Isn’t it time to improve the accuracy and effectiveness of placement?

ACT® CollegeReady™ is a student success tool from the makers of the ACT test. It precisely assesses students’ college readiness and helps them improve.

HERE’S HOW IT WORKS...

Assessment
Students take an initial diagnostic that reveals to them, and your institution, if they are ready for college-level math and English courses. The resulting report flags knowledge gaps.

Knowledge Checks
Once students feel they understand a topic, they can test their knowledge. As their mastery expands, their CollegeReady score improves.

Study Path
Students who need to address their knowledge gaps can use their personalized CollegeReady study path to improve their readiness.

Learning Interventions
Students progress through their study path with the help of high-quality, multimedia educational resources that support different learning styles and preferences.

Reporting
Easy-to-use reporting dashboards provide actionable data, including real-time student progress information.

Math & English
Institutions can procure CollegeReady Math, CollegeReady English, or both products.
TWO METHODS OF IMPLEMENTATION FOR PLACEMENT

Supervised Diagnostic
Institutions can proctor the initial diagnostic in CollegeReady the same way a traditional placement exam is administered, followed by personalized study support for students who need it.

Independent Diagnostic
Institutions can invite students to take the initial diagnostic independently and then work through their study path prior to registering for math and English courses.

Affordable & Efficient Implementation, Ready to Scale
PAY FOR WHAT YOU NEED
The low-cost, per-student annual subscription model allows you to tailor your use of ACT CollegeReady.

PLUG AND PLAY
ACT CollegeReady was built on tested technology and use cases, so you can feel confident launching the tool without resource-heavy fine-tuning.

JUST GROW IT
ACT CollegeReady was designed to scale with ease, so you can expand usage across your campus, system, or state without losing sleep.

Ongoing Support
Students can continue to use CollegeReady to review concepts and check their knowledge, while institutions gain performance insights that allow them to see how cohorts are progressing.

Learn how CollegeReady can improve the accuracy and effectiveness of your institution’s placement efforts.
