Like you, we’re dedicated to the success of every student—today, tomorrow, and well into the future. ACT is about more than just a test. We offer products and services that open doors, build confidence, and unleash the potential of your students. Assessment and social and emotional support, done right, is about creating a more holistic view of students so that together, we can help our young people be college and career ready while making the most of their potential.
As with academic learning, evaluating student progress in building SEL skills matters. Measure CASEL-aligned SEL skills, plus school climate, and provide clear feedback to students, educators, and parents with this proven assessment. Use with the Mosaic™ by ACT® Social Emotional Learning curriculum and framework to give students and teachers the most robust support in the industry.

“Week after week, we see positive changes in the climate and culture of all of our middle schools, district-wide—all because our students and staff truly enjoy applying the SEL tools.”

— Miami-Dade County Public Schools

PreACT® 8/9 is the first step toward practicing for the ACT® test. This multiple-choice assessment gives 8th- and 9th-grade students an early measure of college and career readiness while reducing test anxiety and providing performance predictions. With PreACT 8/9, your students can have an earlier indication of success and a starting point on the path to college.

act.org/preact8-9

“‘We try to instill in the students that this is a learning experience with Aspire and PreACT. If you’re in a sport on the JV team, you’re preparing for that big game or to play varsity. This is going to make you more confident, so when you take the real ACT, it will be old hat. You know you’ll be able to do a lot better.’

— Principal Dr. Vince Powell, Affton High School, MO

Administered in grade 10, PreACT gives students practice with taking the ACT. Educators can use insights from PreACT report data to have earlier, more informed conversations with students about topics such as course selection, career plans, postsecondary options, and potential scholarships.

“‘We're trying to make this a whole approach where schools, students, and parents are all aligned to giving our students the best grades possible on their ACT.’

—Michael Menth, Teacher, Cedar Mountain High School

ACT Online Prep is an engaging, interactive test prep program that provides an online, interactive program to help students prepare for the ACT test. The program features curriculum and questions from previous tests in all four subject areas (English, math, reading, and science). High-quality learning content includes lessons, practice questions, interactive gaming modules, and flashcards, available on mobile devices with internet so students can practice for the ACT test at home or on the go.

“If we really care about kids, what we want are better results on the tests that are going to get them into college and college scholarships. When we say we value the ACT results and we’re going to take assessments once a year to find out where your kids are moving towards that college and career readiness benchmark, parents say that’s a value they can get behind.”

— Declan FitzPatrick, Executive Director of Curriculum and Instruction, Fox C–6 School District, MO

For many students, attending college and going on to fulfilling careers is part of a lifelong plan. The ACT® test is an essential part of making those plans possible. As the leading US college admissions test, ACT scores are accepted by every 4-year college and university and provide students with access to millions of dollars in scholarships. For educators, these test results provide you with the data to position students for success after high school.

“What does it mean to be “career ready”? While there is no single answer to that question, almost every answer includes a core set of foundational skills in Applied Math, Workplace Documents, and Graphic Literacy. ACT® WorkKeys® Assessments and Curriculum helps individuals demonstrate their job readiness while enabling communities, educators, and employers to build a skilled workforce in a rapidly changing environment.

“The ACT® WorkKeys® National Career Readiness Certificate® (NCRC®) is a portable, evidence-based credential that certifies the essential skills for workplace success. Employers look for it from job candidates, whether they come directly from high school, work-based learning programs, or through postsecondary paths, because it is a valid predictor of job performance.

act.org/workkeys-ncrc

“The Standards are meaningless until you define how to assess them. Therefore, assessments are the starting point.”

— Dr. Jorge Peña, Former Director of School Improvement and Catholic School Accreditation, Archdiocese of Chicago

For those who do choose a CTE [career and technical education] path, they would also leave with some industry-standard credentials and technical studies, so we think it’s a good way to ensure students have a broad array of choices after they graduate.”

— Jo Ann Honeycutt, CTE Director at North Carolina DPI

The ACT® WorkKeys® National Career Readiness Certificate® (NCRC®) is a portable, evidence-based credential that certifies the essential skills for workplace success. Employers look for it from job candidates, whether they come directly from high school, work-based learning programs, or through postsecondary paths, because it is a valid predictor of job performance.
