# Student Performance by Subject

This information is found on the lower half of the previous report.

Percent Correct measures the students performance in each category.

Points Earned out of total possible points in each category.

Readiness Percentage is what the student needs to meet the benchmark.

## Skill Proficiency

	Percent Correct	Points Earned	Readiness Percentage
Grade Level Progress	29	5 of 17	26%
• Number and Operations - Fractions	25	1 of 4	22%
• Number and Operations in Base 10	33	1 of 3	25%
• Operations and Algebraic Thinking	33	1 of 3	29%
• Geometry	25	1 of 4	29%
• Measurement and Data	33	1 of 3	23%
Integrating Essential Skills	38	3 of 8	33%
Modeling	31	5 of 16	28%

Dark blue = Meets Benchmark  
Light blue = Below Benchmark

### Scale Score Range: 156 – 160

Test scores are estimates of your educational development. Think of your true achievement on this test as being likely within the Score Range.

### National Percentile Rank

The percentage of other grade 5 students in the nation who received a score that is the same as or lower than yours.

### ACT Interim Readiness Benchmark

Students who score at or above these benchmarks are on target to meet ACT's College Readiness Benchmarks when they are in 11th grade.

# Individual Student Report (ISR)

The Individual Student Report (ISR) provides test data for all subjects tested.

**Progress with Text Complexity**

Students must read and understand increasingly complex texts to prepare for the reading demands of college and career. Examples of factors that contribute to text complexity are vocabulary level, sentence structure, and rhetorical structure. The reading test measures progress with text complexity by assessing understanding of texts from a range of complexity levels.

**Your Student has not met readiness for text complexity**

\*\* National Percentile ranks show the percentage of other grade 5 students in the nation who receive a score that is the same as or lower than yours.

**Scale Score Range**

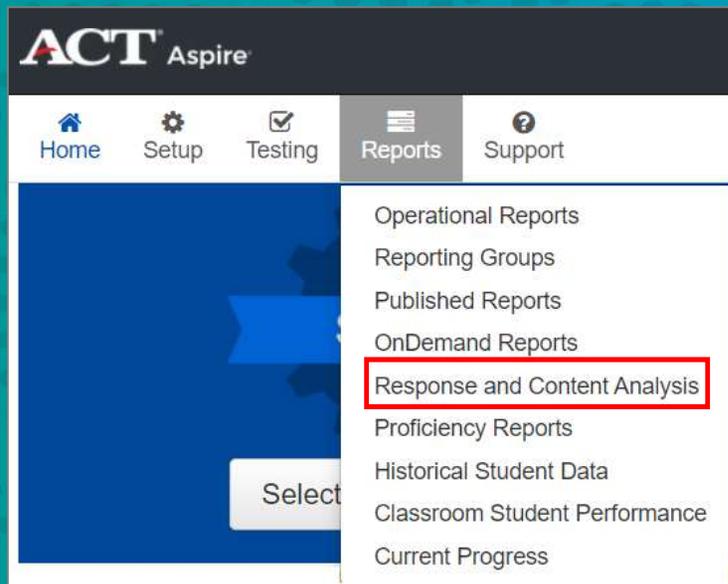

Test scores are estimates for your educational development. Think of your true achievement on this test as being likely within the Score Range.

<b>English:</b>	164-168	<b>Reading:</b>	159-163
<b>Science:</b>	167-171	<b>Math:</b>	156-160

\*\* Predicted Path: Predicted end-of-year score range assuming typical growth. Represented with a grey bar on the score dial.

**From How Monkeys Make Chocolate: Unlocks the Mysteries of the Rainforest**  
by Adrian Forsyth

The forests of the Amazon are full of monkey. Capuchin monkeys and spider monkeys travel through the forest in large troops. They jump from tree to tree, crashing through the vegetation in search of food. Groups of tiny, agile squirrel monkeys often follow in their wake, swinging and chattering. They poke through the debris scattered by the larger monkeys, eating the insects their movements shake from their hiding places. There is safety in numbers—the more monkeys, the more eyes.

# Historical Student Data

# Historical Student Data

The screenshot shows the 'Historical Student Data' interface. At the top, there are two tabs: 'Tasks' (0 Selected) and 'Students' (0 Selected). The 'Tasks' tab has a 'Select Tasks' dropdown and a 'Start' button. The 'Students' tab has a 'Manage' dropdown. Below the tabs is a 'Find Students' section with a search bar and a 'Search' button. To the left of the search bar are filter sections for 'First Name', 'Last Name', and 'Group'. The 'Group' filter is currently set to 'Group B'. Below the filters is a 'Toggle secondary filters' link. The main area shows '16 Results' and a table of student data. A callout box points to the 'Start' button with the text: 'After selecting the boxes by the student names, select View Historical Student Data from the Start menu.' Another callout box points to the search bar with the text: 'Search or select a filter to view results.' A third callout box points to the checkboxes in the table with the text: 'Select the boxes next to the students to view their historical data.'

**Progress with Text Complexity**

Students must read and understand increasingly complex texts to prepare for the reading demands of college and career. Examples of factors that contribute to text complexity are vocabulary level, sentence structure, and rhetorical structure. The reading test measures progress with text complexity by assessing understanding of texts from a range of complexity levels.

Insufficient Progress 43% (37)

Progress Distribution: Percent and Count

Sufficient Progress 56% (49)

---

**NATIONAL PERCENTILE RANK**

The ranks show how this group performed in comparison to other grade 7 students in the nation. For example, if the median English score is at the 78th percentile, the typical student in this group achieved a score at the 78th percentile.

**ABOUT PROGRESS**

The progress charts summarize aggregate performance of students from previous months and the Predicted Average is where the predicted end-of-year average scores will be assuming that students will demonstrate average growth.

against the backdrop of the ACT Interim Readiness Benchmarks. The Current Average scores are test averages from
