

WorkKeys[®]

United States and U.S. Territories

**County FIPS (Federal Information
Processing Standards) Codes Manual**

ACT[®]

United States and U.S. Territories County FIPS (Federal Information Processing Standards) Codes Manual

Instructions:

This Manual has been designed to help test administrators instruct examinees on how to correctly complete Box 21 on the WorkKeys Answer Folder. ACT appreciates the hard work of the numerous test administrators across the country, and we are confident that the additional steps in preparing the test site and instructing examinees will add value to the data collected and reinforce best practices in the administration of WorkKeys tests.

The addition of Box 21 is part of an overall initiative to improve the organization's ability to gather meaningful data. The test administrator is a crucial component in this process, and we are excited to have them working with us. Consistently adhering to all applicable policies governing ACT testing protocols will help to ensure the integrity and validity of the data obtained. Accurately gathering key demographic data about each examinee will provide input necessary in the analysis that states and counties can use to transform WorkKeys and the NCRC into a regional tool for economic development and enable examinees to have more opportunities in the workplace. Aggregated demographic data will be displayed on a county level at www.workreadycommunities.com.

Enclosed you will find FIPS codes for every county in the United States of America, including its territories. They are listed in alphabetical order by state name, followed by territories. The FIPS code that corresponds with the examinee's county of residence must be entered in Box 21 on the answer folder.

Pre-Test Procedures (Prepping the Test Area)

In addition to established protocols for WorkKeys tests, the test administrator shall post the FIPS codes of surrounding counties on a board to assist the examinees in easily entering the appropriate code in Box 21. The codes should be visible to all examinees. It is recommended that the test administrator highlight common and surrounding county codes in this Manual for quick reference during the pre-test and testing process.

Testing Procedures (Test Instructions/Directions)

Inform the examinees that if their county of residence is listed on the board, they should enter the appropriate code into Box 21. Ask if any examinees need any other county FIPS codes listed on the board for reference. If you do, the test administrator should write the additional codes on the board. The test administrator should inform the examinees that they must enter a digit in each of the five columns in Box 21. It is recommended that the test administrator walk around the room to ensure Box 21 is being completed and to tell examinees their FIPS code if they are having difficulty seeing the board.

Quality Assurance

In accordance with existing provisions, please be aware of the following procedures:

- Demographic data, specifically Box 21, should not be pre-filled for examinees prior to their arrival at the testing location.
- Demographic data, specifically Box 21, should not be filled in following the test if the examinee has failed to do so correctly and/or completely.
- Demographic data, specifically Box 21, should not be altered after it has been completed by the examinee.
- Examinees should always be instructed to complete demographic data.
