

Your PreACT® Composite Score is 19

This graph visually represents your PreACT scores compared to the ACT Benchmark. When looking at this you can see where your score compares to the ACT College Readiness Benchmarks.

— Your PreACT® Score
 ■ Your PreACT Score Range
 ● ACT Readiness Benchmark

Your PreACT scores consist of different scores for each subject test (math, science, English, and reading) along with the average of all of your subject scores (the Composite score). The STEM score is the average of your math and science scores only.

Your PreACT Score Range

Test scores are estimates of your educational development. Think of your true achievement on this test as being within a range as shown by the bands around your scores.

ACT College Readiness Benchmarks

ACT scores at or above the Benchmark mean that a student has at least a 50% chance of obtaining a B or higher or about a 75% chance of obtaining a C or higher in specific first-year college courses in the corresponding subject area.

Your Predicted ACT Composite Score Range is 20–23

The scores below predict your future performance ranges when taking the full ACT in a year's time assuming typical achievement growth.

COMPOSITE	20–23	MATH	20–24	SCIENCE	18–22	STEM	18–22	ENGLISH	20–24	READING	21–26
-----------	-------	------	-------	---------	-------	------	-------	---------	-------	---------	-------

Progress Toward the ACT National Career Readiness Certificate®

This indicator predicts the ACT National Career Readiness Certificate (ACT NCRC®) that students with this PreACT Composite score are likely to obtain. The ACT NCRC is an assessment-based credential that documents foundational work skills important for job success across industries and occupations. Visit www.act.org/NCRC-indicator to learn more.

Students with this PreACT Composite score are likely to obtain a Silver level on the ACT NCRC in the 11th grade.

US Rank

Composite	68%
Math	74%
Science	50%
STEM	60%
English	70%
Reading	74%

Your Detailed PreACT Results

The scores below represent your performance on reporting categories measured by the test. Reporting category designations are provided to help you to start to focus on strengths and weaknesses. Categories with only a few items may be less representative of your overall achievement in that category.

MATH

	Correct/Total†	Percent Correct	
Preparing for Higher Math	13/21	62%	■
• Number & Quantity	3/3	100%	■
• Algebra	3/5	60%	■
• Functions	4/5	80%	■
• Geometry	2/5	40%	■
• Statistics & Probability	1/3	33%	■
Integrating Essential Skills	7/15	47%	■
Modeling	4/10	40%	■

SCIENCE

Interpretation of Data	6/12	50%	■
Scientific Investigation	6/10	60%	■
Evaluation of Models, Inferences & Experimental Results	2/8	25%	■

ENGLISH

	Correct/Total	Percent Correct	
Production of Writing	10/14	71%	■
Knowledge of Language	5/7	71%	■
Conventions of Standard English	14/24	58%	■

READING

Key Ideas & Details	10/14	71%	■
Craft & Structure	4/8	50%	■
Integration of Knowledge & Ideas	2/3	67%	■

Understanding Complex Texts

This indicator lets you know if you are understanding the central meaning of complex texts at a level that is needed to succeed in college courses with higher reading demand.

* About the PreACT test and score scale

The PreACT is shorter than the full ACT and is based on a subset of ACT test specifications. The PreACT is reported on the same 1 to 36 score scales as the ACT, but PreACT has a maximum score of 35.

† Math test questions can map to multiple reporting categories, so totals will exceed the number of questions on test.

PreACT Composite Score: For each test we converted your number of correct answers into a 1 to 35 score. Your Composite score is the average of your scores on the four subject tests (math, science, English, and reading) rounded to the nearest whole number. If you left any test completely blank, that score is reported as two dashes and no Composite score is computed.

STEM: Science, Technology, Engineering, and Math.

US Ranks are for Fall 10th grade.

Your High School Course Plans Compared to Core

A college-preparatory **core** curriculum refers to students taking 4 years of English and 3 years each of math, social studies, and science.

You ■ Core ■

Your course-taking plans fall short of a college-preparatory core curriculum in 3 subjects. Your chances for college success can be enhanced by completing additional courses in math, social studies, and science. You may want to talk to your counselor or teacher(s) to make sure you are getting the courses you need.

Your Education and Career Journey

The Career Map shows 26 Career Areas (groups of similar occupations) according to their basic work tasks: working with People, Things, Data, and Ideas. The Career Map is divided into 12 regions. Each region has its own unique mix of work tasks. For example, Career Area P (Natural Science & Technologies) mostly involves working with Ideas and Things. What do you think Career Area C involves?

Your Interests

Your interest inventory results are shown on the Career Map. The shaded regions show the kinds of work tasks you prefer and the Career Areas you may like. Visit www.act.org/collegeplanning to find out more about occupations in these Career Areas.

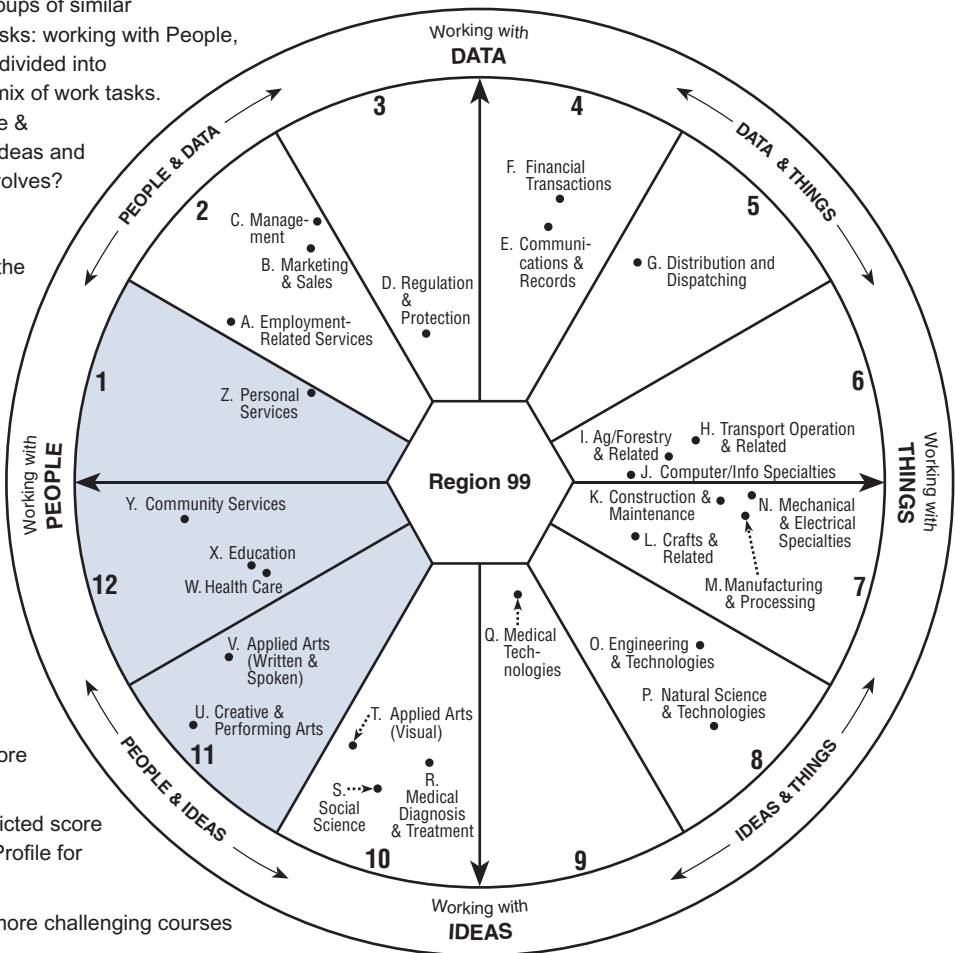

On Track?

Your Predicted ACT Composite Score range: 20–23

Profile for Success: You told us you prefer Career Area C: Management. Successful college students in majors related to this Career Area often have an ACT Composite Score in the range of 21–25.

Compare your Predicted ACT Composite Score range to your Profile for Success.

- You're on track for success if your predicted score range overlaps with, or is above, your Profile for Success score range.
- Improving your study skills and taking more challenging courses may help you improve your scores.

Your Interest-Career Fit

Do your interests fit the Career Area you prefer? You told us:

Management

We compared your Career Area to your interest inventory results. You are somewhat interested in the kinds of work done in this Career Area. Workers are often more satisfied when their interests fit the kinds of work they do.

Next Steps

Ideas for Progress

Number & Quantity

- recognize, identify, and apply basic properties of real numbers (e.g., commutative, associative, identities)

Algebra

- evaluate algebraic expressions and solve simple equations, using integers for Algebra

Functions

- use function notation to create equations that model real-world and mathematical problems

Geometry

- find area and perimeter of triangles and rectangles by substituting given values into standard geometric formulas

Statistics & Probability

- gather, organize, display, and analyze data in a variety of ways for use in problem solving

SCIENCE

Correctly Answered: **14 of 30**
 Omitted: **2 of 30**
 Incorrectly Answered: **14 of 30**

Question	Correct Answer	Incorrect Response
1	A	
2	F	
3	B	
4	G	H
5	D	B
6	H	
7	A	
8	F	G

24	J	G
25	D	
26	F	-
27	C	
28	J	F
29	C	B
30	H	J

Ideas for Progress

Interpretation of Data

- create a visual display that summarizes a set of raw data

Scientific Investigation

- read experiments, and identify the tools and measurements used

Evaluation of Models, Inferences & Experimental Results

- critique the claims and evidence presented by peers by citing examples from data sets that support or refute their claims

A blank response is marked with a dash (-).

A response with more than one answer is marked with an asterisk (*).

Ideas for Progress

Production of Writing

- read drafts with a partner and discuss how changing specific words or phrases would change each draft's purpose
- practice writing varied conclusions

Knowledge of Language

- revise drafts to make writing more concise and precise

Conventions of Standard English

- practice recognizing fused sentences or run-ons and how to separate them into two simpler, clearer sentences
- check drafts by circling the prepositions to ensure they are the ones intended
- find examples of commas used to set off parenthetical phrases in advertising copy or published authors' work

READING

Correctly Answered: **16 of 25**

Omitted: **0 of 25**

25	A	

Ideas for Progress

Key Ideas & Details

- distinguish between what is most and least important in increasingly challenging texts
- distinguish between key concepts and subordinate ideas in a text and write a concise summary about one of the key concepts
- examine events in written or nonprint sources to determine the primary cause(s) and final outcome(s)

Craft & Structure

- research words and phrases from different sources, identifying their shades of meaning in various contexts or situations
- explain why an author may use one or more organizational patterns
- search for clues that suggest the viewpoint from which a challenging literary narrative is written or told and determine whether that point of view is reliable or biased

Integration of Knowledge & Ideas

- defend or challenge the author's or narrator's assertions by locating several key pieces of information in a text
- synthesize information from multiple informational texts to clarify understanding of important concepts and ideas

CORRECTING ERRORS ON YOUR REPORT

If you think there is an error in information other than your scores or you want to change information (e.g., address change) within 3 months of receiving your scores, write to:

ACT Student Services
PO Box 414
Iowa City, IA 52243-0414

If an error is found to have been made, a corrected score report will be sent to you and all previous score recipients at no charge.

RETENTION POLICY

We keep registration records for 5 years, answer documents for at least 1 year, and test scores indefinitely.
