chromosome segregation explains the probability that a particular allele will be in a gamete.</u></p>	
<p>12.11.17. <u>Know why about half of an individual's DNA sequence comes from each parent. Understand that most of the cells in a human contain pairs of 22 different autosomes and one pair of sex chromosomes.</u></p>	
<p>12.11.18. <u>Understand that in humans there is a pair of chromosomes that determines sex: a female usually contains two X chromosomes and a male usually contains one X and one Y chromosome.</u></p>	
<p>12.11.19. <u>Understand how to predict possible combinations of alleles in a zygote from the genetic makeup of the parents for simple dominant/recessive traits.</u></p>	
<p>12.11.20. <u>Understand that a multicellular organism develops from a single zygote, and its phenotype (i.e. its outward appearance) depends on its genotype (i.e. its genetic makeup), which is established at fertilization.</u></p>	

TABLE 3D

ILLINOIS Science Grade 11 Assessment Frameworks	PLAN Science College Readiness Standards
STATE GOAL 12: <u>Understand the fundamental concepts, principles and interconnections of the life, physical and earth/space sciences.</u>	
12.11.21. <u>Understand that, in all living things, DNA (deoxy-ribonucleic acid) carries the instructions for specifying the characteristics of each organism. Understand that DNA is a large polymer formed from four subunits: A, G, C, and T (adenine, guanine, cytosine, thymine, a 5-carbon sugar and a phosphate). The chemical and structural properties of DNA explain how the genetic information that underlies heredity is both encoded in genes (as a string of molecular letters) and replicated (by a templating mechanism). Know that each DNA molecule in a cell is a single chromosome.</u>	
12.11.22. <u>Understand that a gene is a set of instructions in the DNA sequence of each organism that specifies the sequence of amino acids in polypeptides characteristic of that organism.</u>	
12.11.23. <u>Understand the general steps by which ribosomes synthesize proteins, using information from mRNA and from amino acids delivered by tRNA.</u>	
12.11.24. <u>Understand that specialization of cells in multicellular organisms is usually due to different patterns of gene expression rather than to differences of the genes themselves.</u>	
Change Over Time	
12.11.25. <u>Understand that natural selection acts on the phenotype, not the genotype, of an organism.</u>	
12.11.26. <u>Understand that alleles that are lethal in a homozygous individual may be carried in a heterozygote and thus maintained in a gene pool.</u>	
12.11.27. <u>Understand that variation within a species increases the likelihood that at least some members of a species will survive and reproduce under changed environmental conditions.</u>	
12.11.28. <u>Understand that reproductive or geographic isolation can lead to speciation.</u>	
12.11.29. <u>Understand that the millions of different species of plants, animals, and microorganisms that live on Earth today are related to each other by descent from common ancestors and that biological classifications are based on how organisms are related.</u>	
12.11.30. <u>Understand how to analyze fossil evidence with regard to mass extinction, episodic speciation, and biological diversity.</u>	
B. ENVIRONMENT AND INTERACTION OF LIVING THINGS	
Ecology and Adaptation	
12.11.31. <u>Understand the causes of ecosystem disruptions: changes in climate, human activity, introduction of a nonnative species, changes in population size, sudden natural disasters.</u>	

TABLE 3D

ILLINOIS Science Grade 11 Assessment Frameworks	PLAN Science College Readiness Standards
STATE GOAL 12: <u>Understand the fundamental concepts, principles and interconnections of the life, physical and earth/space sciences.</u>	
12.11.32. <u>Know that fluctuations in population size are determined by the relative rates of birth, immigration, emigration, and death.</u>	
12.11.33. <u>Know that concentrations of nonbiodegradable pollutants (e.g., pesticides) increase as we go up in a particular food chain (i.e., that the further we go in the direction of consumers whose food is tainted with pesticide, the more concentrated the levels of the pesticide). Understand that this process is called biological magnification.</u>	
12.11.34. <u>Understand how agricultural run-off and pollution entering groundwater and surface water can affect drinking water and local wildlife.</u>	
12.11.35. <u>Understand that a vital part of an ecosystem is the stability of its producers and decomposers.</u>	
12.11.36. <u>Understand the effects upon the population of a species caused by various ecological factors, particularly (a) the presence of another species with competitive feeding habits, (b) the presence (or absence) of and number of predators, (c) the abundance or scarcity of food sources.</u>	
C. MATTER AND ENERGY	
Properties of Matter	
12.11.37. <u>Identify the most familiar elements by name and some of their most familiar properties. Identify the chemical symbols for familiar elements.</u>	
12.11.38. <u>Know that atoms are made of sub-atomic particles (protons, neutrons, electrons) which have positive, neutral, or negative charges. Understand that the periodic table displays the elements in increasing atomic number and shows how periodicity of the physical and chemical properties of the elements relates to atomic structure.</u>	
12.11.39. <u>Understand how to relate the position of an element in the periodic table to its chemical properties.</u>	
12.11.40. <u>Understand how to use the periodic table to identify the families of elements (and their properties) known as alkali metals, alkaline Earth metals, halogens, and noble gases.</u>	
12.11.41. <u>Know that there is a kind of periodicity in the physical properties of chemical elements, that the periodic table arranges them accordingly, and that this way of ordering them corresponds to the order in their atomic structures. Understand that the major groups of chemical elements are: (1) alkali metals, (2) alkaline Earth metals, (3) transition metals, (4) nonmetals (boron family, carbon family, nitrogen family, oxygen family, halogen family, noble gases), (5) metalloids, and (6) rare Earth elements. Know why hydrogen is not in any of these groups.</u>	

TABLE 3D

ILLINOIS Science Grade 11 Assessment Frameworks	PLAN Science College Readiness Standards
STATE GOAL 12: Understand the fundamental concepts, principles and interconnections of the life, physical and earth/space sciences.	
12.11.42. <u>Know that there are two major different kinds of bonds (ionic and covalent). Know the distinction between a compound and a mixture.</u>	
12.11.43. <u>Understand how to use the periodic table to identify the trends in relative sizes of ions and atoms.</u>	
12.11.44. <u>Understand how to use the periodic table to determine the number of electrons available for bonding.</u>	
12.11.45. <u>Understand that the nucleus of the atom is much smaller than the whole atom yet contains most of its mass. Understand isotopes.</u>	
12.11.46. <u>Understand that the transuranium elements were not discovered in nature but synthesized through the use of nuclear accelerators.</u>	
12.11.47. <u>Understand the different states of matter: solid, liquid, gas, plasma. Define freezing, melting, boiling, condensing, and sublimation.</u>	
12.11.48. <u>Understand that the temperature of water (or any substance) is constant during phase changes, even when heat is being added or removed.</u>	
12.11.49. <u>Understand that the kinetic molecular theory explains the properties of gases by the random motion of molecules in them. For example, the collisions of these particles with a surface create an observable pressure on that surface, and their motion explains the diffusion of gases.</u>	
12.11.50. <u>Understand how to apply the gas laws to relations between pressure, temperature, and volume of any amount of an ideal gas. Understand Boyle's Law and Charles' Law and how to logically solve problems.</u>	
12.11.51. <u>Understand the values of standard temperature and pressure (STP): 0° Celsius and 1 atm.</u>	
12.11.52. <u>Understand how to convert between Celsius and Kelvin temperature scales. Understand that there is no temperature lower than 0 Kelvin, or absolute zero.</u>	
The Atom	
12.11.53. <u>Understand that in chemical reactions, atoms combine into molecules by means of bonds (e.g., by sharing electrons to form covalent or metallic bonds or by exchanging electrons to form ionic bonds).</u>	
12.11.54. <u>Know that ions are atoms or groups of atoms that have a positive or negative charge and that polyatomic ions are a group of covalently bonded atoms that act like a single atom when combining with other atoms. Understand that metals tend to form positive ions, and nonmetals tend to form negative ions.</u>	

TABLE 3D

ILLINOIS Science Grade 11 Assessment Frameworks	PLAN Science College Readiness Standards
STATE GOAL 12: Understand the fundamental concepts, principles and interconnections of the life, physical and earth/space sciences.	
12.11.55. Understand that ionic solids like NaCl (sodium chloride, ordinary table salt) are formed from a three-dimensional repeating pattern of alternating positive and negative ions, held together by electrostatic forces (ionic bonds).	
12.11.56. Understand that the conservation of atoms in a chemical reaction, as summarized in a balanced chemical equation, leads to the ability to calculate theoretical masses of reactants and products.	
12.11.57. Understand how to read, interpret, and balance chemical equations.	
12.11.58. Understand that the chemical quantity called “one mole” is set by calling the number of atoms in exactly 12 grams of carbon-12 atoms one mole. This number turns out to be 6.02×10^{23} , also known as Avogadro's Number.	
12.11.59. Understand that energy is exchanged or transformed in all chemical reactions and physical changes of matter. Understand that chemical processes can either release (exothermic) or absorb (endothermic) thermal energy. Understand that energy is released when a material condenses or freezes and is absorbed when a material evaporates, melts, or sublimates.	
Acids and Bases	
12.11.60. Understand that most acids, bases, and salts, when dissolved in water, conduct electric current and form ions in water solutions. Understand the observable properties of acids, bases, and salt solutions.	
12.11.61. Understand that among other definitions of acids and bases, acids are hydrogen-ion-donating and bases are hydrogen-ion-accepting substances.	
12.11.62. Use the pH scale to characterize acidic and basic solutions. Understand the definition of pH as the negative logarithm of the hydronium ion concentration, and understand what the log scale means.	
12.11.63. Distinguish between chemical compounds and solutions and mixtures. Differentiate between solute and solvent. Understand the concentration of a solute in terms of molarity, parts per million, and percent composition.	
Energy	
12.11.64. Understand that energy, defined somewhat circularly, is “the ability to change matter,” or “the ability to do work.” Understand that energy is defined by the way it is measured or quantified. Understand the difference between potential and kinetic energy.	

TABLE 3D

ILLINOIS Science Grade 11 Assessment Frameworks	PLAN Science College Readiness Standards
STATE GOAL 12: Understand the fundamental concepts, principles and interconnections of the life, physical and earth/space sciences.	
12.11.65. <u>Understand that a magnetic field is generated around an electrical current and that the motion of a conducting wire through a magnetic field generates a current through it. Understand that in some substances, such as metals, electrons flow easily, whereas in insulating materials such as glass they can hardly flow at all. Semiconducting materials have intermediate behavior. At very low temperatures, some materials offer no resistance to the flow of electrons and become superconductors.</u>	
12.11.66. <u>Understand that an electrically neutral object has particles within it that are charged, but their charges balance each other out.</u>	
12.11.67. <u>Know the first two laws of thermodynamics: (1) Energy is conserved (neither created nor destroyed) and (2) Heat flows naturally from a hot object to a cold object; heat will not flow spontaneously from a cold object to a hot object. Understand that another statement of the Second Law is that no device is possible whose sole effect is to transform a given amount of heat completely into work.</u>	
12.11.68. <u>Recount the concept of entropy and know that entropy in the universe considered as a whole always increases.</u>	
Light and Sound	
12.11.69. <u>Indicate that the speed of light differs in some material from its speed in a vacuum is given by the index of refraction for that material, n, where n is the ratio of the speed of light in a vacuum to the speed of light in the material. Also know that light follows the path of least time through various materials and that this is not the same as the shortest distance.</u>	
12.11.70. <u>Understand the reflection, refraction, diffraction, interference, and frame of reference properties of waves.</u>	
12.11.71. <u>Understand that sound causes molecules of a medium to vibrate back and forth. This series of compressions and rarefactions produces waves.</u>	
12.11.72. <u>Understand how sound travels through different mediums.</u>	
12.11.73. <u>Understand amplitude, frequency, wavelength, intensity, and quality. Know that intensity is measured in decibels.</u>	
D. FORCE AND MOTION	
12.11.74. <u>Understand that the magnitude of a force F is defined as $F = ma$ (Force equals Mass times Acceleration). Know how to perform such calculations. Understand that whenever one object exerts force on another, a force equal in magnitude and opposite in direction is exerted on the first object. Understand that when two objects exert forces on each other, momentum is conserved.</u>	

TABLE 3D

ILLINOIS Science Grade 11 Assessment Frameworks	PLAN Science College Readiness Standards
STATE GOAL 12: Understand the fundamental concepts, principles and interconnections of the life, physical and earth/space sciences.	
12.11.75. <u>Understand that objects change their velocity only when a net force is applied (the law of inertia). Students will be able to distinguish between inertial mass and gravitational mass.</u>	
12.11.76. <u>Understand simple machines and how they provide mechanical advantage. For example, know that a lever is like a balance and that to balance it requires the weights (or forces) applied on each end to be in the inverse ratio to that of their distances from the fulcrum. Thus the mechanical advantage increases with greater distance from the fulcrum.</u>	
12.11.77. <u>Understand the principles of air pressure and fluid dynamics. Understand Archimedes' Principle and Bernoulli's Principle. Understand that air pressure decreases as altitude increases. Understand that pressure in a liquid increases as the depth increases. Understand how a hydraulic lift (such as the kind used to raise a car for repairs) confers mechanical advantage.</u>	
12.11.78. <u>Understand the universal law of gravitation: that gravitation is a force that every mass exerts on every other mass. The strength of the gravitational attractive force between two masses is proportional to the masses and inversely proportional to the square of the distance between them (inverse square law).</u>	
12.11.79. <u>Understand the types of motion such as linear, circular, parabolic, and periodic. Explain and predict motions in inertial and accelerated frames of reference.</u>	
12.11.80. <u>Understand that the electrical force is a universal force that exists between any two charged objects. Opposite charges attract, like charges repel. The strength of the force is proportional to the charges, and, like gravity, it is inversely proportional to the square of the distance between the charged bodies.</u>	
12.11.81. <u>Understand that between any two charged particles, the electrical force is vastly greater than the gravitational force. Most observable forces such as those exerted by a coiled spring or friction may be traced to electrical forces acting between atoms and molecules.</u>	
E. EARTH SCIENCE	
The Earth's Structure	
12.11.82. <u>Indicate that the earth's crust is made from mostly igneous and metamorphic materials and was formed as a result of partial melting of part of the mantle rock. Know that there is a thin layer of sedimentary rock on top in many places.</u>	

TABLE 3D

ILLINOIS Science Grade 11 Assessment Frameworks	PLAN Science College Readiness Standards
STATE GOAL 12: <u>Understand the fundamental concepts, principles and interconnections of the life, physical and earth/space sciences.</u>	
12.11.83. <u>Understand that geologic time can be estimated by observing rock sequences and using fossils to correlate the sequences at various locations. Understand that current methods include using the known decay rates of radioactive isotopes present in rocks to measure the time since the rock was formed.</u>	
12.11.84. <u>Understand that most scientists believe that the sun, the earth, and the rest of the solar system formed from a nebular cloud of dust and gas 4.6 billion years ago.</u>	
12.11.85. <u>Understand that interactions among the solid earth, the oceans, the atmosphere, and organisms have resulted in the ongoing transformation of the earth system. Understand that we can observe some changes (such as earthquakes and volcanic eruptions) on a human time-scale, but many processes (such as mountain building and plate movements) take place so sporadically or so slowly (over hundreds of millions of years) that we cannot observe them but only infer that they take place from other kinds of evidence.</u>	
The Earth's Dynamic Processes	
12.11.86. <u>Identify the various features of the ocean floor which furnish evidence for plate tectonics: magnetic patterns, age, and topographical features.</u>	
12.11.87. <u>Identify the properties of rocks and minerals based on the physical and chemical conditions in which they are formed, including plate tectonic processes.</u>	
12.11.88. <u>Understand why earthquakes occur and how scales are used to measure their intensity and magnitude, specifically the Richter and Mercalli scales.</u>	
12.11.89. <u>Differentiate between the two main kinds of volcanoes: one kind with violent eruptions producing steep slopes and another kind with voluminous lava flows producing gentle slopes.</u>	
12.11.90. <u>Understand that energy enters the systems of Earth chiefly as solar radiation and eventually escapes again as heat.</u>	
12.11.91. <u>Understand that incoming solar radiation is either reflected or absorbed.</u>	
12.11.92. <u>Understand that non-uniform heating of the earth results in circulation patterns in the atmosphere and oceans that globally distribute heat (in the form of winds and ocean currents).</u>	
12.11.93. <u>Understand the connection between the earth's rotation and the circular motion of ocean currents and air pressure centers.</u>	
12.11.94. <u>Understand that biomes such as rain forests and deserts are distributed in bands at specific latitudes and how this results from the interaction of wind patterns, ocean currents, and mountain ranges.</u>	

TABLE 3D

ILLINOIS Science Grade 11 Assessment Frameworks	PLAN Science College Readiness Standards
STATE GOAL 12: Understand the fundamental concepts, principles and interconnections of the life, physical and earth/space sciences.	
12.11.95. <u>Understand that weather (over a short time) and climate (over a long time) result from the transfer of energy and water in and out of the atmosphere. Understand the effects on climate of latitude, elevation, topography (especially the presence of mountains and valleys), and proximity to large bodies of water, and cold or warm ocean currents.</u>	
12.11.96. <u>Understand that Earth's climate has changed over time, corresponding to changes in Earth's geography, atmospheric composition, plate movement, and the cyclic changes in the orientation of Earth's axis of rotation and the shape of its orbit around the sun.</u>	
The Atmosphere	
12.11.97. <u>Understand the major gases present in the earth's atmosphere, and the percentage which each represents in the composition of the atmosphere (i.e., nitrogen is about 80% and oxygen is about 20%), and that the atmosphere is a mixture, not a compound.</u>	
12.11.98. <u>Understand that carbon dioxide increases the greenhouse effect in our atmosphere and that it is produced whenever carbon-containing fuels are burned (e.g., wood, coal, charcoal, oil, natural gas). Understand that removing forests removes trees which absorb carbon dioxide and release oxygen.</u>	
12.11.99. <u>Analyze weather conditions of an area, given specific weather data.</u>	
Water	
12.11.100 <u>Understand that a water table marks the top of the zone of saturation of subsurface materials.</u>	
12.11.101 <u>Understand at which places in a river or stream one is likely to find a build up of sediment. Understand why sediments of certain sizes build up in different locations in a stream and how this can alter its course over time. Understand how these processes can, over the course of time, change the location of rivers and streams (e.g., meanders).</u>	
F. ASTRONOMY	
12.11.102 <u>Understand and describe the physical characteristics of galaxies and the objects within galaxies (e.g., stars, pulsars, black holes, planets, comets, asteroids). Describe physical characteristics of the sun (e.g., corona, prominences, sunspots, solar flares), and know that solar events can cause phenomena such as auroras.</u>	
12.11.103 <u>Analyze the life cycles of stars, and compare stars of different masses.</u>	

TABLE 3D

ILLINOIS Science Grade 11 Assessment Frameworks	PLAN Science College Readiness Standards
STATE GOAL 12: <u>Understand the fundamental concepts, principles and interconnections of the life, physical and earth/space sciences.</u>	
12.11.104 <u>Know the theory that over 10 billion years ago the universe began in a huge expansion called the Big Bang. Understand that in this event, all matter, energy, space, and time were created as the universe expanded from a single point. Understand that one piece of evidence for this theory is the 3K background radiation.</u>	
12.11.105 <u>Understand the Doppler effect with respect to light (red and blue shifts) and sound (e.g., the sound of an approaching train's whistle vs. the sound of the whistle moving away). Understand that astronomers use the Doppler shift to estimate the distance of objects millions and billions of light-years away.</u>	
12.11.106 <u>Understand the effects of gravity within the solar system. Understand that the tides are caused by the gravitational interaction among the earth, moon, and sun.</u>	

TABLE 3D

ILLINOIS Science Grade 11 Assessment Frameworks	PLAN Science College Readiness Standards
STATE GOAL 13: Understand the relationships among science, technology and society in historical and contemporary contexts.	
A. SAFETY AND PRACTICES OF SCIENCE	
13.11.01. Understand basic rules of safety in conducting scientific experiments in a laboratory or in the field.	
13.11.02. Understand why experimental replication is essential to scientific claims.	
13.11.03. Understand how scientific knowledge, explanations, and technological designs may change with new information.	
13.11.04. Understand that scientists must be responsible about how they conduct their experiments.	
13.11.05. Determine the degree of accuracy in measurements. Identify possible sources of error in measurement.	Scientific Investigation: Understand the methods and tools used in a simple experiment Understand a simple experimental design
B. SCIENCE, TECHNOLOGY, AND SOCIETY	
13.11.06. Analyze scientific breakthroughs in terms of societal and technological effects.	
13.11.07. Analyze examples of resource use, technology use or conservation program and make recommendations for improvements.	
13.11.08. Analyze careers and occupations that are affected by knowledge of science.	
Measurement	
13.11.09. Select appropriate scientific instruments and technological devices to perform tests, measure, and collect data.	Scientific Investigation: Understand the methods and tools used in a simple experiment
