

MAKE YOUR STUDENTS UNSTOPPABLE

Nearly half of all college-bound students are not ready for college-level coursework in math or English. Most of these students will not graduate from college.

Isn't it time to think about what you can do to ensure your students are ready for college-level courses?

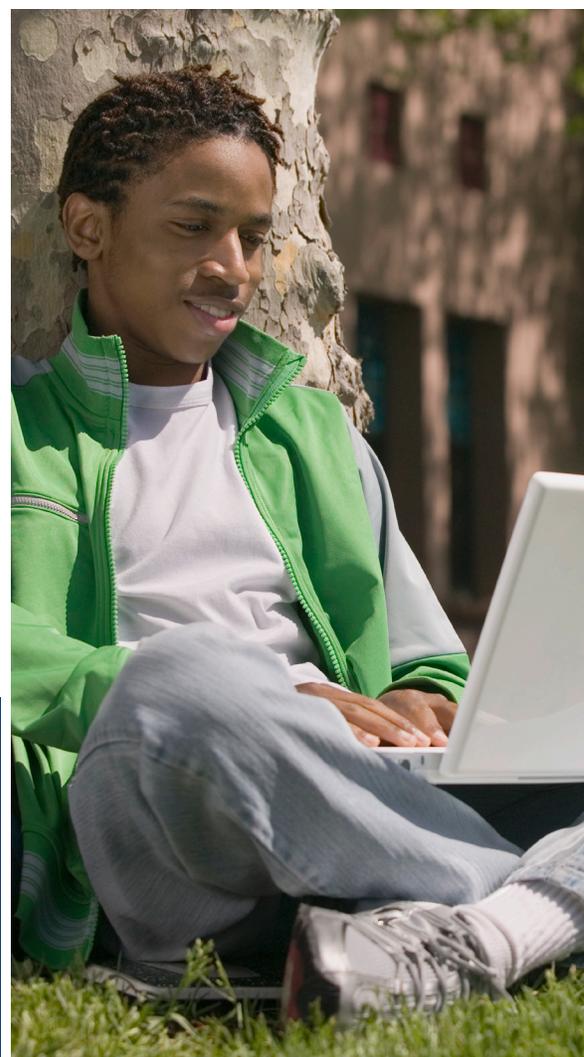

More than 50 percent of students entering two-year colleges and nearly 20 percent of those entering four-year universities are placed in remedial classes.¹ Unfortunately, it's estimated that fewer than 1 in 10 of these learners graduate from community colleges within three years and little more than a third complete bachelor's degrees in six years.²

How can you reduce barriers to readiness, retention, and completion?

Increase the focus on student success through just-in-time math and English readiness with **ACT® CollegeReady™**.

^{1,2} Remediation: Higher Education's Bridge to Nowhere. (2012). [PDF] Washington, DC: Complete College America, pgs. 2-3, 10. Available at: <http://completecollege.org>.

ACT® CollegeReady™ is a student success tool that identifies knowledge and skill gaps in math and English and creates a personalized learning path that empowers students to address their individual academic needs.

Schools and Districts can use CollegeReady in many ways:

- **Support for Underperforming Students** — Accurately identify seniors who will likely have difficulty in college-credit-level coursework as determined by their ACT subject scores or other district-identified measurements. By offering CollegeReady, districts have a proven tool to help targeted seniors improve their placement and support readiness.
- **Supports Solution for ESSA Plans** by providing robust reporting data and a tool that determines college preparedness in math and English.
- **Title I Comprehensive Program Support** — Raise academic achievement for seniors with this schoolwide program that is available to schools with a student base where at least 40% come from low-income families.
- **Title III English Learners Program** — Help ensure that English learners (ELs) attain English language proficiency and meet state academic standards.
- **Supports Solution for Multi-Tiered System of Supports (MTSS) and Response to Intervention (RTI) implementations** in districts and high schools.
- **STEM Major Support** — Data shows that students who don't earn a math benchmark of 26 struggle to reach their goals to achieve a degree in a STEM focused field. Use CollegeReady to support students aspiring to a STEM major.
- **Personalized Pathway** for each student's learning that adjusts based on built-in progress monitoring.
- **Parent Support** — Districts can recommend CollegeReady to parents to use at a pass-through cost. By offering CollegeReady, these districts have a proven tool to assist students and families and help them save time and money by avoiding remedial, non credit-bearing courses in college.

Benefits for Learners

- **Increased Preparedness:** Learners have an easy-to use online platform to guide their preparation for success in college-level math and English.
- **Accelerated Learning:** Learners gain access to a personalized study path, enabling them to accelerate their progress by focusing on their areas for development.
- **Cost Savings:** Learners can avoid—or dramatically reduce the need for traditional remediation through non-credit developmental courses, saving time and money.
- **Expanded Knowledge base:** Learners can choose to utilize CollegeReady as a resource and learning aid throughout their educational journey.

- **Student-Centered:** Learners receive real-time feedback about what they already know, what they need to review, and what they need to learn to become college-ready.
- **Improved College Completion Likelihood:** By improving college-level math and English, learners improve college completion likelihood.

Benefits for Schools and Districts

- **Engagement with Students:** Districts can engage early with learners by providing them access to CollegeReady so they can prepare prior to college registration.
- **Reporting Dashboards:** Administrators and educators gain access to detailed student reporting dashboards that reveal an individual student's needs.
- **Unlimited Access:** In addition to preparing students for credit-level coursework prior to college registration, CollegeReady can be used as a resource by both students and educators during the one-year subscription.
- **Increase College Completion Rates:** By improving students' college-level math and English, districts improve the likelihood of college completion.

How to Use CollegeReady

Target Students

Identify seniors who are likely to have difficulty in college-credit-level coursework as determined by their ACT subject scores or other district-identified measurements.

Development

Provide CollegeReady to those needing to improve their readiness. Learners can accelerate their path to college readiness with the personalized learning path that CollegeReady creates for them.

Reporting

Schools and districts receive actionable data with real-time information on student activity and progress.

Continued Improvement

CollegeReady can continue to support students' skill improvement throughout their senior year while providing educators valuable insights on student progress.
